

**HILTON PARK PRECINCT  
PLANNING  
COMMUNITY ENGAGEMENT  
OUTCOMES REPORT  
SEPTEMBER 2024**

**SHAPE URBAN**

## ACKNOWLEDGEMENT

Shape Urban would like to acknowledge the Whadjuk Noongar people as the Traditional Owners of the lands on which we work, their connection to country and lands, waters and skies and the enduring relationship with everything which we are lucky enough to share. We aim to respect this in all the work we do.

We pay our respects to Elders past and present, and to the land which they have cared for.

This document has been prepared with the support of many people from the City of Fremantle community. We wish to acknowledge the City of Fremantle community for your contribution.

# EXECUTIVE SUMMARY

The City of Fremantle is developing a Place Plan and Master Plan to create a vision for the renewal of the Hilton Park Precinct as a modern civic green space.

The development of the plans includes extensive community and stakeholder engagement with local Aboriginal Elders, a Project Working Group (PWG) and the broader community who use/want to use the Precinct. Engagement is broadly occurring in four rounds.

- + Round one - to understand how people use the precinct, their values and aspirations.
- + Round two - to seek support for the draft place themes, vision and facility aspirations.
- + Round three - to seek feedback on the draft Place Plan.
- + Round four - to seek feedback on the draft Master Plan.

## Round one engagement

The first round of engagement included:

- + A Walk on Country with local Aboriginal Elders.
- + Two PWG meetings
- + Online feedback via a mapping tool (7 August - 3 September 2023)
- + A community BBQ (26 August 2023)
- + Opportunity for direct written feedback

The matters that were regularly raised during the consultation were:

- + Watching and playing sports is highly valued.
- + Walking the dog is highly valued.
- + Desire for path around the entire perimeter.
- + Desire for new and improved toilets, female change rooms and spaces for community and cultural events.
- + Consideration of other uses including 18 hole disc golf (rather than nine), larger basketball court, fenced dog area, community uses, table tennis and skate park.

## Round two engagement

The second round of engagement included:

- + One PWG meeting
- + Online feedback via a survey (16-29 November 2023)
- + A community drop-in session (18 November 2023)
- + Opportunity for direct written feedback

The matters that were regularly raised during the consultation were:

- + The importance of a fenced dog exercise area.
- + Consideration of 18-hole disc golf and table tennis facility.
- + Consideration of a cafe/bar on site.
- + Consideration of fencing to improve safety of users.
- + Consideration of non-sport users on site.
- + Consideration of sustainability measures that can be used on site.
- + Reduction of use of chemicals/sprays/pesticides.

### Round three engagement

The purpose of the third round of engagement was to seek feedback on the draft Place Plan. Feedback was sought via a survey between 5 February and 4 March 2024. 33 survey responses were received.

The general sentiment of feedback shared by the community is that the Place Plan is supported however there is a need for more information and clarify around certain aspects of the plan.

The following highlights some of the matters raised that should be considered as either an amendment to the Place Plan or as an inclusion in the Master Plan.

- + Opportunity to provide additional details on history of the site.
- + Recognise the importance of the disc golf and clarity around how it will be impacted by changes at the park.
- + Clarity around the basketball court.
- + Clarity around need for additional ovals.
- + Clarity regarding when and where off-lead dog walking is permitted.
- + Consideration of existing uses and proposed new path network.
- + Consideration of using existing buildings for community activities.
- + Inclusion of details how the plan balances existing activities and the environment.

### Round four engagement

The final round of engagement provided the community with the opportunity to share their thoughts on the draft Hilton Park Masterplan. The Masterplan was advertised for public comment between 31 May and 30 June 2024, with feedback from the community to be provided via an online survey.

22 survey responses were received. The general sentiment was positive, however the majority of respondents felt some changes were needed to the Masterplan.

- + 55% somewhat supported the draft Masterplan but felt changes were needed.
- + 36% supported the draft Masterplan.
- + 9% did not support the draft Masterplan.

No major changes are recommended based on the engagement, however there are some minor updates that could be included if considered appropriate, including:

- + Disc golf - greater emphasis on retention and expansion of disc golf course to remove any uncertainty that the course is being reduced. Work with the local disc golf community in the design and enhancement of the course.
- + Fenced dog park - as part of the future management of the park, provide clear communication for park users about on/off-lead dog use times and locations.
- + Lighting - emphasis on lighting being a key component to improve park user safety.
- + Paths - emphasis on paths being shared for all users.

Other matters that require further review and consideration by the project team include:

- + Youth zone - review the appropriateness of the youth zone being used for overflow event parking.
- + Toilets - include commentary and details about the existing public toilet block ie. whether it is being removed and replaced within other facilities elsewhere or upgraded in current location.

# INTRODUCTION

# 1. INTRODUCTION

The Hilton Park Precinct is a highly valued and utilised space by the community. It offers a range of passive, active, organised and unorganised recreation.

## 1.1 Background

The City has commenced a project to revitalise the Hilton Park Precinct.

The project will involve the preparation of a Place Plan and Master Plan that will see the Hilton Park Precinct renewed as a contemporary civic green space that meets the wants and needs of the community whilst also ensuring feasible delivery potential.

- + A Place Plan - analysis, opportunities and vision that inform the future of the space, with a list of actions and outcomes required to achieve the vision.
- + A Master Plan - a concept plan (image), with design rationale and preliminary costings to deliver the future space.

## 1.2 Purpose of the Report

This report provides an overview of the engagement undertaken throughout the project.

## 1.3 Engagement purpose

The overarching purpose of engagement is to provide the community and stakeholders the opportunity to contribute to the Hilton Park Precinct Plan, to address their wants and needs.

More specifically, the objectives of the engagement are:

- + To raise awareness of the project amongst the community and stakeholders;
- + To understand the community values, wants, needs and barriers;
- + To build community connections;
- + To engage with a broad cross section of community;
- + To work with existing stakeholders on the site to identify others who may want to be located in the Precinct;
- + To understand who is not using the site and why; and
- + To provide a 'space' for the stakeholders to speak freely.

# 2 ENGAGEMENT METHODS

## 2. ENGAGEMENT METHODS

To ensure that stakeholders and the community could be actively involved with the project, there were multiple opportunities for consultation, each with different methods for participation.

### 2.1 Aboriginal Engagement

The project team recognise and acknowledge the Whadjuk Noongar people as the Traditional Owners of the land within and around the Hilton Park Precinct.

Engagement with local Elders is a fundamental element of the Master Plan's development. The local knowledge, stories and histories the Elders can share about the area are invaluable to the process.

Engagement with Aboriginal Elders for the Master Plan will occur at three key moments.

1. The first is a Walk on Country with the Elders group, to gain an appreciation of their history, perspectives and requirements /recommendations. This occurred early in the project before significant community engagement commenced.
2. The second will be held later in the year to reconnect with the Elders to seek their input into the concept designs and provide further opportunity to reveal history, stories and requirements.
3. The last engagement of this project (noting that ongoing engagement shall occur in delivery) will be held in 2024 as concepts and plans for the site are further progressed.

### 2.2 Project Working Group

A PWG has been established for the Precinct with key stakeholders (Figure 1) to discuss matters relevant to the Precinct such as management, capital works and the Place and Master Plans.

The purpose of the PWG is to:

- + Engage with the key stakeholders who act as representatives for their broader community to ensure they are involved in the development and delivery of the project.
- + Collaborate to develop a great project.
- + Provide advice and information to the Project Team.
- + To provide a pathway for sharing recommendations to the City's Executive Leadership Team regarding project information, feedback and deliverables.

The PWG meetings are held approximately bi-monthly.

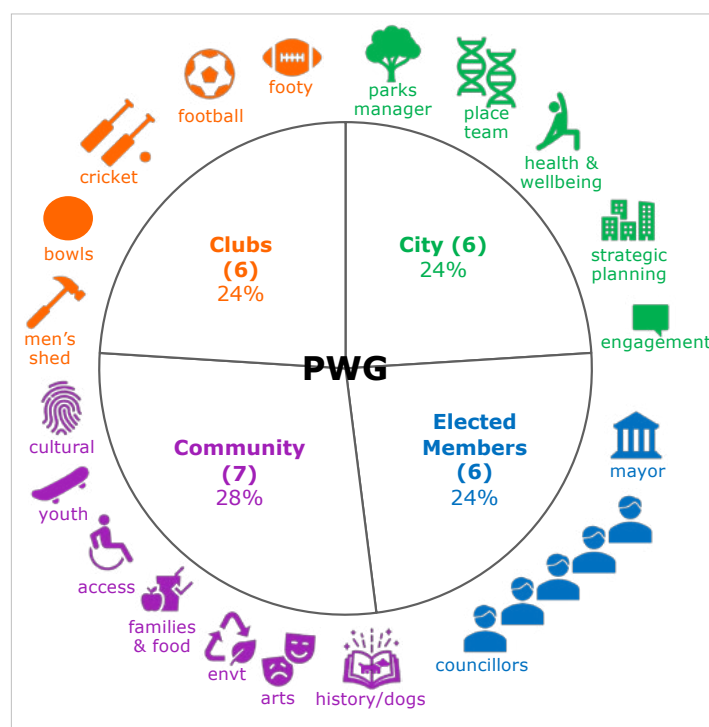

Figure 1 PWG participants (source: City of Fremantle)

## 2.3 Broad Community Engagement

### 2.3.1 Round One - values and aspirations

The purpose of this round of engagement was to enable the broader community to be aware of and invited to participate in the project, and seek preliminary feedback about who they are, how they use the park and their values and aspirations.

This round introduced the project and created the space for the community to lead the project discussion.

Engagement was undertaken via:

- + Community BBQ drop in session (26 August 2023)
- + Online interactive mapping
- + Meetings
- + Written feedback

Round One engagement was undertaken between 7 August and 3 September 2023.

### 2.3.2 Round Two - Draft themes, vision and actions

The purpose of this round was to test the level of community support for draft place themes, vision and actions.

Engagement was undertaken via:

- + Community drop in session (18 November 2023)
- + Online survey
- + Written feedback

Round Two engagement was undertaken between 16 and 30 November 2023.

### 2.3.3 Round Three - Draft Place Plan

The purpose of this round was to introduce the draft place plan and provide an opportunity for the community to provide feedback at this important time before finalising the Place Plan and progressing the Master Plan. Engagement was undertaken via an online survey.

Round Three engagement was undertaken between 5 February and 4 March 2024. 33 survey responses were received.

### 2.3.4 Round Four - Draft Master Plan

The purpose of this round is to introduce the draft Master Plan and provide an opportunity for the community to provide feedback.

*Methods to be updated following this round of engagement.*

## 3. COMMUNICATION METHODS

Communication is vital for any project to raise awareness, provide ongoing updates and sharing opportunities to participate in the project. Several communication methods were used for this project.

### 3.1 Project web page

A dedicated project page was established through the City's MySay Freo site (Figure 2). The page was used to provide background information, frequently asked questions and opportunities to participate in consultation.

### 3.2 City website

Notices were published on the City's website on 24 August 2023 to share project information and direct people to the MySay Freo page.

### 3.3 Direct communication

Approximately 300 flyers were distributed to properties 150 metres around the precinct, to advise them of the project.

All community members who are registered on MySay Freo were sent information by email to advise them of the project and opportunities to get involved online and in person.

### 3.4 Workshops

A community barbeque was hosted by the City on 26 August 2023 where the City and project team shared information about the project. A second community drop-in session was held on 18 November 2023.

### 3.5 Stakeholder and community meetings

A Project Working Group (PWG) has been established for the Precinct which includes members of the clubs on site. The PWG members have been provided an overview of the project and opportunities to contribute to the project.

There are three dedicated opportunities in the project to engage with local Aboriginal Elders and share project information.

### 3.6 Social media

The City's Facebook page was used to promote the project. A summary of the posts is outlined in Table 1.

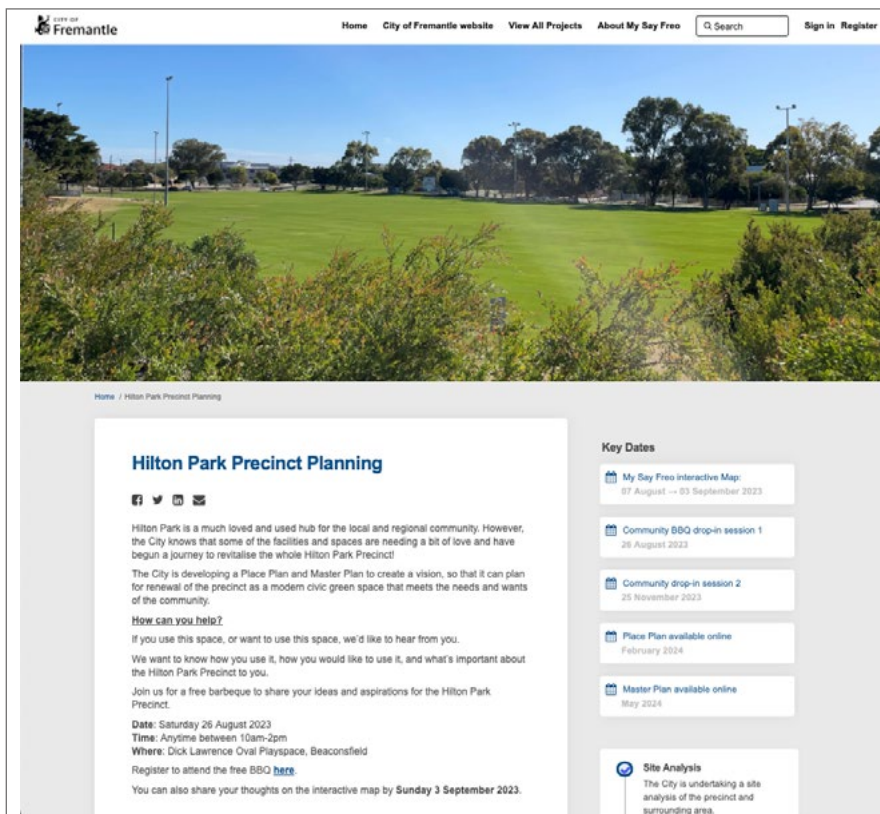

Figure 2 MySay Freo project website

| TOTAL            |                                                                                        | 77        | 7        | 14     |

## 4. ROUND ONE OUTCOMES - VALUES AND ASPIRATIONS

Early engagement with the community and key stakeholders ensures their values and aspirations are built into the plan from the start of the project. Feedback was sought through a range of methods.

### 4.1 Engagement with local Aboriginal Elders

A Walk on Country was held with three Aboriginal Elders on 28 July 2023.

The Walk on Country provided the Elders with the opportunity to share stories about the area and provide their feedback on their aspirations for the precinct.

The Walk on Country suggested that there are no significant stories relating to this site. Notwithstanding, there is an assumption that further engagement needs to occur to confirm this, especially in the areas of the site where there is less disturbance of natural vegetation.

Participants spoke of a large Aboriginal community who live in the region and noted the connection to the nearby Fremantle Cemetery where many Aboriginal people are buried. As a result of this connection, the community often gathers for wakes in the local neighbourhood.

It was suggested that a space, preferably undercover, would provide a space for large gatherings of family and friends and would be a positive opportunity for this precinct.

### 4.2 Project Working Group - meeting 1 and 2

The PWG provides the project team a formal space to understand the clubs, site occupants and casual user groups current needs and aspirations for the future.

The PWG is made up of participants as shown in Figure 1, which includes the various clubs on site, representatives from different community organisations and groups, Elected Members and CoF staff who will help to deliver the outcomes of the project and are experienced with the site.

During round one - preliminary engagement, the PWG met on two occasions.

The first meeting of the PWG was held on 23 June 2023 and explored the vision for the site and considered criteria by which a successful Place Plan and Master Plan might be measured.

The second meeting of the PWG was held on 15 September 2023. The PWG were provided with an overview of the public consultation undertaken. The clubs were then asked to provide a brief description of their future needs and participate in scenario planning for the site with consideration of the different club needs.

The summary report and minutes from meeting one and the minutes from meeting two, are shown in Appendix A.

### 4.3 Community barbecue drop in session

A community barbecue was held on Saturday 26 August 2023, between 10am and 2pm at the Brad Hardie Pavilion.

The format of the day was informal and allowed community members to drop in any time over the four hour period, speak to team members and provide their feedback on a series of posters.

A free barbecue was provided by the City to encourage attendance and thank community members for their contribution.

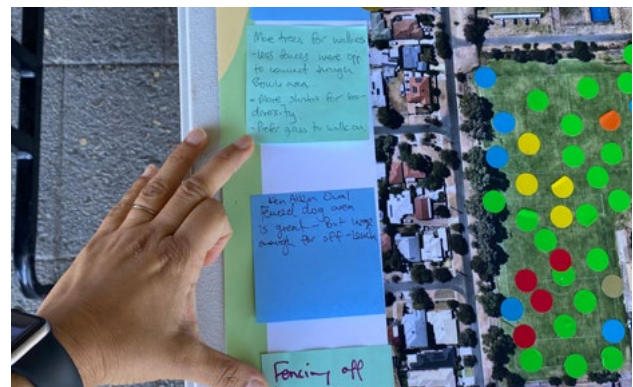

The session was attended by approximately 150 community members, four consultant team members, approximately eight CoF staff and several Elected Members.

The feedback provided was extremely positive and community members took their time providing detailed and considered feedback that will be highly beneficial for progressing the project.

A series of posters were developed to provide project background information, seek feedback on how people currently use the space, the existing buildings and their perspective of potential treatments and amenities that could be included on the site in the future.

Ideas were voted on by placing a sticky dot on the idea. One gold dot was provided to attendees which represented their number one priority for the site.

The following pages provides a high level summary of the feedback. All verbatim comments provided on the day are outlined in Appendix B.

Bottom image credit: City of Fremantle Facebook

### 4.3.1 How the community use the Precinct

To understand how the community use the Precinct, a coloured dot system was used to identify the activity and where people do it. For the purpose of considering the feedback, the Table 2 groups the different areas of the Precinct and the number of dots for each activity and area is outlined in Table 2.

The most common activity throughout the Precinct was dog walking. This predominately occurred on Ken Allen Reserve.

Walking commonly occurred on Dick Lawrence Reserve, followed by Peace Park and Ken Allen Reserve.

Play was most common at Dick Lawrence which is to be expected given the presence of the playground.

Playing sport and socialising most commonly occurred in the Bowling Club area and most people rest at Dick Lawrence.

Other commonly raised comments included:

- + Fenced dog area
- + More trees
- + Better connections to facilities/structures

Figure 3 Areas for activity groupings

Table 2 How people use the site

| Activity      | Area 1   | Area 2 | Area 3    | Area 4 | Area 5    | Area 6 | TOTAL |
|---------------|----------|--------|-----------|--------|-----------|--------|-------|
| Walk          | <b>8</b> | 6      | 0         | 3      | 6         | 5      | 28    |
| Walk your dog | 5        | 6      | 1         | 3      | <b>12</b> | 7      | 34    |
| Play          | <b>7</b> | 5      | 0         | 0      | 4         | 2      | 18    |
| Play sport    | 5        | 0      | <b>7</b>  | 4      | 1         | 5      | 22    |
| Socialise     | 6        | 2      | <b>10</b> | 3      | 4         | 0      | 25    |
| Rest          | <b>5</b> | 0      | 0         | 2      | 1         | 0      | 8     |
| TOTAL         | 36       | 19     | 18        | 15     | 28        | 19     | 135   |

### 4.3.2 Existing buildings

To understand the community's aspirations for the existing buildings on site, feedback was sought on the six buildings in the precinct, specifically whether they should be improved, expanded or changed.

#### Ken Allen Pavilion

12 comments were made and three gold dots placed in relation to Ken Allen Pavilion. The recurrent feedback included:

- + Refurbish/replace/update etc.

#### Alastair Mackay Pavilion/Fremantle City Football Club (FCFC)

Ten comments were made in relation to Alastair Mackay Pavilion/FCFC. The key themes included:

- + Upgrade car parking area.

#### Fremantle Men's Community Shed

Two comments were made and one dot and one gold dot placed in relation to Fremantle Men's Community Shed. The key themes included:

- + Women's shed and shared men/women sessions.

#### Brad Hardie Pavilion

Six comments were made and three dots and two gold dots placed in relation to Brad Hardie Pavilion. The key themes included:

- + Toilets - update and open for public. Existing public toilets are not great.

#### Change rooms

Nine comments were made and five dots and two gold dots placed in relation to change rooms. The key themes included:

- + Female change rooms required.
- + Upgrades needed.

#### Hilton Park Bowling Club

18 comments were made and two dots and nine gold dots placed in relation to Hilton Park Bowling Club. The key themes included:

- + Requires updating.
- + Great social, inclusive atmosphere.
- + Supports bands/music.
- + Great place for children and adults.

### 4.3.3 New buildings or pavilions

There were eight options presented for new buildings or pavilions.

A total of 66 regular votes and 25 gold votes were made. Based on the votes, there was a strong preference for:

- + New distributed smaller, Individual pavilions (highest gold vote) (18% of total votes)
- + Non sporting community uses (shared creative space shown) (16%)
- + Building & spaces for cultural events (14%)
- + Decentralised toilets + community shelter / event space (13%)

27 comments were provided and the recurrent feedback raised include:

- + Permanent cafe
- + Women's shed facilities
- + More barbecues
- + More toilets

*Note: The percentage shown in brackets is the number of regular and gold votes as a percentage of the total votes for that poster theme.*

#### 4.3.4 Pathways and movement

There were eight options presented for pathways and movement.

A total of 121 regular votes and eight gold votes were made. Based on the votes, there was a strong preference for:

- + Perimeter fitness loop (22%)
- + Explorative (21%)

16 comments were provided and the recurrent feedback raised include:

- + Skate park

#### 4.3.5 Level change

There were six options presented for pathways and movement.

A total of 79 regular votes and 13 gold votes were made. Based on the votes, there was a strong preference for:

- + Play amongst the trees (33%)
- + Natural/ecological zones (20%)

22 comments were provided and the recurrent feedback raised include:

- + Fenced playground
- + Remove xylophone
- + Obstacle course
- + More trees

#### 4.3.6 Water treatment

There were six options presented for pathways and movement.

A total of 84 regular votes and seven gold votes were made. Based on the votes, there was a strong preference for:

- + Permeable paving to carparks (25%)
- + Rain gardens with integrated seating and walkways (23%)
- + Access for play (20%)

16 comments were provided and the recurrent feedback raised include:

- + Skate park
- + Concerns around use of chemicals for weed management

#### 4.3.7 Activation

There were 15 options presented for pathways and movement.

A total of 200 regular votes and 37 gold votes were made. Based on the votes, there was a strong preference for:

- + Habitat creation (13%)
- + Pop up event (11%)
- + Dedicated dog agility spaces (9%)

75 comments were provided and the recurrent feedback raised include:

- + Off lead dog areas are highly valued
- + Fenced off lead dog areas
- + Lighting

*Note: The percentage shown in brackets is the number of regular and gold votes as a percentage of the total votes for that poster theme.*

### 4.3.8 Additional feedback

In addition to the more specific feedback requested, the community were able to provide general feedback on a number of posters, including one large map of the site. Several children provided feedback on the large map (Figure 4). Some of the recurrent comments include:

- + More trees
- + More toilets
- + Safer, well maintained toilets
- + Tennis
- + Food and beverage
- + Water park, pond, pool
- + Mini golf
- + Playground
- + Skate park
- + Better parking
- + Zip line

Figure 4 Drop in session - large map with feedback

## 4.4 Online mapping

An interactive map was available on MySay Freo between 7 August and 3 September 2023. Feedback was shared by ‘pinning’ a comment to the map about:

83 comments were received, from 39 people (Figure 5).

The comments were broken down into:

- + 32 (38.5%) *‘Something I like to do here’* comments
- + 35 (42.2%) *‘Something I can’t do now but would like to’* comments
- + 16 (19.3%) *‘Something important to me’* comments

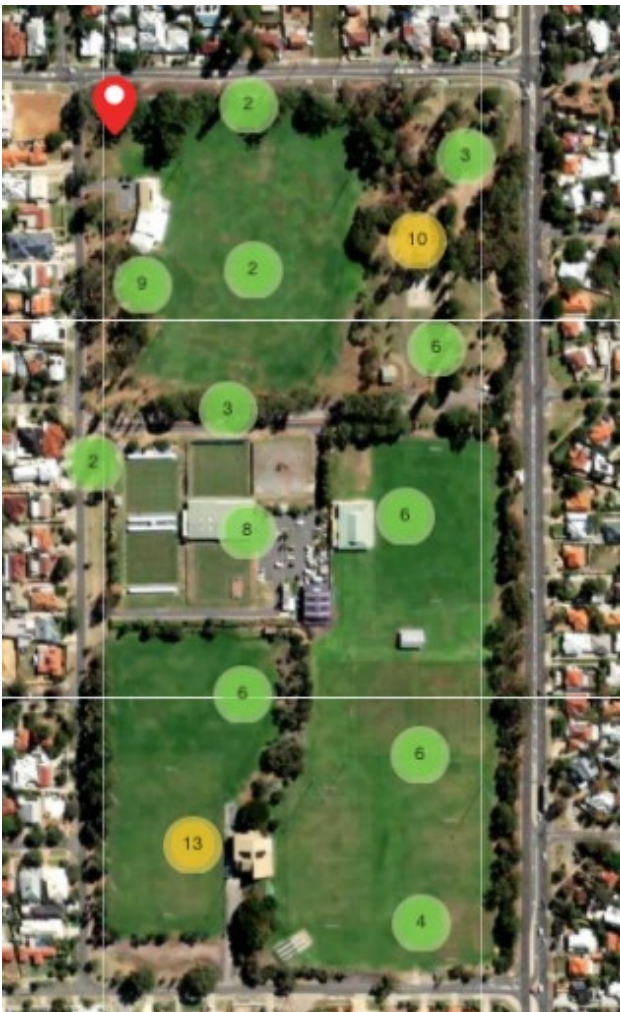

Figure 5 MySay Freo interactive map

For the purpose of considering the comments, the feedback has been considered spatially across five distinct areas of the Hilton Park Precinct.

A summary of the feedback is provided below with all verbatim comments provided in Appendix C.

### 4.4.1 Dick Lawrence Oval and surrounds

#### Something I like to do here

- + Meet people in the shady area.
- + Play disc golf. Additional 9 holes would be good.
- + Undercover area for scooting.
- + Park is fun for the family.
- + Watching the children play football and cricket.
- + Exercise and ability to use undercover in winter.
- + Path along the north and east sides. Would love it to go all the way around.
- + Walk the dog.

#### Something I can’t do now but would like to

- + Continue bike path around perimeter
- + Toilets near the playground.
- + Cricket nets.
- + Upgrade parking surface and traffic speed control (Walton Way).

#### Something important to me

- + Access to wide spaces for kids and dogs to run free and explore.
- + Walk the dog, use playground and play frisbee golf.
- + Better ambulance access along northern border

#### 4.4.2 Peace Park and surrounds

##### Something I like to do here

- + Play disc golf. Would be great to expand to 18 holes.
- + Great spot for small skate park, pump track or BMX track.

##### Something I can't do now but would like to

- + Enclosed dog area.
- + Off dog lead area with dog playground infrastructure.
- + Skate park or pump track
- + Path with more trees and plants or creative play for the kids.

##### Something important to me

- + Enclosed off lead dog area.
- + Natural bushland.
- + Disc golf around the perimeter is a good example of threading activity.

4.4.3 Running, walking, riding tracks throughout the park and around perimeter.

#### 4.4.4 Bowling Club/Men's Shed area

##### Something I can't do now but would like to

- + Continuous bike track around park.
- + Upgrade vehicle entrance.
- + Beach volleyball or futsal fields on unused bowling greens.
- + Expand club facilities with food options, playground and family friendly area.
- + Bowling club could be a great community space for activities e.g. meeting, art space, yoga.
- + 5 a side mini pitches with lighting and turf.
- + Consider a consolidated facility.
- + Table tennis.

##### Something important to me

- + Like having space for different social activities.

4.4.5 Improve access and parking on Walton Way.

#### 4.4.6 Ken Allen Reserve area

##### Something I like to do here

- + Highly valued space for dog walking.
- + Walkway between Ken Allen and Playing fields (could be improved).

##### Something I can't do now but would like to

- + Ability to access:
  - + The building for community use.
  - + The area for community club use.
  - + The ovals for more permanent AFL training and games.

- + Bike path around whole park.
- + BMX or mountain bike park.

##### Something important to me

- + Ability to walk dog off leash.
- + Equity of use:
  - + For all community, not just sports
  - + Local community sport not just commercial enterprise.
  - + Multi-use/ community structures would be better than sport pavilion.
  - + More communal/shared facilities for variety of sports.
- + Greater variety of trees and shrubs.
- + Better connectivity across existing oval spaces.

#### 4.4.7 Hilton Park Playing Fields area (mid and south)

##### Something I like to do here

- + Watching/supporting kids with cricket training and spending time at the new nets.
- + Dog walking.
- + Junior players training and playing for a community club.
- + Play soccer/football, watch kids and husband play soccer/football

##### Something I can't do now but would like to

- + Path around perimeter for walking/bike.
- + More bins.
- + Lighting to watch night games.
- + Turf and light small area north of Alastair Mackay Pavilion

##### Something important to me

- + Repair fence
- + Ability to meet friends and walk dog.
- + Off lead dog area.
- + Ability to play football (children and adults).
- + More adequate facilities (spectator grandstand, clubhouse and change room refurbishment) to accommodate growth in football.

#### 4.5 Written feedback

In addition to the online and in-person activities undertaken, a four of written comments were provided. The key matters raised in the feedback were:

- + Concerns around infections from dog poo.
- + Desire for the park to be safe - consideration of tree planting heights and dark corners with no lighting.
- + Concerns around late night noise and illegal trail/dirt bikes.
- + Consideration of Indigenous name or female name for the park.
- + Consideration of fenced dog area.
- + Enclose play area to protect from dogs and nearby road.
- + Play area could be larger.
- + More large shady trees
- + Outdoor exercise equipment.
- + Sculptures.
- + More wildlife habitat.
- + Tables and benches.
- + Consider a regulation sized basketball court.

## 4.6 Preliminary engagement summary

The community have provided a considerable amount of feedback in this first round of engagement.

On a whole, the feedback provided was highly positive and the community highly value the space for community and recreational use, specifically dog walking, playing and watching sport and socialising at the Bowls Club.

The summary below outlines the key ideas raised during the consultation (both online and in-person). The 'preference' relates to the drop-in session ideas that were voted on using dots. 'Considerations' relates to various other matters that were commonly raised in written comments.

### Buildings (existing and new)

- + Preference for:
  - + Building & spaces for cultural events
  - + Non sporting community uses (shared creative space shown)
  - + New distributed smaller, Individual pavilions (highest gold vote)
- + Consideration for:
  - + Women's shed space
  - + Cafe
  - + More and improved toilets
  - + Toilets near playground
  - + Female change rooms
  - + Equitable spaces for different community and sporting groups
- + Upgrading and updating:
  - + Ken Allen Pavilion
  - + Change rooms
  - + Bowling Club

### Movement

- + Preference for:
  - + Explorative spaces
  - + Perimeter fitness loop
- + Consideration for:
  - + Path for walking and cycling around entire precinct

### Level change

- + Preference for:
  - + Play amongst the trees
  - + Natural/ecological zones

### Water treatment/Environment

- + Preference for:
  - + Permeable paving to carparks
  - + Rain gardens with integrated seating and walkways
  - + Access for play
- + Consideration for:
  - + More trees
  - + Concerns raised from use of chemicals for weed management

### Activation

- + Preference for:
  - + Habitat creation
  - + Pop up events
  - + Dedicated dog agility spaces
  - + Imaginative play
- + Consideration for:
  - + Off lead dog area (fenced and unfenced)
  - + Lighting
  - + Disc golf expansion
  - + Skate park/pump track
  - + Fenced playground

## 4.7 Next steps

The next round of engagement is to test the level of community support for the draft place themes, vision and actions.

Based on the feedback from the consultation the following vision and actions should be considered.

### Vision

- + Inclusive and shared community space
- + Passive and active recreation for all members of the community
- + A place for everyone; safe and inclusive
- + Connected space
- + Environmentally and economically sustainable
- + Build a place identity
- + World class facilities; premier facilities for each sport
- + Activated 24/7
- + Place for dogs

### Other uses to consider on the site

- + 18 hole disc golf (rather than nine)
- + Larger basketball court
- + Fenced dog space
- + Community uses
- + Table tennis
- + Skate park

### Facility Aspirations

- + World class facilities
- + New and improved toilets
- + Female change rooms
- + Spaces for community and cultural events or gatherings
- + Women's shed (more inclusive Community Shed)

# 5 ROUND TWO OUTCOMES

# 5. ROUND TWO OUTCOMES - DRAFT THEMES, VISION AND ACTIONS

The next step in the planning for Hilton Park is to establish the principles that will drive future development and use of the Hilton Park Precinct. To do this the project team considered:

- + Analysis of the site and background information;
- + Feedback from existing Groups and Clubs;
- + Feedback from the community

From this, five 'place themes' were developed that will provide the foundation of the Place Plan and Master Plan.

1. Sense of Home
2. A contemporary park enriched in legacy
3. Focussed on community connection
4. Village in a village
5. A place of leaders

Within each place theme, several actions were created.

The purpose of the second round of engagement was to seek feedback on the draft place theme and understand the level of support for the place theme actions. Engagement during this phase included:

- + PWG Meeting 3
- + A community drop-in session (18 November 2023)
- + An online survey (16 - 30 November 2023)
- + The ability for the community to provide written feedback
- + Individual meetings with on site stakeholders to confirm user needs

## 5.1 PWG Meeting 3

The third PWG meeting was held on 13 December 2023. The purpose of the meeting was to:

- + Provide an overview of the public engagement undertaken;
- + Provide an update on the Place Plan, themes and actions; and
- + Discuss spatial layouts for the site based on prioritising various user needs.

The group were asked to consider the draft vision and three place principles (previously five place themes that were consolidated following public consultation). Some of the feedback included:

- + Mixed views on the name of the park - some suggesting that Hilton Park isn't memorable to people, whereas to some of the sporting clubs, Hilton Park is well known. There could be an opportunity to link the name to its history.
- + Use of the word 'community' gives the perception that there is less importance on the sporting clubs.
- + Ensuring accessibility by all users e.g. those who use travel to Hilton Park using different modes of movement, pathways in and around the park and for all genders.
- + Opportunity for quiet nooks/spaces and for performance, art and culture.
- + Consideration of lighting.

The PWG considered six spatial layouts that aimed to prioritise different outcomes based on the needs analysis. The majority of attendees felt that one layout shown was superior, as it allowed for continued use by all clubs.

The meeting minutes are available in Appendix D.

## 5.2 Community Drop-in Session

A breakfast community drop-in session was held on Saturday 18 November 2023, between 8:30am - 11:30am, at Hilton Park.

The session was attended by approximately 100 community members.

Feedback was being sought on:

- + The draft vision
- + The draft place themes and associated actions
- + A site sketch of ideas

### 5.2.1 Draft Vision

A draft vision was developed for Hilton Park Precinct and shared with the community. Six comments (shown verbatim in Appendix E) were made on the draft vision. The key matters raised in the comments were:

- + The importance of the natural environment;
- + The importance of providing for, or managing, dogs in the park;
- + The connections through the suburb provided by the park;
- + Concerns regarding the use of chemicals on the grass.

### 5.2.2 Draft Place Themes

To seek the level of support for the draft actions associated with each place theme, attendees were asked to vote on each action on a scale from 'strongly support' to 'strongly oppose'.

The vote tallies and all individual comments are provided in Appendix E.

#### Place Theme 1: Sense of home

All eight actions had 75% or more strong support/support.

Nine comments were provided for this place theme.

#### Place Theme 2: A contemporary park enriched by legacy

All nine actions had 75% or more strong support/support.

Nine comments were provided for this place theme. There were several comments suggesting greater than 30% canopy cover.

#### Place Theme 3: Focussed on community connection

All six actions had 75% or more strong support/support.

Seven comments were provided for this place theme.

The action to '*explore a permanent café or food van setup*', was mostly strongly supported/supported however it did have some divergent views shown below.

- + Strongly support: 57%
- + Support: 18%
- + Neutral: 21%
- + Strongly oppose: 4%

Those that had strong opposition to this action suggested allowing one of the sports clubs to be the provider of a café or food van.

It is noted that no investigation has been undertaken to determine if a café/food van is feasible for the site or where the ideal location for it would be. As per the draft action, this would need to be explored.

### Place Theme 4: Village in a village

Place theme 4 had the greatest divergence in responses. The tally results are shown in Table 3 with the percentage response.

Action 3 and 6 had 75% or more strong support/support. Action 1 and 2 had 50% or more strong support/support.

The majority of respondents were neutral towards action 4 to *'maintain a consistent material and furniture palette'* and action 5 to *'Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive'*. This suggests that having a consistent look and feel for the infrastructure and branding is not essential to the community.

It is possible that cohesive and consistent materials, fixtures, furniture, signage and branding will have a positive impact if presented; potentially being an outcome that is better experienced than described.

10 comments were provided for this place theme. The key matters raised included:

- + Providing a more central community space.
- + Strong opposition to more light pollution and concerns raised for the birds and possums. (*Note: this comment was not reflected in voting*)

### Place Theme 5: A place of leaders

Six of the eight actions had 75% or more strong support/support. The other two actions had more than 50% strong support/support.

The action with the most divergent views was *'Establish quarterly meetings for site-wide collaboration'*.

- + Strongly support: 28%
- + Support: 33%
- + Neutral: 33%
- + Oppose: 6%

Eight comments were provided for this place theme.

Table 3 Place Theme 4 voting Tallies

| Proposed actions                                                                       | Strongly support | Support | Neutral | Oppose | Strongly oppose |
|----------------------------------------------------------------------------------------|------------------|---------|---------|--------|-----------------|
| 1. Provide dedicated clubrooms for each major sporting club                            | 30%              | 25%     | 45%     | 0%     | 0%              |
| 2. Establish a CCTV program for safety                                                 | 37%              | 27%     | 23%     | 13%    | 0%              |
| 3. Ensure well-lit key destinations for safety at night                                | 75%              | 25%     | 0%      | 0%     | 0%              |
| 4. Maintain a consistent material and furniture palette                                | 5%               | 40%     | 55%     | 0%     | 0%              |
| 5. Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive | 21%              | 26%     | 53%     | 0%     | 0%              |
| 6. Develop a comprehensive and coordinated event plan                                  | 35%              | 43%     | 22%     | 0%     | 0%              |

### 5.2.3 Sketch of Ideas

To allow the community to understand how the actions and ideas might be considered spatially on the site, a sketched up map of the site was prepared (Figure 6).

The community were able to view the ideas and provide their feedback. The ideas included:

- + Major connections around the perimeter of the site and through the centre (north-south) up to Walton Way.
- + Areas of planting and habitat surrounding existing sporting ovals.
- + Identification of new or upgraded buildings.
- + Identification of difference functions/uses/programs on the site.
- + Identification of path and trails.
- + Drainage areas
- + Areas of parking

All written comments are provided verbatim in Appendix E. The key themes raised were:

- + Importance of providing accessible connections in line with Disability Discrimination Act.
- + Consideration of fencing - along roads and maintain around dog exercise area.
- + Consideration of safety - e.g. associated with roads and car movement, areas of parking, need for lighting and need for fencing.
- + Consideration of disc golf and avoiding other uses through the course (e.g. fenced dog park or gathering space) .
- + Consideration of play spaces e.g. fencing the playground, providing water play, options for play at the southern end of the park, its size.
- + Consideration for youth zone to include tennis, upgraded basketball and more vegetation.
- + Importance of the off lead dog area at Ken Allen Oval and support to maintain a large fenced dog exercise area.
- + Consideration of other activities e.g. table tennis, tennis, skating, full basketball, music amphitheatre.

## 5.3 Draft value and themes survey

In addition to the community drop-in session, a survey on the draft vision and actions was made available on MySayFreo between 16 - 30 November 2023.

25 responses were received. The following provides a summary of the key matters that were raised in relation to the vision and place themes and actions. All verbatim comments are provided in Appendix F.

### Draft vision

Respondents were asked to share their ideas on the draft vision.

- + Most respondents agreed with or supported the vision.
- + Importance of disc golf at Hilton Park.
- + Suggested inclusion of table tennis.

For each of the five place themes and associated actions, respondents were asked what their views were and if there was anything they would suggest.

The following outlines the key matters that were raised for each of the five draft place themes.

### Draft Place Theme 1: Sense of home

- + Strong support for 18-hole disc golf (expanded from current nine).
- + Suggested inclusion of cafe/bar.
- + Support catering for different sports.
- + Comments relating to fencing e.g. support to maintain existing and complete fencing at Ken Allen, and consideration of fencing for part of Dick Lawrence.
- + Suggested amendment to sub-theme text: remove reference to Saturday and change to weekend.

### Draft Place Theme 2: A contemporary park enriched by legacy

- + Support for fauna boxes .
- + Support for improved accessibility.
- + Support for increased tree canopy.
- + Support for more water stations.
- + Suggested inclusion of sustainable design in buildings eg. Water catchment and storage, green star and solar panels.

### Draft Place Theme 3: Focussed on community connection

- + Support for indoor sports venue.
- + Consideration for non-sport users on site.
- + Consideration of permanent cafe or cafe space incorporated into club facilities.

### Draft Place Theme 4: Village in a village

- + Support for park being well lit.
- + Support for table tennis being included on site.
- + Support for dedicated clubrooms.

### Draft Place Theme 5: A places of leaders

- + Consideration of sustainability measures such as EV charging, building equipped with renewable energy sources, community battery to harvest unused output from PV installations.

There were very few comments on Draft Place Theme 5.

It is noted that a number of submissions included support for table tennis to be located on site across each of the themes. It has been reported in this section against Draft Place Theme 4 which refers to dedicated clubrooms.

Respondents were asked to rank the five place themes in order of most favourable to least favourable. The weighted results are shown in Figure 7, which shows the most favourable place theme is number 3 - focussed on community connection.

56% of respondents selected Place Theme 3 as their most favourable (Table 4), followed by Place Theme 1.

Table 4 Most Favourable Place Theme (ranked first)

| Place theme | Count | Percentage |
|-------------|-------|------------|
| 1           | 7     | 28%        |
| 2           | 1     | 4%         |
| 3           | 14    | 56%        |
| 4           | 2     | 8%         |
| 5           | 1     | 4%         |

### 5.4 Written comments

One written comment was submitted to the City. The key comments raised were:

- + Need for exercise circuits of differing age and abilities.
- + Fence entire park.
- + Skate/basketball/ bike pump track.
- + Security cameras if necessary.
- + Drainage considerations.

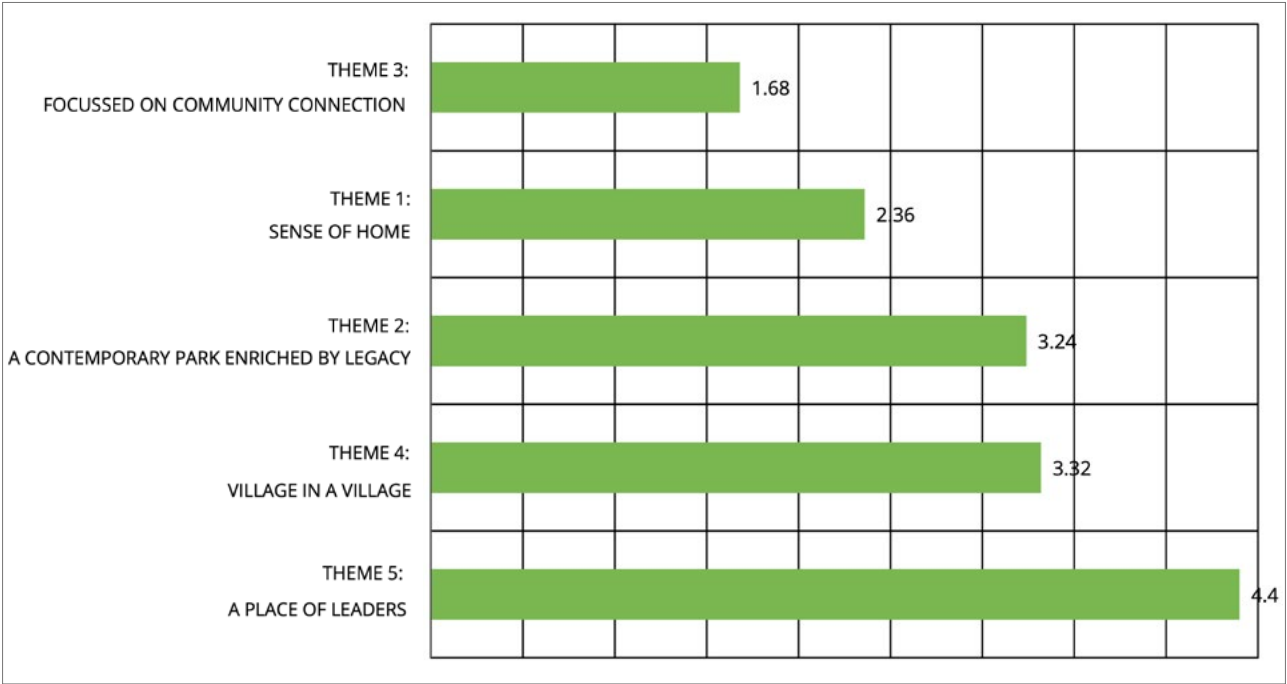

Figure 7 Ranking of Place Themes (lowest number is closer to a ranking of most important)

5.5 Round two engagement summary and recommendations

Table 5 provides a summary of the commonly raised ideas and comments from the public engagement. The table also includes recommended changes to the existing place themes and actions, proposed new actions and justification for the recommended change. Changes are shown in underline (new text) and strikethrough (proposed to be deleted).

Table 5 Round two engagement summary

| Draft vision and place themes | Commonly raised feedback                                                                                                                                                              | Recommended amendments                                                                                                                                                                                                                                                                                            | Justification for recommended change                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Vision                        | <div>+ Importance of natural environment</div> <div>+ Importance of dogs</div> <div>+ Importance of disc golf at Hilton Park</div>                                                    | Nil                                                                                                                                                                                                                                                                                                               | The vision was well supported during the engagement. No amendments are proposed.                                                                                                                                                                                                                                                                                                                                                                                                                |
| Place Theme 1: Sense of home  | <div>+ Strong support for the inclusion of table tennis facility and 18-hole disc golf.</div> <div>+ Suggested inclusion of cafe/bar.</div> <div>+ Comments relating to fencing</div> | Amend existing sub-theme: <div>+ Ritual Experiences - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every <u>week</u> <del>Saturday morning</del>, the familiarity of Hilton Park will create a sense of belonging and 'home'.</div> | Remove reference to Saturday morning as the park is used consistently at other times in the week, not just Saturday or just on weekends. E.g. Disc golf meet every Wednesday evening.                                                                                                                                                                                                                                                                                                           |
|                               |                                                                                                                                                                                       | Amend existing action <div>+ Provide a diverse range of recreational opportunities both formal and informal (<del>including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc</del>)</div>           | Removing reference to specific recreation activities provides greater flexibility to consider other activities that may not have been considered. Naming activities gives the impression that activities outside those listed, are not appropriate for the site. The action should remain open and flexible to adapt to the needs of the community.                                                                                                                                             |
|                               |                                                                                                                                                                                       | Amend existing actions <div>+ Explore <u>opportunities to expand the</u> a gender-inclusive community Shed.</div>                                                                                                                                                                                                 | The Fremantle Community Shed currently provides opportunities for women to participate in activities at set times during the week. However there is an opportunity to expand on this, potentially providing a space that enables greater participation for women - whether that be associated with the current space or a new space. The amendment to this action acknowledges the current gender inclusivity of the Men's Shed, however proposes to explore expanding opportunities for women. |

Table 5 Round two engagement summary

| Draft vision and place themes                         | Commonly raised feedback                                                                                                                                                                                                                                                                                                                                                           | Recommended amendments                                                                                                                                                                                                                                 | Justification for recommended change                                                                                                                                                                                                                                                                                        |
|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Place Theme 2: A contemporary park enriched by legacy | <ul style="list-style-type: none"><li>+ Support for fauna boxes .</li><li>+ Support for improved accessibility.</li><li>+ Support for increased tree canopy and suggestions for greater than 30% coverage.</li><li>+ Support for more water stations.</li><li>+ Suggested inclusion of sustainable design in buildings</li><li>+ Less use of chemicals/spray/pesticides.</li></ul> | <p>Amend existing actions</p> <ul style="list-style-type: none"><li>+ <del>Increase tree canopy to 30%</del></li><li>+ Safeguard, and enhance <u>and increase</u> existing tree canopy <u>to 30%.</u></li></ul>                                        | <p>There are two actions relating to tree canopy. It is suggested that these can be combined.</p> <p>Some of the community expressed a desire for the canopy cover to be greater than 30%. This will need to be considered in conjunction with the needs analysis and the space required to support the sporting clubs.</p> |
| Place Theme 3: Focussed on community connection       | <ul style="list-style-type: none"><li>+ Support for table tennis.</li><li>+ Support for indoor sports venue.</li><li>+ Consideration for non-sport users on site.</li><li>+ Consideration of permanent cafe or cafe space incorporated into club facilities.</li></ul>                                                                                                             | <p>Amend existing sub-theme:</p> <ul style="list-style-type: none"><li>+ More than Sport - Hilton Park will offer a diverse range of <u>community and</u> recreation opportunities, balancing the needs to the community and sporting clubs.</li></ul> | During the consultation, several community members raised the importance of the non-sport users on site. Whilst Hilton Park will primarily remain a recreational space, this change captures the opportunities to consider non-sporting activities.                                                                         |
|                                                       |                                                                                                                                                                                                                                                                                                                                                                                    | <p>Amend existing action</p> <ul style="list-style-type: none"><li>+ Explore <u>opportunities and potential location for a</u> permanent café or food van setup</li></ul>                                                                              | This provides further clarification around the need to investigate the option for a cafe or food van. The idea was supported throughout the consultation, however the form in which it could be delivered (ie. standalone, in conjunction with a club, or food van), is unknown                                             |
|                                                       |                                                                                                                                                                                                                                                                                                                                                                                    | <p>New action</p> <ul style="list-style-type: none"><li>+ Maintain a fenced, off-lead dog exercise area.</li></ul>                                                                                                                                     | The importance of the off-lead dog exercise area on Ken Allen Oval was raised throughout the consultation. This space provides community connection amongst dog owners and should be maintained.                                                                                                                            |
|                                                       |                                                                                                                                                                                                                                                                                                                                                                                    | <p>New action</p> <ul style="list-style-type: none"><li>+ Investigate an indoor venue on the site.</li></ul>                                                                                                                                           | During the consultation, suggestions were made for an indoor venue that could be used for sports or community groups. To determine if an indoor venue is feasible, it would need to be further investigated.                                                                                                                |

Table 5 Round two engagement summary

| Draft vision and place themes       | Commonly raised feedback                                                                                                                                                                                                                | Recommended amendments                                                                                                                                                                                                                                                                                 | Justification for recommended change                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Place Theme 4: Village in a village | <ul style="list-style-type: none"><li>+ Support for park being well lit.</li><li>+ Support for table tennis.</li><li>+ Support for dedicated clubrooms.</li><li>+ Consideration of the impact of light pollution on wildlife.</li></ul> | Proposed new action <ul style="list-style-type: none"><li>+ <u>Investigate areas of new fencing to improve safety for users of the park</u></li></ul>                                                                                                                                                  | <p>Several community members raised the need for fencing to improve safety. This included:</p> <ul style="list-style-type: none"><li>+ At the playground - as a barrier to the road, but also for dogs in the playground</li><li>+ A complete fencing around Ken Allen to stop dogs being able to run on to the road.</li><li>+ Along Carrington Street, as a barrier to the road.</li><li>+ A net to stop balls being kicked over Jeffery Street into neighbouring properties.</li></ul> <p>Whilst it may not be possible to consider fencing in all of these places, this action would provide the opportunity to investigate where it may be appropriate, particularly to improve safety of the park users.</p> |

# 6 ROUND THREE OUTCOMES

## 6. ROUND THREE OUTCOMES - DRAFT PLACE PLAN

The Hilton Park Place Plan is, *'a dynamic and practical list of actions to be completed over a 10 year period, guided by a strong understanding of place, people and vision.'*

The draft principles and actions were considered by the community and stakeholders during round two engagement. Using that feedback, as well as the background analysis, the draft Place Plan was prepared.

The purpose of round three engagement was to seek feedback on the draft Hilton Park Place Plan and seek direction from the community on how some of the draft Place Plan actions could be translated in the Master Plan.

The feedback was sought via an online survey between 5 February and 4 March 2024. 33 survey responses were received.

The following provides an overview of the survey outcomes. All verbatim comments are provided in Appendix G.

### 6.1 Survey Outcomes

#### History and Context

The Place analysis provides a history and context of Hilton Park as it currently stands. The community were asked whether there was anything important about the site missing from the document?

79% of respondents said, 'No, this accurately reflects the history, personas, and characteristics of Hilton Park', however 21% said 'yes, there is information missing'.

When asked to provide further clarification of the missing information, the comments included:

- + Additional information provided on the history of Alistair McKay pavilion.
- + A description that the park is used by many for off-lead dog walking and socialising.
- + A comprehensive plan with regard to the disc golf.
- + A reference to cultural and geological interpretation of "pinnacles".
- + More knowledge of First Nations custodians of place.

#### Vision and Themes

When asked if the draft vision and themes accurately reflected the community's aspirations for the future of Hilton Park, 82% of respondents said yes, it did accurately reflect their aspirations. 18% of respondents said it was not accurate.

When asked for further information on why this was not an accurate reflection, feedback included:

- + Suggestion to review Fawkner Park in Melbourne as a blend of nature and recreational integration.
- + Description is missing reference to use of the park for off-lead dog walking and socialising.
- + Lack of reference to disc golf.

## Paths

Place Plan Action No. 1 is to create a series of well-connected paths. When translated in the Master Plan this could include a series of different paths networks, which were depicted in the survey for feedback.

The community were asked whether the proposed path network met their needs. 45% of respondents said yes, the proposed path network met their needs. 21% of respondents said it somewhat met their needs and 33% said it did not meet their needs.

When asked for further information on why the proposed path network did not meet their needs, feedback included:

- + Concerns about path network through the disc golf course.
- + Concerns about impact on training areas (between two upper Hilton pitches)
- + Consideration of perimeter path for running, however other comment noted the uneven ground is problematic.
- + Importance of safe, circuit routes away from traffic.
- + Concerns about loss of green space and disruption to natural areas as a result of more paths.

## Branding

Place Plan Action No. 5 is to create a brand for Hilton Park, which will influence the look and feel of the place, the signage and colours and materials used on buildings. When asked what kind of brand would best represent Hilton Park, the majority of respondents (76%) chose 'natural and earthy colours'.

This was followed by 'icons and symbols with simplex text' (12%), 'brightly coloured and playful' (6%) and 'simple with just text and coloured background' (6%).

## Sustainability

Place Plan Action No. 10 is to explore opportunities for sustainability measures. Feedback was sought on how those measures could be shown on site through the Master Plan.

61% of respondents said the Master Plan should blend the sustainable infrastructure seamlessly with the new buildings so it is hidden. 39% said the technology should be out in the open and used as an opportunity to promote and sustainable technology and educate others.

### Eco-zoning

Place Plan Action No. 12 is to investigate eco-zoning and when translated in the Master Plan this could mean that some areas that are currently grassed would be replaced with native ground cover and tree canopy cover.

When asked to consider whether this should be undertaken and to what extent, the responses were mixed.

39% said 'yes, but only in specific areas (not everywhere)'. 13 comments were provided. The common raised comments included:

- + Concerns about loss of area for sports.
- + Concerns about disc golf area being compromised.
- + Suggestion to retain some grass for functionality and non-playing field use.
- + Support for less irrigation and keeping it as natural as possible.

33% said 'yes, I support the existing grassed areas being replaced with native ground cover and trees as shown on the plan'. Five comments were provided with respondents indicating support for more vegetation.

15% said 'no, I'd prefer it to be more intensive to provide substantially increased habitat noting there will be less ability to see through the vegetation'. Five comments were provided with most respondents noting the importance of vegetation for people, animals and insects.

12% said 'no, I'd prefer just trees and grass as it currently is'. Four comments were provided with respondents noting the importance of grassed areas for sport, families and dogs.

### Tree Canopy

Place Plan Action No. 13 aims to increase tree canopy on site. The future Master Plan may suggest removal of some trees to accommodate other uses on the site such as an additional playing field, however these will be offset with new plantings elsewhere, to maintain and/or increase tree canopy across the site.

The survey sought to understand the community's level of support for the concept of planting offsets in order to provide needed playing fields on site.

Most respondents (70%) supported the concept, however 36.4% of those people wanted the trees replaced with new plantings elsewhere and 33.3% wanted the trees replaced with new plantings of mature size elsewhere.

30.3% did not support the removal of any trees for new playing fields or paths.

24 written comments were provided in response to their selection. Some of the commonly raised comments included:

- + The importance of trees and a general preference for trees not to be removed where possible.
- + Question around the location and need of sports oval.
- + Questions around which trees would be removed.
- + Comments stating that tree replacement and new fields should not compromise the disc golf course.

## Lighting

Place Plan Action No. 24 suggests preparing a lighting strategy for Hilton Park. Respondents were asked what was their preference for lighting throughout Hilton Park (excluding sports field lighting).

The majority (70%) suggested that lights should be provided in core areas of activity only (e.g. buildings, play spaces, paths) but turned off/minimised late at night to reduce light spill and wildlife impacts.

21% suggested that lights should be provided in core areas of activity only (e.g. buildings, play spaces, paths) at all times. 9% suggested that the whole of the park should be well lit, at all times.

## Fencing

Place Plan Action No.25 is to create a fencing strategy to support off-lead dog walking and sporting activities.

An image was included in the survey depicting how this could be considered in the Master Plan and understand if this met the community's needs.

A significant proportion of respondents said it did not meet their needs (42%). 33% said the fencing did meet their needs and 24% stated that it somewhat met their needs.

14 comments provided clarification as to why it did not meet their needs. The commonly raised feedback included:

- + The proposed fencing impacts on the disc golf course.
- + The basketball court is lost due to the field.
- + The plan is unclear in relation to off-lead dog use (when and where).
- + The amount of fencing seems excessive.

## Gathering Space

Place Plan Action No. 29 is to provide a community gathering and performance space, however how that space looks and is used, is unknown.

The majority of respondents (58%) preferred the option of a combined enclosed space and open-air gathering space. 27% preferred an open air, hard space with shelter and 15% preferred an enclosed building.

Some of the commonly raised comments included:

- + Suggestions to use the existing buildings on site (potentially with upgrades) for community uses and activities.
- + Suggestions for a cafe on site.
- + Suggestions for community centre/spaces on site.
- + The option of a combined open air, enclosed space would allow flexibility.

Several other ideas were shared by the community about how gathering and performance spaces could be delivered through the master plan. These included:

- + Inclusion of outdoor exercise equipment.
- + Creating spaces/activities within the existing landscape e.g. amphitheatre in the limestone valley and creating spaces for outdoor cinema.
- + Utilise the existing buildings (e.g. Bowls Club) and the spaces currently not occupied by sports (e.g. near public toilets)
- + Retaining existing uses on site such as disc golf and basketball.

### General Feedback

Just over half (52%) the respondents said they generally supported the draft Place Plan, but with some changes. Some of the feedback included:

- + Need to give greater consideration/ recognition of the existing disc golf course on site.
- + Consideration of parking, access and safe pedestrian movement.
- + Greater clarification around:
  - + Implementation of the plan to see how the actions match the vision.
  - + How the off-lead dog area will work.
  - + How actions can be measured to demonstrate progress.

33% of respondents supported the draft Place Plan and 15% said they did not support the draft Place Plan.

Those that supported the Place Plan expressed an excitement about the plan and the future of the park.

Those that did not support the plan expressed concern about the loss of the basketball court, a desire for the disc golf to be retained, queries around the location of the fenced dog area and a desire for more green, trees and social hubs rather than sport.

### Additional feedback

20 comments were provided to share final thoughts on the draft Place Plan. Key matters raised included:

- + Request for clarity around the basketball court and its' future.
- + Greater consideration of disc golf.
- + Suggested amenities and facilities to be included e.g. children's activities, volleyball net, table tennis venue, running path.

## 6.2 Summary and Recommendations

The general sentiment of feedback shared by the community is that the Place Plan is supported however there is a need for more information and clarify around certain aspects of the plan. It is clear that the detailed spatial layout is highly anticipated, and many of those questions will be answered in the next Phase of engagement.

Some aspects of the Place Plan, such as vision and themes, are intended to be high level to ensure flexibility, adaptability and recognise that the park is used by a broad range of people for a wide variety of uses. As a result, no changes are suggested to vision or themes.

Many of the comments raised may be addressed and managed through the Master Plan.

The following highlights some of the matters raised during the draft Place Plan consultation that should be considered as either an amendment to the Place Plan or as a consideration in the Master Plan.

- + Provide clarity around the need for a new oval that was shown on the proposed fencing and greening plans.
- + Provide greater clarity regarding off-lead dog walking - when and where it is permitted and how this relates to the proposed fenced areas.
- + Provide clarity around the current and future needs of sporting clubs, dog walkers and other recreational activities and how that is balanced with prioritising the environment (through increased plantings).
- + Ensure the path network does not adversely impact the current recreational activities on site.
- + Consider options for community activities to be undertaken within existing buildings and how that could be managed.
- + Consideration of how the Place Plan and Master Plan will be monitored and measured to provide updates on progress.
- + Opportunity to provide additional details on history of the site - specifically Noongar knowledge, geological features on site and naming of existing buildings.
- + Recognise the aspirations of the disc golf community and course at Hilton Park by including disc golf in section 2.4 Place Audit - opportunities to play and exercise.
- + Provide clarity around the future of the existing basketball court and how it will be impacted by the proposed new field.
- + Provide clarity around the disc golf course and how it will be retained and enabled.

# 7 ROUND FOUR OUTCOMES

## 7. ROUND FOUR OUTCOMES - DRAFT MASTERPLAN

### 7.1 PWG

Prior to public advertising of the Masterplan, the PWG considered the draft plan on 3 April 2024.

Some of the key matters raised included:

- + Access and movement
- + Existing and new site users
- + Use of the space
- + Building use, design, governance and management
- + Budgets
- + Fencing

The full minutes are available in Appendix H. Minutes from PWG 5 (post advertising) are available in Appendix J.

### 7.2 Survey Results

The Hilton Park Masterplan was advertised for public comment between 31 May and 30 June 2024. Feedback from the community was sought via an online survey.

22 survey responses were received on the draft Masterplan. This number represents a consistent trend from the first engagement phase (150 persons) of reducing participation as issues and concerns were resolved.

The following summarises the feedback received via the survey. The full survey outcomes are available in Appendix I.

#### Safety

Respondents were asked whether they agree that the Masterplan will support improved safety. 68% agreed or strongly agreed (41% and 27% respectively). Eight written comments were shared by those who

strongly agreed/agreed. A key theme raised was the improved lighting.

9% disagreed (23% neutral). There were concerns raised in the comments regarding the intersection of the pedestrian spine and road being dangerous for children, and a concern raised about the need for cycle ways to improve safety of pedestrians.

#### Movement

Respondents were asked whether they agree that the Masterplan will help facilitate movement across the whole site more. 72% agreed or strongly agreed (45% and 27% respectively). Eight written comments were shared by those who strongly agreed/agreed, with many respondents noting paths as the reason for their selection.

#### Recreation, leisure and convenience

The Masterplan aims to promote health and wellbeing through recreation, leisure and convenience. The following questions sought to understand whether the community agree that the Masterplan included these.

73% agreed or strongly agreed (41% and 32% respectively) that the Masterplan provided adequate bookable indoor recreation spaces.

82% agreed or strongly agreed (55% and 27% respectively) that the Masterplan provides suitable convenience facilities. Many comments provided noted the need for new toilets.

The responses for suitable spaces and offerings for recreation outdoors was more divergent with 32% strongly agreed, 23% agreed, 23% were neutral, 18% disagreed and 5% strongly disagreed. Notwithstanding, 55% agreed that this was achieved, with only 23% disagreeing.

73% agreed or strongly agreed (41% and 32% respectively) that there are opportunities for new and enhanced buildings that enable greater inclusivity.

63% agreed or strongly agreed (36% and 27% respectively) that the Masterplan provided spaces and offerings for relaxation and leisure outdoors. 27% of respondents were neutral on this matter.

### Creativity and community connection

The Masterplan aims to foster creativity and community connection through the provision of spaces and amenities. The following questions sought to understand whether the community agree that the Masterplan included these.

64% of respondents agreed that the Masterplan provides a wider range of spaces that can enable different uses, activities and events for everyone to enjoy at all times and all year round.

64% of respondents agreed that the Masterplan provides a park with multiple spaces that can be used in a single outing and across different people within a group.

### Nature

82% agreed or strongly agreed (55% and 27% respectively) that the Masterplan displays appropriate greening. Several comments noted the importance of trees.

### Water use

Respondents were asked whether they agree that the Masterplan reflects the aim of responsible reuse and capture of water on site. 36% strongly agreed, 27% agreed, 23% were neutral and 14% disagreed.

Of those that disagreed with the statement, the two of the three comments shared noted that grass is not considered water wise.

Of those that agreed/strongly agreed, several comments noted the importance of being water wise.

### Dogs

Respondents were asked whether they agree that the Masterplan enables good spaces for dog related activation. 41% agreed, 27% strongly agreed, 18% were neutral and 14% disagreed.

Several comments of those who supported/strongly supported the statement, noted the importance of providing a fenced dog area.

There were several queries relating to how dog use of the spaces will be managed when sports are on.

### General sentiments towards Masterplan

The majority of respondents (55%) somewhat supported the draft Masterplan but feel something needs changing. The key comments raised for those respondents included:

- + Concerns that the disc golf area is reduced
- + Parking comments including the new bays will destroy the aesthetics of the park perimeter, concerns that pedestrian safety is compromised and car parking and access should be on the periphery and concerns that the parking overflow is in the same location as the youth courts.
- + Suggestion for activities such as tennis, space for creativity and jump line for BMX and mountain bike.
- + Suggestions to revise fenced dog area - currently too small.
- + Concern there is too much turf.

36% of respondents supported the draft Masterplan. Three comments were shared, including:

- + Support for the disc golf.
- + An interactive space for all ages.
- + Support for retaining sports ovals.

9% of respondents did not support the draft Masterplan. Two comments were shared, noting:

- + The space is being underutilised and the City of Fremantle needs an indoor multi-sport facility and this location would be ideal.
- + There are too many suggestions on the oval and it will be overcrowded.

Respondents were asked which part of the Masterplan they were most excited about. 17 comments were shared. Some of the commonly raised comments included:

- + Enhancement/expansion of disc golf
- + Upgraded toilets
- + Community spaces
- + Improved facilities
- + Youth spaces
- + Walkways/trails

Respondents were given the opportunity to provide any final thoughts about the Masterplan. 12 comments were shared and covered matters which had previously been raised. There were some comments relating to the plan's implementation, including:

- + Concerns about the cost
- + Suggestion for community input into the prioritisation of works given the plan is not funded.

## 7.3 Summary and Recommendations

This project has allowed for multiple opportunities for community participation throughout the Place Plan and Masterplan's development.

It is acknowledge that the level of participation in this round was significantly lower than the first, however this is common in projects where the community has had previous opportunities to express concern and where the final outcome reflects their expectations. Notwithstanding, overall the feedback provided was generally positive for major elements and 91% of respondents supported or somewhat supported the Masterplan.

No major changes are recommended based on the engagement, however there are some minor updates that could be included if considered appropriate, including:

- + Disc golf - greater emphasis on retention and expansion of disc golf course to remove any uncertainty that the course is being reduced. Work with the local disc golf community in the design and enhancement of the course.
- + Fenced dog park - as part of the future management of the park, provide clear communication for park users about on/off-lead dog use times and locations.
- + Lighting - emphasis on lighting being a key component to improve park user safety.
- + Paths - emphasis on paths being shared for all users.

Other matters that require further review and consideration by the project team include:

- + Youth zone - review the appropriateness of the youth zone being used for overflow event parking.
- + Toilets - include commentary and details about the existing public toilet block ie. whether it is being removed and replaced within other facilities elsewhere or upgraded in current location.

# 8 ENGAGEMENT EVALUATION

## 8. ENGAGEMENT EVALUATION

Evaluating community engagement involves assessing the quality of the engagement process.

It seeks to measure how well the engagement process was planned, implemented and managed and informs continuous improvement of the engagement approach.

Table 6 provides an overview of the engagement levels for the project to date. This table will be updated following the formal engagement.

Table 6 Engagement Evaluation

| Measurement                                           | Target | Actual      |
|-------------------------------------------------------|--------|-------------|
| Engagement Activities                                 |        |             |
| + Number attending in-person engagement events        | 100    | Approx. 284 |
| + Number participating in surveys/activities          | 250    | Approx. 395 |
| Website (MySay)                                       |        |             |
| + Total visits                                        | 1,500  | 3,100       |
| + Engaged visitors                                    | 200    | 117         |
| + Informed visitors                                   | 400    | 1,100       |
| + Aware visitors                                      | 1,200  | 2,100       |
| + Stakeholder project interest registrations          | 100    | 38          |
| Social Media                                          |        |             |
| + Total interactions (reactions, comments and shares) | 500    | 98          |

# TRENDS - BIG CHANGES | IMPACTING SPORTS, RECREATION, COMMUNITY FACILITIES

A variety of locations and experiences to support convenience, functionality and wellbeing.

A true coming together of people, place and technology.

Source: Adopted from Cushman & Wakefield 2020

# TRENDS | MEGA TRENDS

In December 2022, six additional mega trends were identified within The Future of Australian Sport report prepared by CSIRO. The mega trends will impact the makeup of sport in Australia over the next 30 years. Importantly, these trends will also be relevant and critical for future planning and consideration of facilities within the City of Fremantle. The mega trends re-iterate the importance of health and wellbeing, inclusivity, community and the need for having a balanced lifestyle.

## ESCALATE THE EXERCISE

New pathways to sport

There has been a rise in participation in non-organized activities such as walking, running, cycling and gym-based fitness following the pandemic, social distancing, home isolation, the rise in home based gym equipment, fitness apps and wearable technologies.

In addition, the rise of non organized and extreme sports including skateboarding, pump tracks and rock climbing.

## NEW HORIZONS

Science and technology changing the game

New technologies and advances in areas of technical expertise that support the enhancement of performance (including but not limited to human physiology, nutrition, psychology, engineering and materials science) are now changing the game in sports.

## THE NEXT ARENA

The rise of entertainment sports

Over the coming decade, we will see more sporting organisations and products compete for a share of national and global audiences. As a result, both established sporting codes and sports new to these markets will consider how to engage contemporary consumers and adjust their view of spectators to take advantage of the increasingly dynamic and diverse global media landscape.

## MIND THE GAP

Bringing Australia together across generational and societal divides

Sports organisations can champion positive change across society and will play a unique role in broader societal change and help bridge the gaps between demographic groups. Sport will provide a sense of common purpose, identity and belonging to Australians from many different backgrounds, genders and abilities.

## FAIRPLAY

Safe, sustainable and inclusive for all

Organised sports will transform and reflect changes in the increasing diversity in Australia's demographic profile and social value shifts. Sports organisations will be faced with even stronger social licence obligations and will seek well informed practices to encourage diversity, inclusivity and fairplay, and offer athletes more choice, advocacy and individual expression.

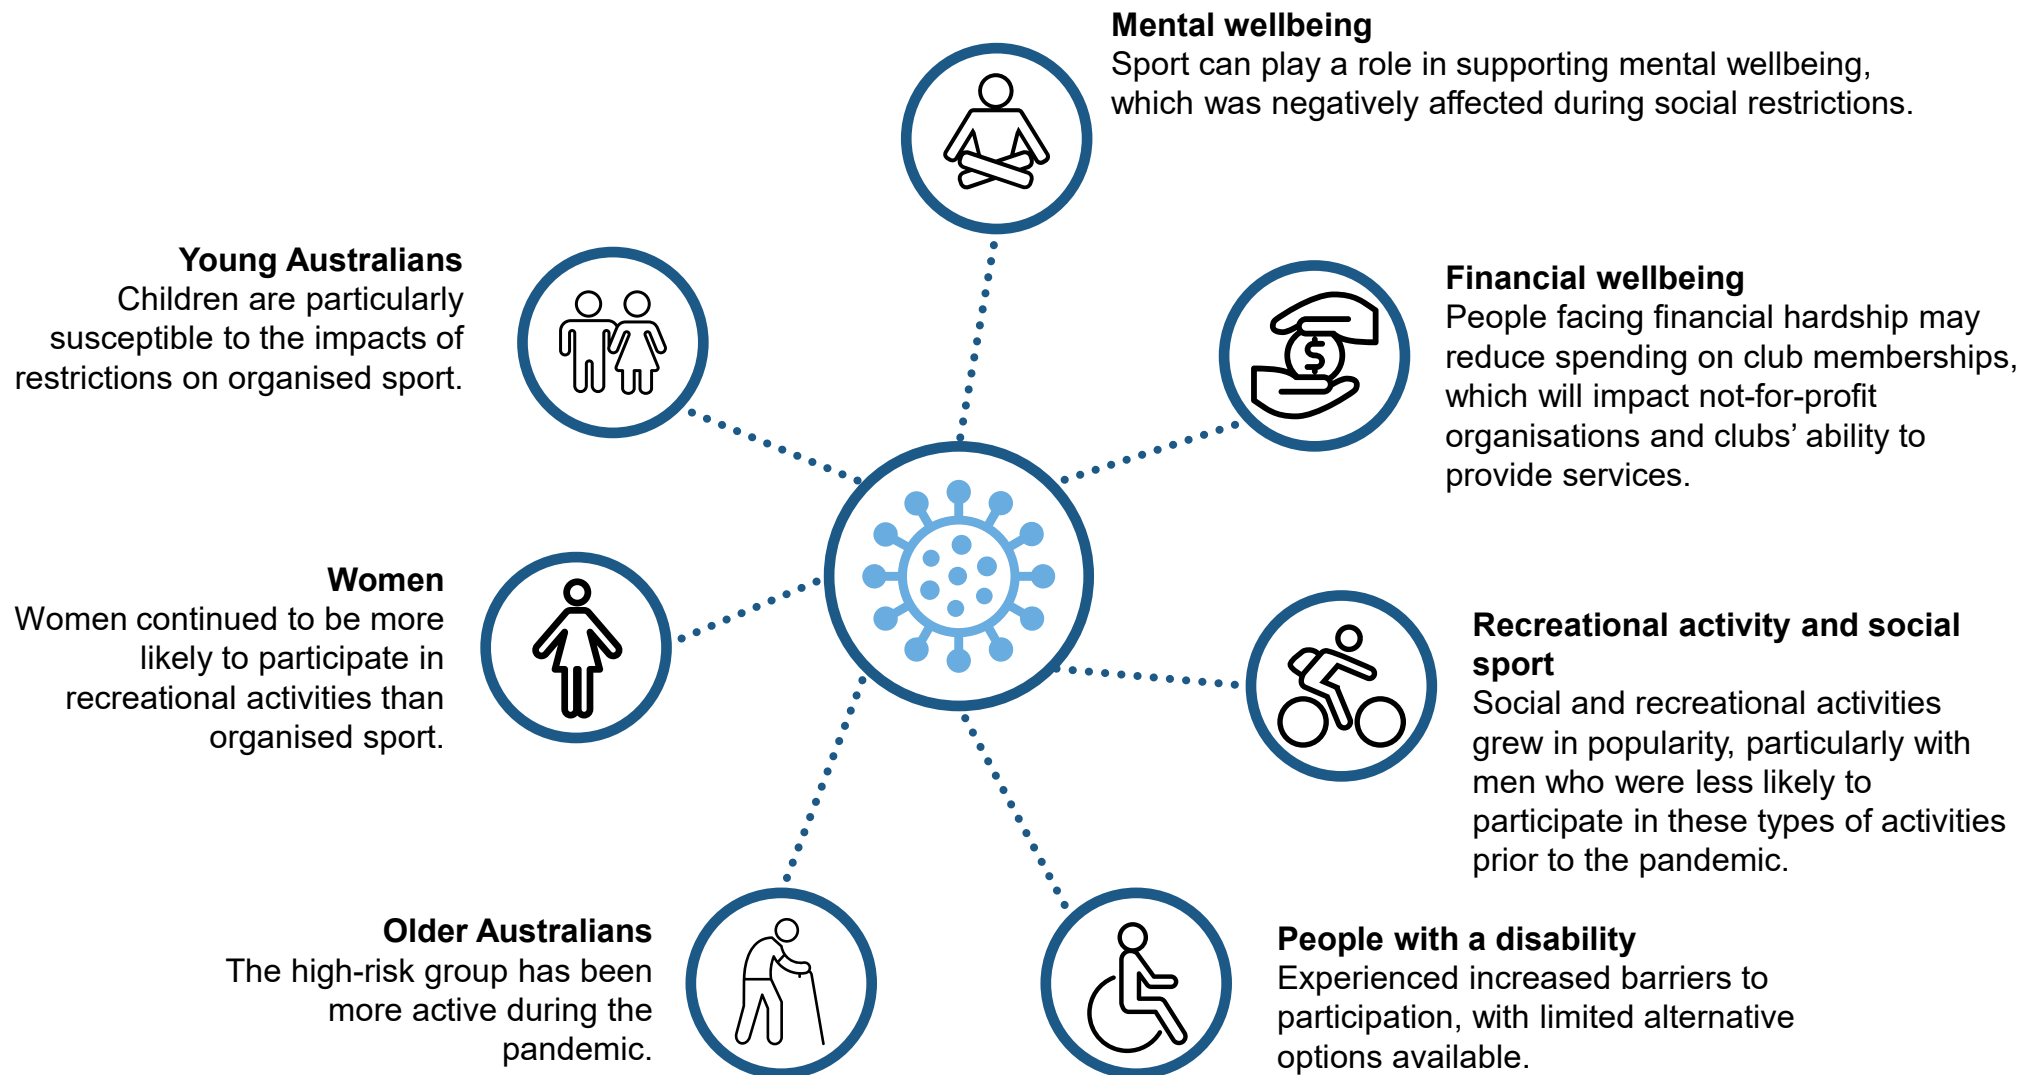

## THE PERFECT PIVOT

Adapting in an uncertain world

Uncertainty will affect all sports, including event planning, infrastructure design and the types of sports that can be played in certain seasons. This megatrend is far broader than just sport but has relevance to a sector with multiple points of exposure to geopolitical, extreme climate and pandemic-related risks. Australian sporting organisations will need to be flexible and ingenious over the coming decades.

# TRENDS - CONSIDERATIONS | FUTURE TRENDS TO ACCOMMODATE IN HILTON PARK PRECINCT

|                                                                                    |                                                                                                                                                                                                    |                                                                                       |                                                                                                                                                                                                                                                                                     |
|------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   | <b>POPULATION GROWTH</b><br>Facilities are being placed under greater stress.<br>Demand will continue to increase on these facilities.<br>Beaconsfield and other developments in surrounding area. |    | <b>LANDSCAPE INTERFACES</b><br>Requires consideration of heat islands, turf fertiliser, water zoning and native vegetation for softer areas.                                                                                                                                        |
|   | <b>REVENUE &amp; VOLUNTEER BASE RETENTION</b><br>Clubs are competing for a smaller base of volunteers and increased expectations of facilities and service provision.                              |    | <b>SPORTING CLUBS – ONE FACILITY</b><br>One central facility provides economies of scale but requires governance model to ensure each club has its own identity, recognised history, ability to provide member benefits and generate revenue (e.g. bar, merchandise, canteen, etc.) |
|   | <b>MULTI USE</b><br>Greater demand to respond to needs all age groups.<br>Require spaces and opportunities for all – females, older, kids, different cultures                                      |    | <b>SUSTAINABILITY OF FACILITIES</b><br>Economic (including ongoing maintenance), Governance, Social, Environmental, Operational)                                                                                                                                                    |
|  | <b>ACCESSIBILITY</b><br>Accessible for all, with special considerations for seniors, disabilities and focus on participation.                                                                      |   | <b>MAXIMISE UTILISATION &amp; MULTI PURPOSE</b><br>Impacts turf (synthetic), Lighting (ambient and sports), Community hub with café/functions, social competitions, “fast-food” sports (T20 cricket etc)                                                                            |
|                                                                                    |                                                                                                                                                                                                    |  | <b>WATER MANAGEMENT</b><br>Falling groundwater levels which has further led to alternative water and turf options being considered.                                                                                                                                                 |

*\*As presented by Simon Tiverios (Urbis) during the Engagement Roundtable PWG Meeting 1*

**RELEVANT TO A  
CLEAR AUDIENCE**

Q. WHAT WILL MEAN  
SOMETHING TO SOMEONE?

**UNIQUE,  
DISTINCTIVE AND  
SPECIALISED  
AROUND A CLEAR  
PURPOSE**

Q. WHAT IS HARD TO  
REPLICATE?

**HOW DO  
CONTEMPORARY  
FACILITIES  
CREATE VALUE?**

**COMMERCIAL  
MODEL SUPPORTS,  
NOT DRIVES VISION**

Q. HOW DO WE CREATE  
INTEGRATED VALUE & NOT  
INDIVIDUAL VALUE?

**CURATED,  
CHANGING AND  
ADAPTABLE**

Q. HOW DO WE MANAGE  
BETTER GOVERNANCE &  
ONGOING INVESTMENT IN  
OPTIMISING OFFER?

A circular graphic with a dark, semi-transparent background is centered over the image. It contains the text 'WORKSHOP OUTCOMES FROM THE DAY' in white, bold, sans-serif font. The background image shows a soccer game in progress on a grassy field. A player in a blue jersey with the number 17 is in the center, kicking the ball. To her left, a player in a white jersey is also kicking. To her right, another player in a white jersey is running. The background is slightly blurred, showing other players and spectators. The lighting suggests it's late afternoon or early morning, with long shadows and warm tones.

**DEFINING THE  
PROBLEM, WE  
ARE TRYING  
SOLVE ...**

**OPPORTUNITIES &  
BARRIERS**

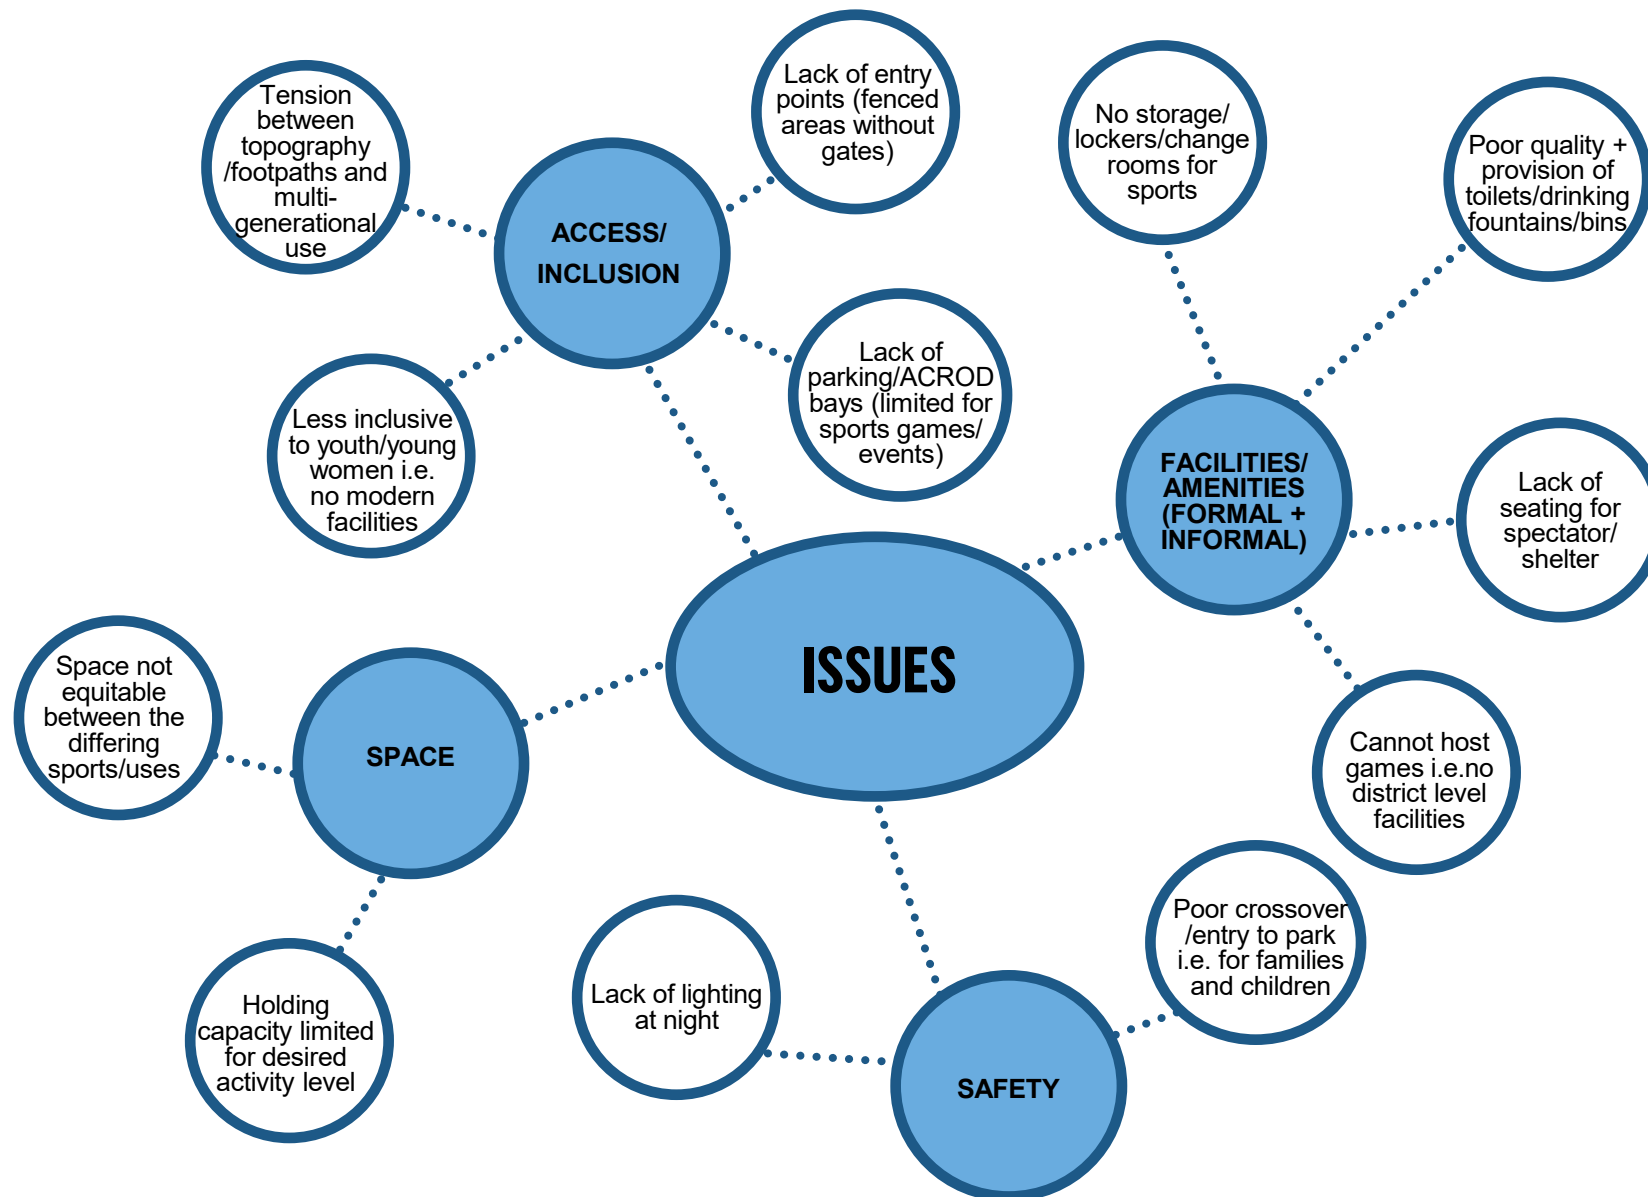

# PREVIOUSLY IDENTIFIED OPPORTUNITIES & CONSTRAINTS

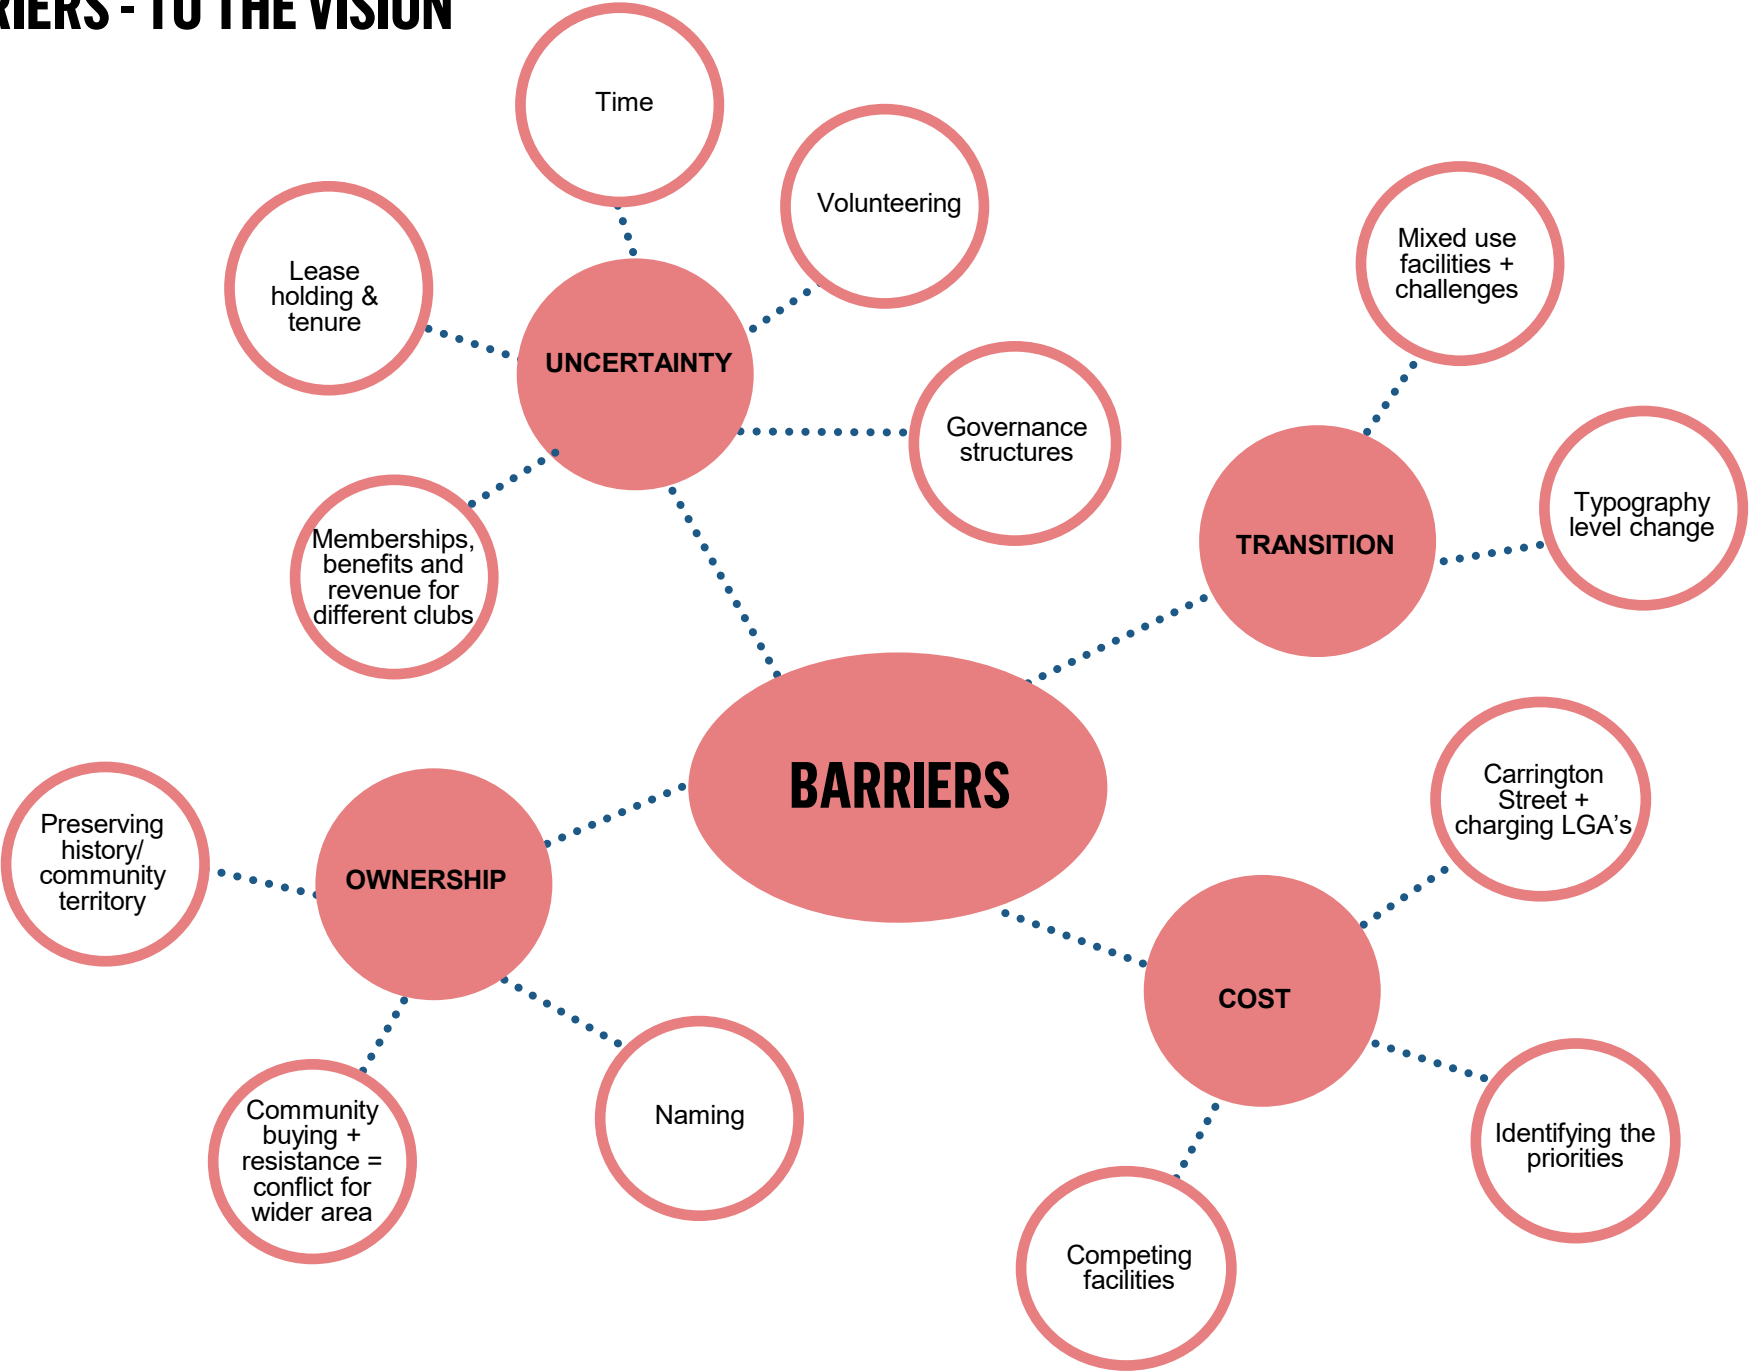

# OPPORTUNITIES - IDENTIFIED IN WORKSHOP

# ISSUES - TO ADDRESS AS IDENTIFIED IN WORKSHOP

# BARRIERS - TO THE VISION

# SETTING PRIORITIES

---

## CLARIFYING INTENT

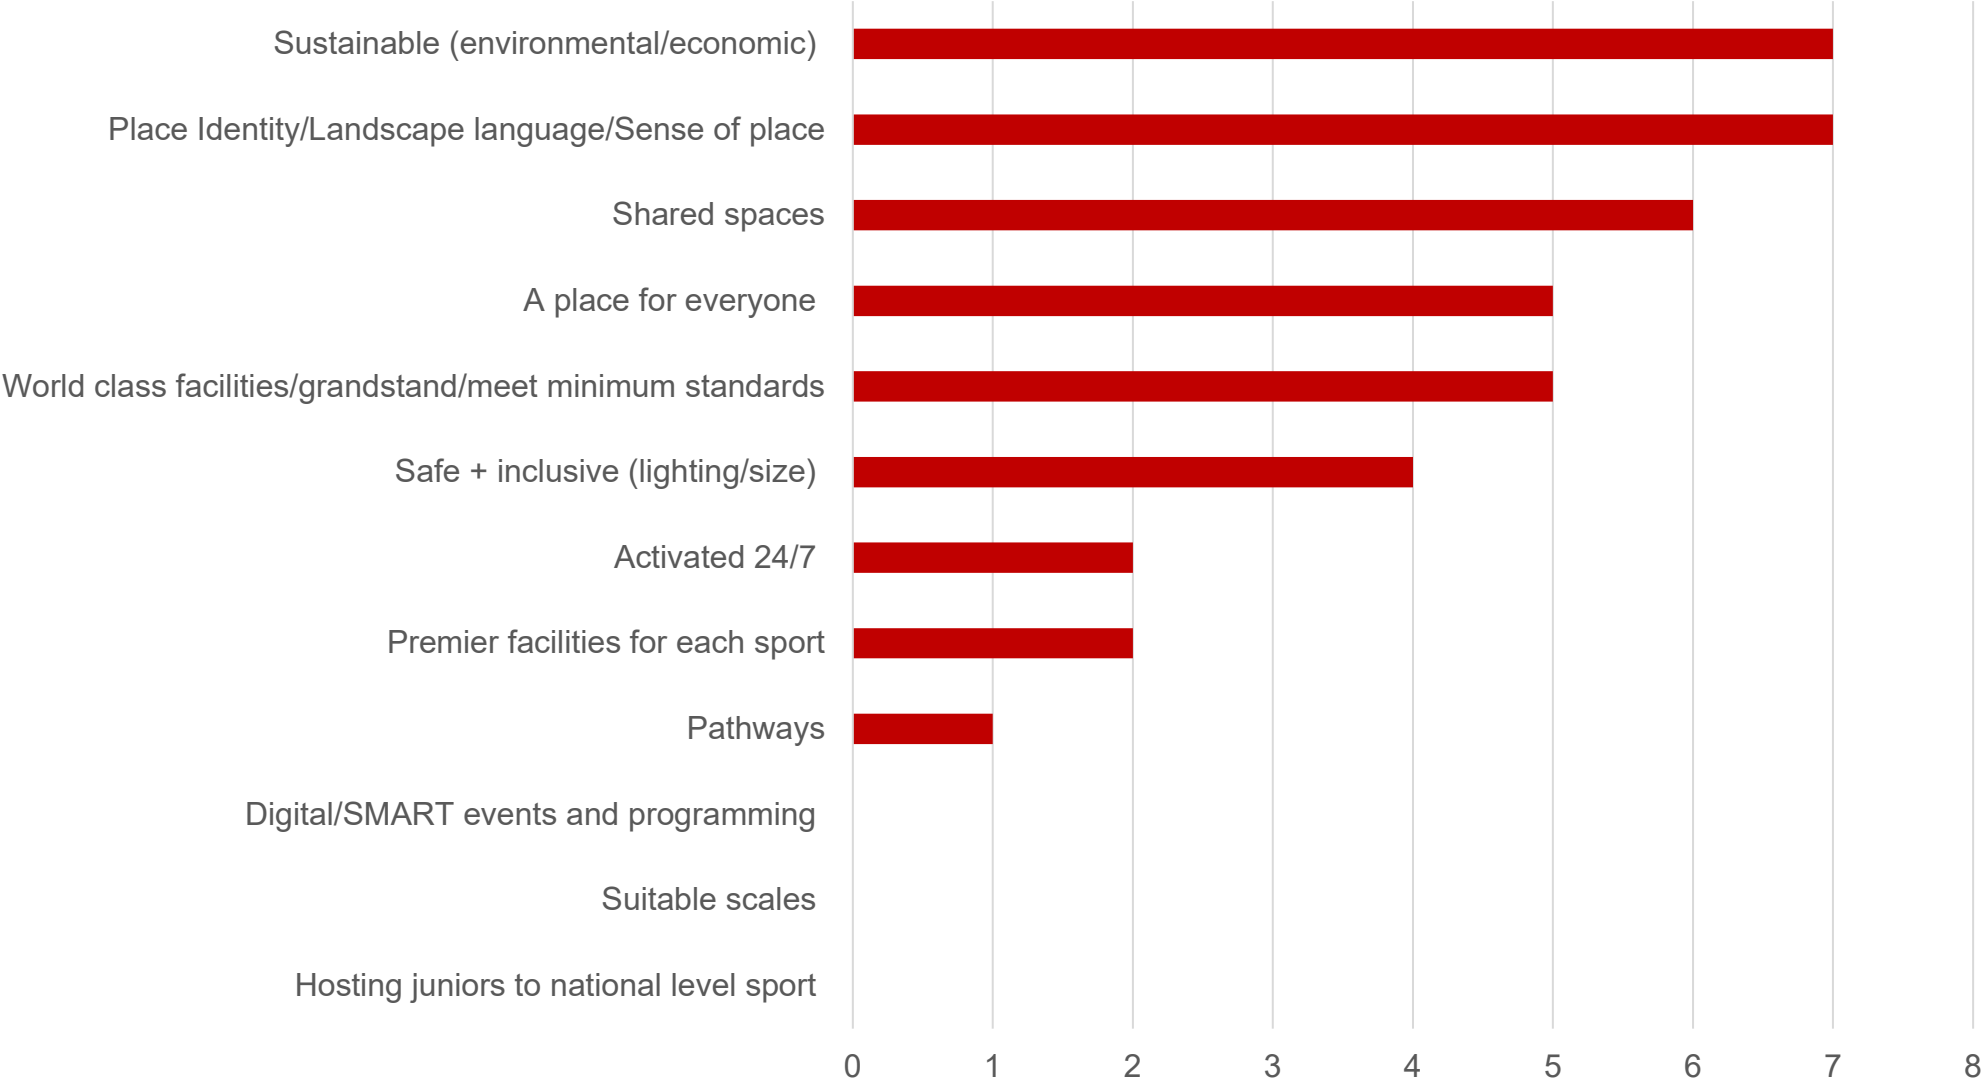

1. **Place context** - desire lines, legibility, safety hotspots, amenity & comfort, attractors, barriers, access points & links to other spaces/facilities.
2. Existing designed **activation spaces** - size (capacity, area for different activities), hard infrastructure, amenity (shade, comfort), accessibility & aesthetic value, parking.
3. **Urban character** - night vs day, character (complexity, clarity, texture, materiality).
4. **Programming** - sports, timing, seasons, existing partners.
5. **Networks & exchange** - collaboration opportunities, commerciality, adjacent landowners/businesses.

# MAP OF GREEN LIGHTS (KEEP) VS RED LIGHTS (COULD GO)

# CRITERIA FOR ASSESSMENT

COLLATED PRIORITIES (# red dots)

# BENEFITS OF ADDRESSING ISSUE/ENABLING OPPORTUNITY (WHY IS IT IMPORTANT)

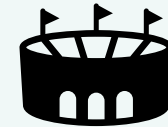

## LIGHTING

- Attract more usage + new users
- Diversity of lighting allows for night sports, while ambient lighting adds value for more passive activities
- Improve safety and longevity of park usage (24 hour use concept)

## GRANDSTANDS, SPECTATOR SEATING IMPROVED CHANGEROOMS & FACILITIES

- Accommodating more spectators
- Provision to host major events e.g. International Women's Soccer
- Retain sporting clubs on the oval and not lose them to competing playing fields
- Deliver appropriate infrastructure for future users and improve asset management
- Improve branding/profile of the park
- Consolidation makes it easier to manage distribution of use through park
- More activation within the broader park and precinct
- Support commercial opportunities

## DESIRABILITY TO LIVE IN AREA

- Support infill developments (Heart of Beaconsfield)
- Support biodiversity
- Improve sustainability, urban canopy and broader objectives under City of Fremantle's broader Strategic Community Plan

## COMMUNITY IDENTITY/PRIDE/OWNERSHIP

- Improve financial viability of clubs
- Improve membership and retention
- Social cohesion

## INCLUSION

- Support other user groups (i.e. disabled/seniors/young people/young women)
- Health and wellbeing indicators
- Accommodate growth in participation

# RECOMMENDATIONS

## A CENTRALISED COMMUNITY HUB

Based on the sporting groups aspirations and sporting minimum standards, the creation of a **centralised community hub** could underpin the redeveloped Hilton sporting space, including:

- modern changerooms and amenity
- club-rooms / function space
- space, so each sporting group can have their own identify
- overlooking the active green space, so each user could have a “main oval” (soccer, AFL and bowls).

## EXPANDED SPORTING SPACES

The City should look at ways to maximise the **active green space** at Hilton Park, this could include:

- maintenance regime
- different turf types

This could maximise the hours of use available across the site.

Additionally, the City should look for ways to **redistribute usage hours across the park**, by creating ‘training’ goals or small-sided games fields can assist with turf loads.

A coordinated **sports lighting plan** should be developed across Hilton Park, to maximise the available usage of the facilities for training and matches.

## EXPANDED PASSIVE RECREATION

The **passive recreation opportunities** should be **expanded** across the site, ensuring there are spaces for all ages, including:

- play space for children
- quiet / group spaces for teens
- walking trails for dog walkers that are away from the active parts or zones.

# **APPENDIX 1**

## **PERTH GLORY**

### **CONSIDERATIONS**

# APPENDIX 1 – PERTH GLORY

## Summary

Engagement with the Perth Glory, Monday 3 July.

Anthony Radich – Chief Executive Officer

Joseph Marafioti – Chief Operations Officer

## Current State

Perth Glory are a professional Football (soccer) Club that begun in 1996, with their men's team competition in the National Soccer League. In 2008, Perth Glory joined the inaugural women's A-League competition.

Perth Glory currently operate out of Fremantle and there is opportunity to extend that relationship, which is due to expire in April 2025.

Perth Glory utilise:

- the old Fremantle Dockers Headquarters at Fremantle Oval, for Administration and Gym
- Hilton Oval, for men's team training (Ken Allen) – does not meet standards for off-field facilities (e.g. changerooms and ablutions)
- Beale Park Cockburn (moving to Spearwood Dalmatinac for the upcoming season), for women's team training
- Curtin University for academy program training
- Community programs happen across the State
- HBF Park for men's matches.

## Recommendations

1. The City of Fremantle should meet internally to consider the long-term retention of Perth Glory.
2. The City should consider sites and locations including Hilton Park and Fremantle Oval (as well as other sites).
3. The City, Fremantle City Football Club and Perth Glory should meet to see if the sharing of Hilton Park could be feasible.
4. Realm studios to explore feasibility and implications of alternative scenarios (noted on following page).

Figure 1. Perth Glory Football Club.

Figure 2. Sydney FC Centre of Excellence Master Plan.

# APPENDIX 1 – PERTH GLORY

## Considerations for Hilton Park

The following scenarios should be considered.

### A Co-located Perth Glory Facility

To remain competitive with both developing talent within their community and academy programs, but also attracting the best talent, Perth Glory indicated a preference for a co-located home.

Perth Glory have indicated they would require (to ensure they retain their license to operate), a consolidated High Performance and Administration Centre, which is adjacent to 4 full size soccer fields (further details on the following pages). Whilst not a requirement, a 3,000-5,000 capacity venue that meets the criteria for the women's competition or men's pre-season competition would be beneficial.

*Recommendation: Explore how Perth Glory's co-located facility could be accommodated at Hilton Park.*

### Status Quo

Perth Glory remain based at Fremantle Oval and using Hilton Park for men's team training.

*Recommendation: Explore options for a temporary solution for immediate changeroom / ablution facility needs.*

### Enhanced Training Offering

Perth Glory remain based at Fremantle Oval and expand presence at Hilton Park for team training.

*Recommendation: Explore options for permanent solution for immediate changeroom / ablution facility needs (including shared use infrastructure) and training spaces (these spaces can take pressure off the main field and goal mouths – utilised for skills).*

### Larger Hilton Presence

Perth Glory have a hybrid model across two key locations, with Hilton Park as one of these locations.

*Recommendation: Explore options for permanent shared use infrastructure for Perth Glory training, men's pre-season and women's competition needs.*

Figure 3. Perth Glory Football Club.

Figure 4. Perth Glory Football Club.

# APPENDIX 1 – PERTH GLORY

## Perth Glory Overview

### Elite Men's

- A-Leagues Team – competes nationally.

### Elite Women's

- A-Leagues Team – competes nationally.

### Academy (male)

- u12's, u23 teams – compete in NPL domestic competition (also preacademy set up yrs 8-12).
- In near future: Academy (female) – u12's, u23 teams – compete in NPL domestic competition.
- Comprehensive Community Engagement Program – regular skills clinics, holiday programs, development camps etc.

# APPENDIX 1 – PERTH GLORY

## Perth Glory Specified Requirements

### Club Requirements:

#### Administration:

- A single-site administration facility for 100 staff. Boardroom & meeting/conference facilities.
- Administration accommodation: Provided either within or in close proximity to training facilities, thus easing the logistical issues associated with PG training and educational activities when these are separately located.
- Large Club House / Function Centre – where members and supporters can gather pre-game, post-game and all year around.
- Perth Glory Museum.

#### Boutique Stadium:

- A dedicated boutique football stadium, able to host events such as Women's League games, Men's Pre-Season fixtures, Football West games, Australia Cup, major youth tournaments. A stadium suitable for hosting 4,000 spectators with a mixture of permanent seating and grass banking or other spectator capacity.

#### Playing Fields:

- Secure access to 4-5 pitches and two 5 a side pitches (synthetic) capable of high-performance and high-intensity usage, with lighting infrastructure, for skill development to support junior and high-performance development and other PG programs.

#### Support Infrastructure (to support pitches), including

- Change rooms
- Gymnasium
- Theatre
- Medical rooms
- Recovery areas
- Common room / lunchroom
- Swimming pool(s)

#### Retail Facility:

#### Indoor Facility:

- Futsal and other indoor sports – basketball, volleyball etc.

#### Centre of Excellence/High Performance Facilities:

- Pitches and supporting infrastructure required to allow PG to run programs which cater for talented junior players.

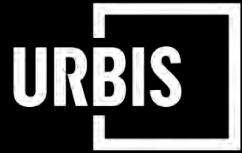

#### Sports Science:

- A specialised sports science facility for football. Medical activities and research accreditation further supporting junior and elite player development. Facilities for doctors and physiotherapists, with the possibility of combining support for other disciplines of sports science and sports medicine such as nutrition. A sports science laboratory for testing and external programs; and a drug-testing area to support high-performance level competition hosting.

# APPENDIX 1 – PERTH GLORY

## Perth Glory Specified Benefits

- Enhance the level and quality of community engagement via access/use to and integration with the football club amenities and use / leverage of PG IP.
- Introduce a diverse audience mix to the precinct – grassroots/juniors (male/female), adults (male/female), families, participant, spectators, high performance, members, residents, tourists, community oriented, entertainment oriented, culturally diverse football followers.
- Bring significant supporter and member traffic through precinct on a regular basis.
- Football Tourism – visiting domestic & international teams, national youth tournaments – for games and to train.
- Grow and develop the game within the community.
- Enhance the football development & high performance of WA's best footballers.
- Deliver financial and organisational sustainability.
- Provide pathways for players, coaches, officials & volunteers.
- Significant Social Return via encouragement of sporting activity / programs – healthy lifestyles, closer friendships, teaching self-discipline, fair play & respect, inclusion, communication, improved confidence, self-esteem etc. Can help devise, promote, and deliver community programs.
- Deliver significant community benefits through sporting activity / programs – building community pride and sense of purpose, breaking down barriers in the community, reducing the health budget; and preventing anti-social behaviour.

## Minutes

### Welcome | City of Fremantle (10:10am – 10.30am)

Acknowledgement of Country by Mayor Fitzhardinge; Context presentation, Introductions and apologies. Attached.

### Engagement Activities | Urbis (10.30am – 1:30pm)

1. Story of Hilton Park (Dancia Quinlan): Attendees asked to think or write memories or stories related to Hilton Park to be shared with the room and collected.
2. Users of the Park (Dancia Quinlan): Attendee 'call out', scribed by Dancia on A1 sheets. Attendees were split into groups to discuss 'why, how and gaps'. Findings shared with the room by group presenters.
3. Issues, Opportunities, Benefits (Tim Connoley): Attendees asked to think or write thoughts on above categories. Summarised and discussed.
4. 'This not That' Cards (Dancia Quinlan): Attendees split into groups to sort cards into 3 piles (This is Us, This is Not Us, and Not Sure). Groups shared findings to help illustrate common 'look and feel' amongst PWG.
5. Vision (Dancia Quinlan): Attendees asked to visualise a successful Hilton Park redevelopment 9 years in the future. Attendees 'call out', scribed by Dancia on A1 sheets with dots applied to show popularity.
6. Barriers (Dancia Quinlan): Attendees asked to 'call out' barriers of realising the vision scribed by Dancia on A1 sheets.
7. Map (Dancia Quinlan): Colour pens over A1 map on wall (i.e. red - don't need to keep, amber - unsure, green - loves/keep).

## Outcomes

1. Formal outcomes and findings to be form part of Urbis' Engagement Report, to distributed to PWG via email no later than Friday 14 July 2023.
2. Next PWG meeting likely to be held on a Saturday afternoon in late August, at Hilton Park. Further detail to be shared via the City no later than Friday 14 July 2023.
3. Sports club representatives please contact Emily Parsons to nominate club rooms if available/on offer for August PWG Meeting.
4. Meeting recording had no audio so this will not be issued.

**Meeting closed at 1:30pm.**

# Minutes

Hilton Park Precinct  
PWG Meeting #2  
Fri 15 September 2023

# Hilton Park Precinct PWG#2 - 15 Sept 2023

10am – 12:30pm Fremantle City Football Club Beaconsfield (MS Teams not available).

## Attendance *Note: Asterisk denotes apology*

## Minutes

### Welcome | City of Fremantle (10:05am – 10.15am)

Acknowledgement of Country by Mayor Fitzhardinge, (re)introductions and apologies, context slide presentation, see attached for latter.

### Engagement Summary to Date | Shape Urban (10:15am – 11.00am)

Slide presentation on Engagement summary to date including Community BBQ event 26 August 2023, calibrated with MySayFreo online interactive map engagement results, a re-run of PWG1 Urbis Report and the Walk on Country with Elders. See attached.

### Engagement Activities | Shape Urban & Realm (11.00am – 12:00pm)

1. Site Planning and Scaling Scenarios: we played with moveable and variously shaped module card cutouts over A1 site base map including AFL ovals, soccer pitches, cricket, basketball courts, table tennis. We broke out into groups and each table organised a site order scenario looking to solve separation, symbiosis, synergies etc. Followed by round table commentary on each and voting on the best resulting plans (left to right was predominantly Clubs, Elected Members, City).

### **Wrap Up| City of Fremantle (12:00pm – 12.30pm)**

Slide presentation wrap up by City covering some existing projects already in budgets e.g. Ken Allen Pavilion (no decision, deferred due to lack of information and time), Brad Hardie Changerooms, Dick Lawrence Irrigation and Lighting, Bowling Green (synthetic with irrigation for cooling) etc.

## **Outcomes**

1. Formal prior engagement outcomes and findings form part of Shape Urban's reporting (the PowerPoint presentation from the session/day is attached distributed to PWG here with these minutes, however the Engagement Report will be available soon and will also go online soon for wider community information consumption).
2. Next community event - likely to be held on Saturday 18 November 2023, at Hilton Park. Further detail shared via MySayFreo timeline.
3. Next stakeholder meeting - likely to be held on Wednesday 13 December 2023, at Walyalup Civic Centre. Further detail to be shared via an outlook incite from the City with approximately 1 month lead time between issuing invite and date of meeting.

## **Thank Yous**

Thanks to FCFC for hosting and all for your time.

**Meeting closed at 12:30pm**

# APPENDIX B

Appendix B: Round One - Drop in session posters and comments

The City is developing a Place Plan and Master Plan to create a vision, so that it can plan for renewal of the precinct as a modern civic green space that meets the needs and wants of the community.

- **A Place Plan** - analysis, opportunities and vision that inform the future of the space, with a list of actions and outcomes required to achieve the vision.

- A **Place Plan** - analysis, opportunities and vision that inform the future of the space, with a list of actions and outcomes required to achieve the vision.
- A **Master Plan** - a concept plan (image), with design rationale and preliminary costings to deliver the future space.

Legend - Landscape Areas

1. Open Level Lawn
2. Parking/Service
3. Chick Limestone Playground
4. Trees in Grass Area
5. Drainage Area
6. Bushland (Plum Tree Thicket)
7. Chick Limestone Oval
8. Heathy Wooded Level Lawn (Plum Park)
9. Embankment
10. Paved/Servicing
11. Drainage Swale with Limestone Formations
12. Heathy Woodland (Plum Tree Thicket)
13. Open Level Lawn + Bushland Thicket
14. Open Hillsides
15. Wooded Embankment with PUF
16. Grassy Slope (Picking)
17. Willow Swamp (Oak Swamp)
18. Parking/Service
19. New Shed Enclosure, ex. Community Garden
20. Mature Trees (Paving/Service Fields)
21. Oak Swamp
22. Grassy Slope with Embankment (Chick Limestone Oval)
23. Millar Park Playing Fields (Upper/Lower)
24. Oak Alluvial Swamps
25. Parking/Service (with Grassy Slope Swale)
26. Wooded Embankment (with Limestone Formations)

- Legend - Built Form**
- A. Brad Harbale Pavilion (c. 1965 + 2011)
  - B. Milton Reserve Toilet (c. 1966)
  - C. Milton Park Bowling Club (c. 1967)
  - D. Mena Shed Social Space (c. 1982)
  - E. Kapepe Mackay Pavilion/ Fremantle Football Club (c. 1993)
  - F. Mena Shed (c. 2014)
  - G. Gentlemen's Shed (c. 1966)
  - H. Change Rooms (c. 1982)
  - I. Ken Allen Pavilion (c. 1987)

Community input is essential to ensuring the design meets the needs and aspirations of the people using it (or who would like to use it).

There will be four opportunities (including today's session) throughout the project to provide input. Scan the QR Code for more information and to stay up date with the latest project news.

Provide more input  
online before 3  
September.

### Vehicular Circulation, Public Transport + Parking

- |                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## General Feedback

### Hilton Park Precinct Introduction Poster

17 – North Ken Allen

- No “stop” bar on gate. If unlocked dogs can push in or out.
- Not bolts as metal shrinks & expands.
- Better close with this

### Hilton Park Precinct Context Poster

#### Tree + Vegetation

Important to retain all the existing trees (and maybe plant more). Would love to see a 'natural' bushland area for dogs to walk off-leash. (wildflowers in spring)

Natural water feature would be nice

Bush along Lefroy Road to stop noise & feel good

North east corner (7, 8, 9, 10, 11, 12) The need for sub-strata native – ground cover + flowering / attracted birds & fruit

Replacing grass – properly establish bio drainage plant

#### Fencing + Walling

Fencing on Shepherd St between Lefroy Road & Bowling Club to protect playground. Preferably low-profile integrated material. (1 gold dot)

Replace existing fencing at Bowling Club West + Sth West perimeter for security + protection of the asset (2 gold dots)

Low wire fence (low impact) to protect off lead dogs from Carrington St

#### Sports Fields + Play Infrastructure

Fremantle City FC to have use of a modern pavilion overlooking Ken Allen Reserve

Better access to safe, well-maintained toilets for users of soccer pitches

Less fences, more connections between all sporting facilities

Safety/security Issues: Very Dark

Why do soccer club people accessing Alistair Mackay have to drive on the grass/  
Why can't they park along the street? It's dangerous

2 Tennis Courts would be nice

#### Vehicular Circulation, Public Transport + Parking

Convert to a community sports centre (Brad Hardie location)

| Off-leash Dog Area to 8 under existing trees BUT not fenced                                                                                                                                                                                                                                                  |
| Ash from clancies runs tuck shop. Come just for that, food is so good.                                                                                                                                                                                                                                       |
| <p>Soccer ball crossing road &amp; damaging adjacent property on Jeffrey St can trees (or other things) be used to stop it. i.e., net, fence, plants</p> <p>*Happening multiple times a weekend.</p> <ul style="list-style-type: none"> <li>- damage, feel unsafe, safety in crossing road (kids)</li> </ul> |
| Support larger & better playground                                                                                                                                                                                                                                                                           |
| Bowls Club is used for Dancing + Exercise classes for seniors + disabled dancing classes. (1 gold dot)                                                                                                                                                                                                       |
| <p>More trees for walkers</p> <ul style="list-style-type: none"> <li>- Less fences, more opp. To connect through Bowls area.</li> <li>- More shrubs for biodiversity</li> <li>- Prefer grass to walk on</li> </ul>                                                                                           |
| <p>Ken Allen Oval.</p> <p>Fenced dog area is great – But large enough for off-leads</p>                                                                                                                                                                                                                      |
| Fencing off larger areas for dogs if we can't use the Perth Glory field                                                                                                                                                                                                                                      |
| More trees facing Jefferey St.                                                                                                                                                                                                                                                                               |
| Toilets on This park [Hilton Park South] please (1 gold dot)                                                                                                                                                                                                                                                 |
| More native trees!                                                                                                                                                                                                                                                                                           |
| Wheelchair & mobility scooter access to all sports areas                                                                                                                                                                                                                                                     |
| Benches along Carrington St side please. (1 gold dot)                                                                                                                                                                                                                                                        |
| More social housing for residents                                                                                                                                                                                                                                                                            |
| Football FC pitch quality has been really bad (except this year) So improved surface + drainage + less use ie more fields.                                                                                                                                                                                   |

### Hilton Park Precinct uses Poster

Cycle safely here [Carrington St] + crossing

Walton Way lighting needed.

Keep club idenlises separate – Doesn't work. Also don't mix with Bowls Club

Review times of dogs allowed off lead in this area during sporting events.

Why during training?

Connect parks structures better.

Toilets are only on 1 side. More would be appreciated.

Enclosed area for dogs where they could be off leash and not interact with other sports.

18 holes disc golf course

Funding for Bowls Club for improvement in its current form (1 gold dot)

Would be great to have more connection between each facility

More signage on dog poo pick up

More fines for not picking up.

## Existing Buildings

| Existing buildings – improve, expand, change?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

### Existing buildings – improve, expand, change?

- Public toilets are not great – feel sketchy early am in cricket season (club rooms not open?) Needles.

### Change rooms

- Update to cater for females
- HPBC security fences to protect asset.
- Female change rooms required (3 votes)
- Upgrade toilets building inclusive club across all age groups, disabilities, room for growth (1 gold dot)
- Café
- Upgrade building but incorp into environment
- Needs upgrading and updating
- Don't over capitalise on building. Keep simple demolish old ones. Spend money on all the other great ideas.
- *One gold dot placed equally between Alastair Mackey Pavilion and change rooms.*

### Hilton Park Bowling Club

- Security fencing south boundary bowling club (1 gold dot)
- Refurb to convert to bowls + social + community hub (1 vote)
- Include tennis courts here (1 gold dot)
- Could be activated in awesome social hub. Smells old and sad atm.
- Up and coming energetic volunteers are improving sport + social + all abilities + ages.
- Upgrade Bowling Club [HPBC] secure fences. It supports bands and dog + kid friendly it's the nest club around (1 gold dot)
- Old bocce fields could be beach volleyball.
- Older gen unwelcoming to kids. Make more multi age.
- Awesome place, people, very friendly & inclusive.
- Home for table tennis on part of unused space (3 gold dots)
- Upgrade facility to make more family friendly, it is a popular community venue which needs more help.
- Support bowling club – great for kids and adults real community spirit!
- Need updating
- HPBC need to upgrade security and fences (1 gold dot)
- Facilities need updating. Great social environment support many local bands that play there (2 gold dots)
- Great music scene. Grandchildren are growing up as part of an inclusive club.
- Expansion of Bowling club social activities

### Other

- The ambulance entry for footy needs to be able to be accessed – a padlock no one can open! (3 votes)
- Does a mega facility then require paid staff (council or club)? Are lease areas still available to general community?
- Skate park (1 gold dot)

## Amenities and infrastructure that you think would greatly improve Hilton Park.

| New buildings/Pavilions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <ul style="list-style-type: none"> <li>Fine people who don't pick up dog poo! So much of it.</li> <li>Not less dog space</li> <li>Restrict dogs to on lead other areas far less dog mess (responses – 'No!' and 'NO')</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Activation

- Much safer for people and small dogs
- Brisbane done this all parks for 30 years
- Restrict off lead dog areas to designated fenced areas each end Lefroy Road.
- Do not agree with closed dog off lead – too small
- Have a dog off leash area over at the east side even when sport is on – the dog community here is huge + important for dogs off lead.
- Retain open off-leash dog walking – there is a large community of dog walkers.
- Difficult to walk dogs when sport is on, especially weekends. Dedicated dog space please.
- Open off-leash dog walking please. Maybe a low wire fence along Carrington St for added safety.
- Dedicated enclosed dog zone to run + play with drink bowl + poop composter
- More natural 'bush-like' tracks for dogs to walk off leash.
- We love the open off-leash environment. Great use of space. Sport = on leash. No sport = off leash.
- A coffee shop would be fab.
- Dog enclosed area to use when sport is on.
- Dog poop compost.
- BBQ toilet block H2O fountain
- Proper futsal pitch would be good . Co shared with BBall + netball (i.e. Bibra lake)
- Skate park (1 gold dot)
- Fitness eqpt
- Café/van
- A playspace where Buster Fun Bus & potentially others can meet with parents like in Copenhagen. These are playgrounds + parent support.
- What about a swimming pool?
- A musical landscape Melville Primary School – interactive playground [name removed] Hilton contact [name removed]. Touch-sound
- Toilets near the playground
- Swings closer to playground
- Mini-golf putting
- Safety (Dealing comes and goes)
- Disc golf – wed night
- Off lead vs on lead areas
- Cycle & walk way lighting needs improvement
- More female presence & women in mens shed.

### Hilton Park Interactive Map

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>CATEGORY</div> <div>Something I can't do now but would like to do.</div> | <p>This area is barely used, make a bmx or mountain bike park like Boomyabarra Park</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141120">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141120</a></p>                                                                                                                                                                                                                                                                                                                                                                      |
| <div>CATEGORY</div> <div>Something I can't do now but would like to do.</div> | <p>Potentially great community spaces for many activities - meeting, art space, yoga etc. Currently is used for dance classes however could be improved and better developed for these purposes. Bowls club centrally located and could be developed as the hub of the park with parking (much needed) and toilet facilities for the park (desperately required).</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141235">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141235</a></p>                                                                                        |
| <div>CATEGORY</div> <div>Something important to me.</div>                     | <p>Natural bushland. I don't use the disc golf but its a good example of threading activities around the perimeter of the park making use of the spaces and connecting areas. I'd like to see the same with walking/running/riding tracks and paths threaded throughout the park and around the perimeter, with lighting for evening use. Not just flat straight paths but meandering, multi levels that exist without disrupting other uses of the park</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141236">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141236</a></p> |
| <div>CATEGORY</div> <div>Something important to me.</div>                     | <p>Remove unnecessary buildings and don't necessarily replace them. Don't spend too much on expensive buildings that have limited use. No more sports pavilions please. Multi-use/community structures (seating/shade) and modern toilet facilities would be better.</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141237">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141237</a></p>                                                                                                                                                                                     |

| CATEGORY<br>Something I like to do here.                   | <a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141294">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141294</a>                                                                                                                             |
|                                                            | Cricket Nets - would be great to have cricket nets available at Dick Lawrence Oval for Hilton Park JCC and general community use. There are currently very few venues available for training over summer and constant negotiations over which teams can use the nets on the upper oval each year, as there is just not enough available across the City of Fremantle.<br>Address: |
| CATEGORY<br>Something I can't do now but would like to do. | <a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141295">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141295</a>                                                                                                                             |
|                                                            | Better connectivity across all the existing oval spaces to make it easier for access to public toilets, club houses, training spaces etc. It would also be good to see more communal/shared facilities made available to accommodate the variety of sporting codes utilising these spaces throughout the year.<br>Address:                                                        |

| <p>CATEGORY</p> <p>Something important to me.</p>                     | <p>I walk my dog off leash on all the ovals when there's no sport going on. I want to continue to be able to do this and strongly disagree with the idea of an enclosed area for the dogs unless it is a large space and enables the dogs to get proper run and exercise. The oval space needs to remain a multipurpose space for all people who live in Beaconsfield not just those who play sport. There needs to be a more equitable spread of access to the buildings and green space, it is currently too exclusive and targets a minority population, primarily soccer and football, cricket in the summer, perhaps rugby. It would be good to have a building that is accessible to all the community for events and alternative sporting activities. There is currently a group of senior citizens who use the basketball court to practice Tai Chi for example and elderly gents who play bocce every morning on the lawn. People use the undercover verandah for personal training so lots of casual users who would benefit from better facilities. There is a large number of dog walking owners who meet each afternoon, form friendships and help each other through their doggy connections, many of these people are single households and this is their connection to others in their neighbourhood, many people in this group meet outside the park and will support and assist each other with needed, don't hinder or interfere with the ability of this community group to continue this relationship and please consider the importance of this for the wellbeing of the dogs and their owner's. We are all aware of and actively ensure that poop is collected and put in the bin even if not from our own dog, we appreciate the precious resource we have and don't want to lose it so are working hard to make sure everyone does the right thing, Don't penalise a large responsible group of people for a few accidents with unstopped poop, use tech to enforce fines or something to incentivise more vigilance but don't stop the current access. With thanks Neri ne .</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141331">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141331</a></p> |
| <p>CATEGORY</p> <p>Something important to me.</p>                     | <p>I have been walking my dogs at this park for 13 years. I meet many friends every day here. It is very important to me to be able to continue meeting my friends here. It is also important for all of our dogs to be off the lead. They do not get well exercised when on the lead, their interactions with other dogs is inhibited and can lead to social problems when they are on the lead. My dogs have dog friends that they enjoy meeting every day here. They are very well behaved dogs and don't bark a lot at home, largely because they go to the park twice a day. A dog off lead area is very important to the dogs and the owners. I understand the need to have the dogs off the oval during sports. I suggest we have the area east of the oval, in the trees and up the hill on the basketball court - everything east of the trees. There is enough space there for us to call the dogs back before they could get into the oval. A park bench up next to the basketball area and dog bin up there would be a good addition. We regulars are very diligent on picking up dog poo and asking others to do the same. I will always pick up poo, whether belonging to my dogs or not, when I see it - I know most of the regulars do the same. This space and time to run the dogs off lead with their friends is very important for my health and well being, for my dogs good behaviour at home and with other dogs, for my neighbours who have never had to complain about my dogs barking or being aggressive to people or dogs, and for my other dog park friends as a friendly, supportive and enjoyable space we enjoy every day.</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141333">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141333</a></p>                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <p>CATEGORY</p> <p>Something I can't do now but would like to do.</p> | <p>The pitches on the Eastern side of the park are heavily utilised for football, to the extent that they become quite degraded by mid half of the season. This space appears relatively utilised in contrast. The master plan should expand the football footprint to include this area for the club, to manage the growing demand.</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141354">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141354</a></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>CATEGORY</div> <div>Something important to me.</div>                     | <p>These grounds are exceptionally important for the kids and adults playing football. The volume of club members has grown substantially. I believe soccer is one of the fastest growing community sports, despite the relatively high cost of participations (fees, registration etc. Forecasts suggest this will continue. This is a good thing that the master plan needs to accommodate. The growth in usage and the football club mean more adequate facilities are required such as a grandstand(s) for increasing number of spectators, refurbishment of the accommodation clubhouse and changing rooms. This is required to allow the sport to grow. Inaction will constrain and potentially create WHS issues (I suspect these already exist in some of the changing rooms at the southern end. The facilities require upgrade rather than renewal. This could be done in line with modern, sustainable design principles to create a draw card to the area.</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141355">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141355</a></p> |
| <div>CATEGORY</div> <div>Something I like to do here.</div>                   | <p>Playing football. The exercise, enjoyment and social connections has been the single most important factor in improving my mental health. I have no doubt this is the same for many men of my (middle) age.</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141356">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141356</a></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <div>CATEGORY</div> <div>Something I can't do now but would like to do.</div> | <p>Surely there is an opportunity with the masterplan to look at consolidating the Community infrastructure on Hilton Park into a bigger, more efficient shared use facility for the clubs that use it. The layout is sporadic and ad-hoc at present, Perhaps with combined parking.</p> <p>Address:</p> <p><a href="http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141357">http://mysay.fremantle.wa.gov.au/hilton-park-precinct/maps/hilton-park-interactive-map?reporting=true#marker-141357</a></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Minutes

### **Welcome by the Mayor (10:05am – 10.15am)**

*By Mayor Hannah Fitzhardinge*

Speech on Acknowledgement of Country, importance of project, paradigm shifts.

### **Project Update by the City (10:15am – 10.25am)**

*By Emily Parsons*

Presentation covering house keeping, project journey, place approach, Community Development update, POSS/CIP, Ausplay stats, engagement calibrations, engagement timeline going forward.

Slides 1-12 attached.

### **Place Plan Presentation on Vision, Themes & Actions. Followed by review session (10:25am – 11.05am)**

*By Jessica Gannaway*

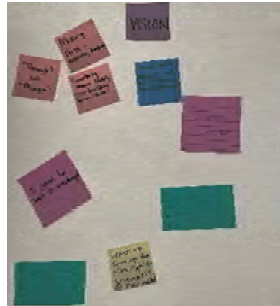

Presentation on what is place, place approach can be like farming, context of the place and place work to date including audit and stories, vision statement for the site, description of place themes and associated actions.

Slides 13-24 attached.

*By Anna Kelderman*

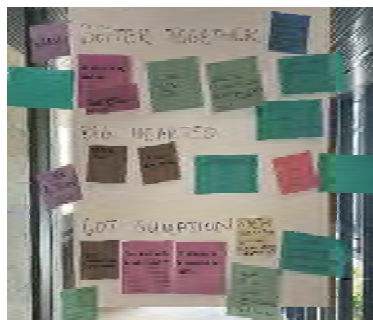

1. Engagement Exercise 1. Thoughts on the place vision statement using post-its.

Not too many comments, those captured will be recorded by the consultants in the Engagement Report once it is received by the City.

2. Engagement Exercise 2. Thoughts on the place themes and actions using post-its.

Some good comments, those captured will be recorded by the consultants in the Engagement Report once it is received by the City.

### **Engagement Outcomes (11:05am – 11:30am)**

*By Anna Kelderman*

Presentation covering engagement purpose, activities and outcomes of engagement round 2 including PWG2 and Community Breaky event 15 September 2023, calibrated with MySayFreo online survey engagement results regarding the place vision statement, themes and actions.

Slides 25-35 attached.

### **Needs Analysis Presentation on Spatial Options. Followed by review session (11:30am – 12:55pm)**

*By Brett Schreurs*

Presentation overview of the six Needs Analysis spatial options.

Slides 36-40 attached.

*By Anna Kelderman*

3. Engagement Exercise 3. Reviewing the 6 spatial scenarios using pros and cons boxes and a ranking number from 1 to 6, report back to the room with preferred option.

Some good alignment, that captured will be scanned and recorded by the consultants to inform the plans going forward.

### **Wrap Up| City of Fremantle (12:55pm – 1pm)**

*By Ryan Abbott*

Next step is a Council Report on this project, its update and Place Plan status, all goes up as an Item 20 Dec 2023 asking Councillors to endorse the Place Plan for public release for feedback online in Feb 2024. Followed by thank yous, Merry Christmas, and see you next year around early April for PWG4 probably after easter.

Slide 41 attached.

## **Outcomes**

1. Good engagement session with PWG on place vision statement, themes, actions and spatial needs plan. Good alignment in the room.
2. Feedback from round 2 engagement (including this PWG3 session) will be used to finalise the place vision, place themes and actions for the Place Plan.
3. The consultants will be aiming to have a light-touch conceptual zonal/spatial plan in the place plan document finalised around end of December.
4. The six Needs Analysis spatial options will likely be integrated into the final Master Plan Report as a simplified 'design rationale' graphic that talks to the process prior to the Master Plan (to give it some grounding).

## **Thank You**

Thanks to all for your time.

**Meeting closed at 1pm**

# APPENDIX E

## Appendix E: Round Two - Drop-in session outcomes

| Big map comments                                                            |  |
|-----------------------------------------------------------------------------|--|
| Area specific - Dick Lawrence Oval (north west corner)                      |  |
|                                                                             |  |
| This area is in the middle of the disc golf course and will impede play.    |  |
| DDA connections needed                                                      |  |
| Should camping be discouraged? or encouraged? If so -> water - toilet waste |  |
| Fence existing kids park to keep kids off road.                             |  |
| Irrigation + more turf                                                      |  |
| Better turf management + less spraying                                      |  |
| Water play                                                                  |  |
| Play is too small. Need dog free area. Dogs on lead during games.           |  |
| Playground fencing & public toilets/restrooms to be accessible.             |  |
| Area specific - Peace Park (north east corner)                              |  |
| Hilly areas mean people wont see dogs go poo and wont pick up.              |  |
|                                                                             |  |
| This area is in the middle of the disc gold course & will impede play       |  |
| Retic needed <i>[adjacent to public toilets]</i>                            |  |
| DDA Access                                                                  |  |
| Tennis courts + upgraded basketball courts in youth zone.                   |  |
| Youth zone - nice green grass and more vegetation                           |  |
| "Gathering Space" is in the middle of the Disc golf course.                 |  |
| Anti social dog area                                                        |  |
| Bookable enclosed areas                                                     |  |
| Nice idea needs better location of community space .                        |  |

## Big map comments

Fence along road would mean better dog + kid use of area

Area specific - Ken Allen Oval (south west corner)

Shade - these trees create beautiful afternoon shade - dogs + owners gather + talk

Safety - all dogs can play + socialise

All ages

Deaf dogs can be off lead. Parks with main roads on borders - not safe -> much less relaxing for owners.

The size of this area means dogs can properly exercise + play. Owners also can get food exercise walking around the park. A smaller area reduces these benefits for dogs off lead + people.

Community - Many people gather every day at this enclosed dog area - connecting with each other often. This enclosed park for dogs off lead is unique.

Fence not working. Chain fence needs ped. gate.

Keep fences for dogs @ top of batter

Keep all 3 ovals as dog exercise area! (1 tick)

Dog poo bag + bins needed

Noxious weeds - need removal

More seating & shelter from rain around enclosed dog area :)

Area specific - Hilton Ovals (eastern ovals)

Seasonal net required to stop balls crossing over road. Safety issues + resident problems.

## Big map comments

Security issues things being stolen + dumping

Clubs to adopt rubbish clean up programs cultural training

Lighting across site needed

An accessible wild area

Playground this side of oval

'Rebuild' or refurb.

May we consider the existing architecture + embodied energy.

Area Specific - Bowling Club and Men's Community Shed

Freo Mens shed parking. Members are bringing in materials and tool (unloading/loading) each day. Require parking.

Hilton Bowling Club. Close parking near hall for older women doing morning yoga.

Liquor licence and cafe (quality) run by say Bowling Club.

Indoor table tennis next to Bowling Club

Tables up permanently used 12 hours a day

Area specific - roads and perimeter path

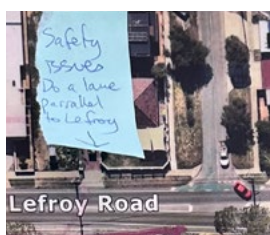

Traffic calming for Shepherd Street.

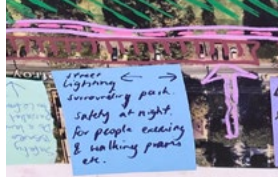

Need to re-paint the "no stopping" on road and also signage - it is faded and people park on Shepherd St.

Please remove roads & car parking from the heart of the park. Divides and is unsafe for [unfinished sentence]

Safety issues.

Do a lane parrallel [sic] to Lefroy

| Big map comments                                                                                      |                                                                                    |
|-------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| Lefroy Rd + Shephard rd intersection is dangerous                                                     |                                                                                    |
| If creating a bike path, ensure connection to safely cross Carrington @ Winterfold                    |                                                                                    |
| Street lighting surrounding park.<br>Safety at night for people exercising & walking prams etc.       |  |
| Perimeter path to include things for kids (ie. wavy path to ride on)                                  |                                                                                    |
| General                                                                                               |                                                                                    |
| Identity of the Park                                                                                  |                                                                                    |
| + Name                                                                                                |                                                                                    |
| + Dual Noogar [sic] name                                                                              |                                                                                    |
| Solar powerd [sic] water pumps for watering.                                                          |                                                                                    |
| E.V charging bays must be from solar or wind.                                                         |                                                                                    |
| EV cars                                                                                               |                                                                                    |
| Electric bikes charging                                                                               |                                                                                    |
| Electric scoter [sic] charging.                                                                       |                                                                                    |
| Music amphitheatre                                                                                    |                                                                                    |
| E.V powed [sic] mower's.                                                                              |                                                                                    |
| Surplus space in table tennis hall - managed by T.T. for yoga - martial arts - other passive exercise |                                                                                    |
| Water storage - More tanks connected to buildings for summer watering cant grow veges.                |                                                                                    |
| Extra stair access                                                                                    |                                                                                    |
| Tennis courts needed - maybe over multi-use court.                                                    |                                                                                    |
| Gates with latch that is easier.                                                                      |                                                                                    |
| More picnic facilities. Full court for bball.                                                         |                                                                                    |

#### Other comments:

- + Seriously consider equip storage areas for clubs e.g. table tennis tables, exercise mats etc:
- + Make sure the floors in rooms are flexible for players
- + The table tennis players could be happy with a shared hall (bookable) together with a dedicated room to store 10 tables (they fold up).

#### Place Theme 4: Village in a village

Q1. **Name**

---

Q2. **Suburb**

---

Q3. **Email**

---

Q4. **For the DRAFT VISION we heard:**“Hilton Park is a place for everyone. It is a place of connection where people come together though organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive.” Have we got this right? Share your ideas!

There is a strong sense of community with all those that use the dog park, we heard about the park when we bed to the area and love using it

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME**Through our prior engagement activities we heard a 'Sense of Home':  
**Openhearted** - Hilton Park will be a culturally safe place, where individuals can be their authentic selves.  
**Ritual Experiences** - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'.  
**Inclusive** - Hilton Park will welcome all people, understanding that different people will seek out different experiences.  
**What might this look like?** Potential Place Actions include:  
Create well-connected walkable paths  
A versatile community gathering space (indoor/outdoor) for all community groups  
Encourage extended stays with different activity options e.g. shaded picnic tables  
Ensure all existing and new buildings have adequate female facilities  
Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc)  
Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park  
Dual name the park  
Explore a gender-inclusive Community Shed  
Design for adaptable future needs  
**What do you think? What else would you suggest?**

Maintain the fenced, shady park for dog walking where dogs and people socialise and exercise safely and freely.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':  
**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.  
**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.  
**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.  
**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?**  
Potential Place Actions include:  
Implement 'Complete Streets' for accessible travel  
Establish a water management plan with Water Sensitive Urban Design (WSUD)  
Increase tree canopy to 30%  
Install fauna support boxes  
Place hydration stations strategically  
Ensure new buildings aim for green star ratings  
Safeguard and enhance existing tree canopy  
Use local plants for ecosystem sustainability  
Choose sustainable materials  
**What do you think? What else would you suggest?**

Fencing around parks enables dogs to exercise, children to be free to run, parents and dog owners relax, exercise, socialise. It's a real community there

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.Enhances the health of the community - Hilton Park will support and enhance the health of the community as well as the individual.More than Sport - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.Equality - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.What might this look like? Potential Place Actions include:Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildingsWhat do you think? What else would you suggest?**

Keep the fenced dog park. It is the best and only of its kind in the area and we travel from south Fremantle to use it almost every day, nothing else compares.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.Good neighbours - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.What might this look like? Potential Place Actions include:Provide dedicated clubrooms for each major sporting clubEstablish a CCTV program for safetyEnsure well-lit key destinations for safety at nightMaintain a consistent material and furniture paletteEstablish a site-wide brand for Hilton Park to ensure the look and feel is cohesiveDevelop a comprehensive and coordinated event planWhat do you think? What else would you suggest?**

Keep the dog park easily accessible and encourage community continues to use and enjoy the park. The soccer has already reduced our access to free play with several hours where dogs must be leashed. We have had to load it the hours that we use the park.

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative - Hilton Park will strive for continual improvement by adapting and responding to innovation.Efficient management - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.Supporting community leaders - Hilton Park will enable and empower community and sporting leaders.Lead by example - Hilton Park will lead by example, promoting and striving for best practice outcomes.What might this look like? Potential Place Actions include:Prepare a parking strategy for Hilton Park considering sports club usageDesign multifunctional parking areas where applicableModernise buildings with renewables like energy, LED lighting and green technologyExplore public electric vehicle charging stationsEstablish quarterly meetings for site-wide collaborationProvide volunteer and leadership training for club supportDevelop an asset management plan and maintenance scheduleCreate an advocacy strategy for attracting funding covering private, state and federalWhat do you think? What else would you suggest?**

Increase the fenced dog and people exercise areas. It is a great place to safely train puppies into well socialised, healthy and happy dogs.

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 1: SENSE OF HOME
2. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
3. THEME 4: VILLAGE IN A VILLAGE
4. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY
5. THEME 5: A PLACE OF LEADERS

What else would you suggest?**

Spots for coffee vans and food vans. The playground is wonderful but could it be further extended? There are so many children that enjoy it, why not make it larger and add something like a flying fox, more swings, a turntable etc.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?** Potential Place Actions include:**Implement 'Complete Streets' for accessible travel****Establish a water management plan with Water Sensitive Urban Design (WSUD)****Increase tree canopy to 30%****Install fauna support boxes****Place hydration stations strategically****Ensure new buildings aim for green star ratings****Safeguard and enhance existing tree canopy****Use local plants for ecosystem sustainability****Choose sustainable materials****What do you think? Perfect, exactly what I've said in other sections. Could you hold a monthly community event there with food trucks etc that encourages everyone in the community to come down, have a picnic on the lawn and unwind.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

Well lit on an evening is a good idea. Especially during winter when it gets dark earlier.

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? Q3. **Email**

---

Q4. **For the DRAFT VISION we heard:**“Hilton Park is a place for everyone. It is a place of connection where people come together though organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive.” Have we got this right? Share your ideas!

I agree

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME**Through our prior engagement activities we heard a 'Sense of Home':  
**Openhearted** - Hilton Park will be a culturally safe place, where individuals can be their authentic selves.  
**Ritual Experiences** - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'.  
**Inclusive** - Hilton Park will welcome all people, understanding that different people will seek out different experiences.  
**What might this look like?**  
**Potential Place Actions include:**  
Create well-connected walkable paths  
A versatile community gathering space (indoor/outdoor) for all community groups  
Encourage extended stays with different activity options e.g. shaded picnic tables  
Ensure all existing and new buildings have adequate female facilities  
Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc)  
Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park  
Dual name the park  
Explore a gender-inclusive Community Shed  
Design for adaptable future needs  
**What do you think? What else would you suggest?**

I think that's great

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':  
**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.  
**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.  
**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.  
**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?**  
**Potential Place Actions include:**  
Implement 'Complete Streets' for accessible travel  
Establish a water management plan with Water Sensitive Urban Design (WSUD)  
Increase tree canopy to 30%  
Install fauna support boxes  
Place hydration stations strategically  
Ensure new buildings aim for green star ratings  
Safeguard and enhance existing tree canopy  
Use local plants for ecosystem sustainability  
Choose sustainable materials  
**What do you think? What else would you suggest?**

Sounds great!

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focused on Community Connection':Connected - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.Enhances the health of the community - Hilton Park will support and enhance the health of the community as well as the individual.More than Sport - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.Equality - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.What might this look like? Potential Place Actions include:Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildingsWhat do you think? What else would you suggest?

Indoor area were smaller community groups can meet and hold events

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': Safe - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.Good neighbours - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.What might this look like? Potential Place Actions include:Provide dedicated clubrooms for each major sporting clubEstablish a CCTV program for safetyEnsure well-lit key destinations for safety at nightMaintain a consistent material and furniture paletteEstablish a site-wide brand for Hilton Park to ensure the look and feel is cohesiveDevelop a comprehensive and coordinated event planWhat do you think? What else would you suggest?

Sounds great

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':Innovative - Hilton Park will strive for continual improvement by adapting and responding to innovation.Efficient management - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.Supporting community leaders - Hilton Park will enable and empower community and sporting leaders.Lead by example - Hilton Park will lead by example, promoting and striving for best practice outcomes.What might this look like? Potential Place Actions include:Prepare a parking strategy for Hilton Park considering sports club usageDesign multifunctional parking areas where applicableModernise buildings with renewables like energy, LED lighting and green technologyExplore public electric vehicle charging stationsEstablish quarterly meetings for site-wide collaborationProvide volunteer and leadership training for club supportDevelop an asset management plan and maintenance scheduleCreate an advocacy strategy for attracting funding covering private, state and federalWhat do you think? What else would you suggest?

Sounds good to me

What else would you suggest?**

Would love to see a full 18 hole disc golf course created within the area. The extended fremantle area does not have a course like this and I believe it would bring more people to use the park from all over Perth. As a new addition to the disc golf community in the area, I have found everyone I've met through it to be very inclusive and welcoming and have witnessed many people brought into a quickly growing fun sport by my peers. It would be a great use of the external space within the park, similarly as it has been done already at dick Lawrence.

It is a place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!**

the vision for Hilton Park resonates with our Disc Golf community and aligns with our own vision for the park. Disc Golf has proven to be a fantastic avenue for organized sport and active recreation within the park, bringing people together from all walks of life. It's a sport that promotes physical activity, mental well-being, and social interaction. Disc Golf also harmonizes with the natural environment of Hilton Park, as the course often winds through green spaces, trees, and open areas. The expansion of the course and the proposed enhancements, such as dedicated tee-pads and eco-friendly practices, will further strengthen the park's connection to its natural surroundings. Moreover, the Disc Golf community has become an integral part of the park's social fabric, fostering a sense of belonging and community. We believe that by embracing initiatives like Disc Golf and collaborating with other community organizations, Hilton Park can truly become a place where diverse communities thrive. In summary, the vision for Hilton Park aligns with the positive impact that Disc Golf has already had on the park's sense of community and recreational offerings. We are excited to continue working together to make Hilton Park a place where everyone can come together, enjoy organized sports and recreation, and thrive as a community.

 Design for adaptable future needs  
**What do you think? What else would you suggest?**

Hilton Park has truly embraced the concept of a "Sense of Home" through its inclusive and community-driven initiatives. One outstanding example is the thriving Disc Golf scene in the area, which has garnered a strong following, thanks in part to the free-to-play social events organized by [name removed], Co-Owner of Disc Golf Warehouse. These events, held every Wednesday evening from 4:30 p.m., have not only brought the community together but have also contributed to making Hilton Park a culturally safe place where individuals can be their authentic selves. It's worth noting that Disc Golf activities within Hilton Park have been designed with the utmost consideration for the safety and enjoyment of all park users. We have implemented designated right-of-ways to ensure that dog walkers and other visitors can enjoy the park without any risk or inconvenience caused by the Disc Golf play. The Disc Golf community's dedication to the sport has been instrumental in creating a familiar and beloved ritual for the community. Just as Hilton Park aims to embrace meaningful rituals, the Disc Golf gatherings on Wednesday evenings have become a cherished tradition. Additionally, the recent expansion of the Disc Golf course to include nine more challenging holes, utilizing the baskets, has added to the sense of belonging and 'home' that Hilton Park represents. To further enhance the community's experience and foster a stronger sense of home, we propose the installation of nine additional dedicated tee-pads, creating an 18-hole Disc Golf course within Hilton Park. These tee-pads would provide family-friendly conditions for both experienced players and newcomers, aligning perfectly with the park's inclusive vision. In line with the survey's theme of "Sense of Home," we believe that these proposed actions will contribute significantly to Hilton Park's mission. They include:

- Create well-connected walkable paths:** These paths will not only benefit Disc Golf players but also provide accessibility and connectivity for all park visitors, including dog walkers, ensuring a safe and enjoyable experience for everyone.
- A versatile community gathering space (indoor/outdoor) for all community groups:** This space could serve as a central hub for various activities, including Disc Golf events, and bring the community even closer.
- Encourage extended stays with different activity options, e.g., shaded picnic tables:** Picnic areas can be designed strategically near Disc Golf holes, allowing families to enjoy the sport while also providing a comfortable space for relaxation.
- Provide a diverse range of recreational opportunities:** Continue to support and expand upon the existing Disc Golf course, along with other recreational options mentioned in the survey, to cater to different preferences within the community.
- Public art and new buildings integrated into the park with a reference to the Indigenous and colonial heritage of Hilton Park:** Incorporate art and architectural elements that celebrate the park's rich history and cultural significance.
- Dual name of the park:** Consider honouring both Indigenous and colonial heritage by giving the park a dual name, reflecting the diverse cultural history of the area.
- Explore a gender-inclusive Community Shed:** Ensure that community facilities, including the Community Shed, are welcoming and inclusive spaces for everyone.
- Design for adaptable future needs:** As the community evolves, ensure that Hilton Park continues to meet the changing needs and expectations of its residents.

In conclusion, the addition of an 18-hole Disc Golf course with dedicated tee pads, along with the implementation of these proposed actions, will further enrich the sense of home and community at Hilton Park, while also ensuring the safety and inclusivity of all park users, including dog walkers. We encourage continued collaboration and community input to make Hilton Park a place where everyone truly feels at home.

**Q6. DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':**Resilient environment - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.Woven into the fabric of the neighbourhood - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.Knowing what was before - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.Generational - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. What might this look like? Potential Place Actions include:Implement 'Complete Streets' for accessible travelEstablish a water management plan with Water Sensitive Urban Design (WSUD)Increase tree canopy to 30%Install fauna support boxesPlace hydration stations strategicallyEnsure new buildings aim for green star ratingsSafeguard and enhance existing tree canopyUse local plants for ecosystem sustainabilityChoose sustainable materialsWhat do you think? What else would you suggest?**

In response to the question regarding "A Contemporary Park Enriched by Legacy" and the proposed actions for Hilton Park, let's refer back to the previous discussion about Disc Golf and its role in enhancing the park's legacy and contemporary appeal: The concept of a "Contemporary Park Enriched by Legacy" aligns perfectly with the holistic vision we have for Hilton Park, and it dovetails with the initiatives we've been discussing, including the development of Disc Golf within the park. First and foremost, Hilton Park is committed to being a resilient environment that adapts to the changing climate. This commitment extends to our Disc Golf expansion project, where we will ensure that any modifications and installations are environmentally friendly and in harmony with the natural surroundings. In addition to providing a healthier environment for the community, these initiatives will contribute to the long-term sustainability of Hilton Park. The idea of Hilton Park being woven into the fabric of the neighbourhood is exemplified by the sense of community and belonging that Disc Golf fosters. As we expand the Disc Golf course and create family-friendly tee-pads, we are not only preserving the park's legacy but also attracting new generations of community members. Disc Golf is a sport that can be enjoyed by people of all ages, making it a valuable addition to Hilton Park's offerings. Furthermore, Hilton Park's commitment to knowing and respecting its history is mirrored in its efforts to incorporate Indigenous ways of knowing. This respect for heritage extends to our plans for public art and new buildings within the park, where we will integrate references to Indigenous and colonial history. It is our hope that these elements will serve as a bridge between the past and the future, enriching the park's legacy. In terms of specific actions for Hilton Park's legacy and contemporary appeal, we fully endorse the proposed actions, including the implementation of 'Complete Streets' for accessible travel, the establishment of a water management plan with Water Sensitive Urban Design (WSUD), and the increase of tree canopy to 30%. These measures will not only enhance the park's resilience but also contribute to a healthier environment. As for Disc Golf, we suggest exploring partnerships with local environmental organizations to educate players about the importance of preserving the park's natural heritage. Additionally, organizing community cleanup events and tree-planting activities in collaboration with Disc Golf events can further strengthen the connection between the sport and the park's legacy. In conclusion, the Disc Golf community is excited to be a part of Hilton Park's journey towards becoming a contemporary park enriched by legacy. We are committed to aligning our initiatives with the park's broader vision and working collaboratively to ensure Hilton Park remains a vibrant and cherished space for generations to come.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.Enhances the health of the community - Hilton Park will support and enhance the health of the community as well as the individual.More than Sport - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.Equality - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.What might this look like? Potential Place Actions include:Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildingsWhat do you think? What else would you suggest?**

In response to the question about a park focused on community connection and the proposed actions for Hilton Park, let's continue to highlight the role of Disc Golf in promoting community cohesion and inclusivity: The theme of "Focused on Community Connection" resonates deeply with our experiences in the Disc Golf community at Hilton Park. Disc Golf has proven to be a remarkable catalyst for nurturing community connection, fostering relationships, and enhancing the overall health and well-being of both the community and individuals. Connectedness is a core element of Disc Golf, as players of all ages and backgrounds come together to enjoy the sport. It provides a platform for people to interact, socialize, and build lasting bonds. The free-to-play social events organized by [name removed], Co-Owner of Disc Golf Warehouse, have become a cornerstone of community gatherings, strengthening the sense of unity and belonging within Hilton Park. Furthermore, Disc Golf is more than just a sport; it's a recreational activity that aligns perfectly with Hilton Park's goal of offering a diverse range of recreational opportunities. Disc Golf caters to a wide audience, from beginners to seasoned players, making it an inclusive and accessible activity that balances the needs of the community and sporting clubs alike. In terms of equality, Disc Golf has a strong track record of being a sport where everyone has the opportunity to participate, regardless of age, gender, or skill level. It's a sport that welcomes newcomers and provides a supportive environment for learning and improvement. The proposed actions, such as providing diverse recreational options for all and ensuring site accessibility, further reinforce the commitment to equality within Hilton Park. As we consider additional suggestions for promoting community connection, we propose the following: Community Disc Golf Events: Organize regular community Disc Golf events that encourage participation from all age groups and skill levels. These events can serve as a platform for fostering connections and introducing new people to the sport. Youth Disc Golf Programs: Establish youth-focused Disc Golf programs within Hilton Park to engage the younger generation in healthy outdoor activities and strengthen intergenerational connections. Community Disc Golf Tournaments: Host community Disc Golf tournaments that bring together players from diverse backgrounds and foster a spirit of friendly competition and camaraderie. Community Disc Golf Workshops: Offer educational workshops and clinics to teach the fundamentals of Disc Golf and promote skill development, ensuring that everyone has the opportunity to improve their game. In conclusion, Disc Golf continues to play a pivotal role in Hilton Park's journey toward becoming a park focused on community connection. We are committed to working collaboratively with the broader community to ensure that Hilton Park remains a place where relationships are nurtured, health is enhanced, and equality is upheld through the diverse range of recreational opportunities it offers.

---

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': Safe - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.Good neighbours - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.What might this look like? Potential Place Actions include:Provide dedicated clubrooms for each major sporting clubEstablish a CCTV program for safetyEnsure well-lit key destinations for safety at nightMaintain a consistent material and furniture paletteEstablish a site-wide brand for Hilton Park to ensure the look and feel is cohesiveDevelop a comprehensive and coordinated event planWhat do you think? What else would you suggest?

In connection with the previous responses and the theme of "Village in a Village," we can continue to explore how Disc Golf contributes to creating a safe and collaborative environment within Hilton Park: Disc Golf, as a growing and inclusive community within Hilton Park, plays a crucial role in bringing the concept of a "Village in a Village" to life. The sport has not only fostered a sense of community and inclusivity but also contributes significantly to safety and collaboration within the park. Safe and Inclusive Space: Disc Golf events and gatherings organized by [name removed], Co-Owner of Disc Golf Warehouse, have established Hilton Park as a safe space where individuals from all walks of life can participate without fear. The sport's welcoming and inclusive nature ensures that everyone, regardless of gender, ethnicity, or ability, can enjoy the park's amenities with confidence. Collaboration and Sharing: The Disc Golf community operates as a microcosm within Hilton Park, embodying the spirit of a village within a village. Players often collaborate on course improvements, organize cleanup initiatives, and share resources to maintain and enhance the Disc Golf experience. This sense of collaboration extends to other park users, as well, as promoting a thriving environment for all. Well-Lit and Safe Environments: Disc Golf courses within Hilton Park are designed with safety in mind. Well-lit key destinations, especially around Disc Golf tees and baskets, ensure that the sport can be enjoyed safely even during nighttime hours. This commitment to safety aligns with the broader goal of making Hilton Park a secure place for all. To further enhance the concept of a "Village in a Village" and ensure the safety and collaboration within Hilton Park, we propose the following additional suggestions: Community Safety Initiatives: Collaborate with local law enforcement and community organizations to implement community safety programs, ensuring that Hilton Park remains a safe and welcoming environment for all. Collaborative Events: Organize collaborative events that bring together various sporting clubs and community groups within Hilton Park to foster cross-community connections and cooperation. Shared Facilities: Explore opportunities for shared facilities among different park user groups, creating a sense of shared ownership and responsibility for the park's amenities. Community Bulletin Board: Install a community bulletin board within Hilton Park, including a dedicated section for Disc Golf updates and events, to facilitate communication and collaboration among park users. In conclusion, Disc Golf's contribution to Hilton Park goes beyond the sport itself. It exemplifies the principles of safety, inclusivity, and collaboration that are integral to the vision of a "Village in a Village." We remain committed to working hand in hand with the broader community to ensure that Hilton Park continues to thrive as a place where everyone feels safe, welcome, and engaged.

---

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like? Potential Place Actions include:****Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

In the context of Disc Golf and its role within Hilton Park, let's explore how the sport aligns with the theme of "A Place of Leaders" and the proposed actions: Disc Golf has proven to be an innovative and forward-thinking addition to Hilton Park, embracing the principles of continual improvement and adaptability. The sport's rapid growth within the park, thanks to the efforts of [name removed], Co-Owner of Disc Golf Warehouse, exemplifies this commitment to innovation. Innovation in Disc Golf Courses: The expansion of the Disc Golf course with an additional nine holes of greater difficulty showcases Hilton Park's dedication to providing cutting-edge recreational opportunities. The use of modern technologies and equipment, such as energy-efficient LED lighting for night play, demonstrates a commitment to sustainable practices and innovation within the sport. Efficient Management: The Disc Golf community has been actively involved in sustainably managing its portion of Hilton Park. Efforts have been made to optimize resources and promote efficient usage of the course, ensuring that it remains a valuable asset to the broader park. Supporting Community Leaders: [name removed] and other community leaders within the Disc Golf community have played a pivotal role in promoting and growing the sport at Hilton Park. Their leadership has enabled more people to access and enjoy Disc Golf, aligning perfectly with Hilton Park's goal of empowering community and sporting leaders. Leading by Example: Disc Golf's commitment to sustainable practices, including using renewable energy and green technology, serves as a model for other sporting clubs within Hilton Park. The sport's emphasis on inclusivity and community engagement sets a high standard for best practices within the park. In line with the theme of "A Place of Leaders" and the proposed actions, we suggest the following additional initiatives: Collaborative Resource Sharing: Encourage collaboration among sporting clubs within Hilton Park to share resources and knowledge, creating a collective effort to optimize efficiencies and manage resources effectively. Community Leadership Workshops: Organize leadership and volunteer training programs that benefit all sporting clubs within Hilton Park, fostering a culture of leadership and community engagement. Sustainability Education: Promote sustainability education and practices not only within Disc Golf but also among all sporting clubs, encouraging the use of renewables, energy-efficient technologies, and green initiatives. Grant and Funding Support: Collaborate on the development of an advocacy strategy for attracting funding from private, state, and federal sources, benefiting all sporting clubs and enhancing the park's infrastructure. In conclusion, Disc Golf serves as a dynamic and innovative leader within Hilton Park, embodying the principles of adaptability, sustainability, and community engagement. We remain committed to working together with other sporting clubs and community leaders to ensure Hilton Park continues to be a place of leaders, where innovation, efficiency, and empowerment thrive.

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
2. THEME 4: VILLAGE IN A VILLAGE
3. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY
4. THEME 1: SENSE OF HOME
5. THEME 5: A PLACE OF LEADERS

Q3. **Email**

---

Q4. **For the DRAFT VISION we heard:**“Hilton Park is a place for everyone. It is a place of connection where people come together though organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive.” Have we got this right? Share your ideas!

Yes, it sounds spot on!

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME**Through our prior engagement activities we heard a 'Sense of Home':  
**Openhearted** - Hilton Park will be a culturally safe place, where individuals can be their authentic selves.  
**Ritual Experiences** - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'.  
**Inclusive** - Hilton Park will welcome all people, understanding that different people will seek out different experiences.  
**What might this look like?** Potential Place Actions include:  
Create well-connected walkable paths  
A versatile community gathering space (indoor/outdoor) for all community groups  
Encourage extended stays with different activity options e.g. shaded picnic tables  
Ensure all existing and new buildings have adequate female facilities  
Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc)  
Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park  
Dual name the park  
Explore a gender-inclusive Community Shed  
Design for adaptable future needs  
**What do you think? What else would you suggest?**

It all sounds great, but it would be fantastic for the disc golf course to go to 18 holes.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':  
**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.  
**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.  
**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.  
**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?**  
Potential Place Actions include:  
Implement 'Complete Streets' for accessible travel  
Establish a water management plan with Water Sensitive Urban Design (WSUD)  
Increase tree canopy to 30%  
Install fauna support boxes  
Place hydration stations strategically  
Ensure new buildings aim for green star ratings  
Safeguard and enhance existing tree canopy  
Use local plants for ecosystem sustainability  
Choose sustainable materials  
**What do you think? What else would you suggest?**

Great plan! Disc golf is a green sport and will fit well within this concept.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.**What might this look like?** Potential Place Actions include:**Provide diverse recreational options for all (including all ages)****Incorporate natural slopes and trees for natural playspaces****Explore a permanent café or food van setup****Prioritise site accessibility****Welcome pets with pet hydration and waste stations****Ensure ample female facilities in all buildings****What do you think? What else would you suggest?**

Sounds fantastic. More shade scattered throughout the reserve from more tree cover would be welcome.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

Cctv sounds great.

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

Sounds great.

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
2. THEME 1: SENSE OF HOME
3. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY

Q4. **For the DRAFT VISION we heard: "Hilton Park is a place for everyone. It is a place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!**

Community organisations is good. Dick Lawrence is the heart of the Fremantle Disc Golf community and one of the most popular social / community disc golf groups in WA and popular with all skill levels.

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME** Through our prior engagement activities we heard a 'Sense of Home': Openhearted - Hilton Park will be a culturally safe place, where individuals can be their authentic selves. Ritual Experiences - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'. Inclusive - Hilton Park will welcome all people, understanding that different people will seek out different experiences. What might this look like? Potential Place Actions include: Create well-connected walkable paths A versatile community gathering space (indoor/outdoor) for all community groups Encourage extended stays with different activity options e.g. shaded picnic tables Ensure all existing and new buildings have adequate female facilities Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc) Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park Dual name the park Explore a gender-inclusive Community Shed Design for adaptable future needs What do you think? What else would you suggest?

Additional shaded tables as well as maintaining some of the natural vegetation and features would be good for families. Increasing the disc golf course to 18 holes would be fantastic, even if this is kept to the current number of baskets and additional teepads are added.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY** Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy': Resilient environment - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate. Woven into the fabric of the neighbourhood - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb. Knowing what was before - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future. Generational - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. What might this look like? Potential Place Actions include: Implement 'Complete Streets' for accessible travel Establish a water management plan with Water Sensitive Urban Design (WSUD) Increase tree canopy to 30% Install fauna support boxes Place hydration stations strategically Ensure new buildings aim for green star ratings Safeguard and enhance existing tree canopy Use local plants for ecosystem sustainability Choose sustainable materials What do you think? What else would you suggest?

More tree canopy and additional space for disc golf (which can use the space under the trees canopy) would be nice. Agree with local plants and trying to be as sustainable as possible.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.****Enhances the health of the community - Hilton Park will support and enhance the health of the community as well as the individual.****More than Sport - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.****Equality - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.****What might this look like? Potential Place Actions include:**Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildings**What do you think? What else would you suggest?**

I enjoy taking my dogs around the disc golf area while playing though do get nervous about proximity to traffic on Carrington road. I think some pet stations are welcome though note some facilities are still there

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.****Good neighbours - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.****What might this look like? Potential Place Actions include:**Provide dedicated clubrooms for each major sporting clubEstablish a CCTV program for safetyEnsure well-lit key destinations for safety at nightMaintain a consistent material and furniture paletteEstablish a site-wide brand for Hilton Park to ensure the look and feel is cohesiveDevelop a comprehensive and coordinated event plan**What do you think? What else would you suggest?**

Clubrooms for each of the field type should be sufficient. For example, cricket and AFL should share rooms. Soccer fields have clubrooms. The community hall is good feature but I haven't used it

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative - Hilton Park will strive for continual improvement by adapting and responding to innovation.****Efficient management - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.****Supporting community leaders - Hilton Park will enable and empower community and sporting leaders.****Lead by example - Hilton Park will lead by example, promoting and striving for best practice outcomes.****What might this look like? Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usageDesign multifunctional parking areas where applicableModernise buildings with renewables like energy, LED lighting and green technologyExplore public electric vehicle charging stationsEstablish quarterly meetings for site-wide collaborationProvide volunteer and leadership training for club supportDevelop an asset management plan and maintenance scheduleCreate an advocacy strategy for attracting funding covering private, state and federal**What do you think? What else would you suggest?**

Parking can be difficult when there is a lot of soccer on however this is only on game day. I'd suggest modernising but would not like to see park area sacrificed for more parking

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 1: SENSE OF HOME
2. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
3. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY

What else would you suggest?**

I would love to see an additional 9 tee pads added to the disc golf course. The course is fantastic as it is, however it is beginner difficulty, thus the extra 9 would add a level of challenge and appeal to the course that would encouraged myself and many others looking to improve their skills to play there.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?** **Potential Place Actions include:**Implement 'Complete Streets' for accessible travelEstablish a water management plan with Water Sensitive Urban Design (WSUD)Increase tree canopy to 30%Install fauna support boxesPlace hydration stations strategicallyEnsure new buildings aim for green star ratingsSafeguard and enhance existing tree canopyUse local plants for ecosystem sustainabilityChoose sustainable materials**What do you think? Q4. For the DRAFT VISION we heard: "Hilton Park is a place for everyone. It is a place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!

Yes it's well used.

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME** Through our prior engagement activities we heard a 'Sense of Home': Openhearted - Hilton Park will be a culturally safe place, where individuals can be their authentic selves. Ritual Experiences - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'. Inclusive - Hilton Park will welcome all people, understanding that different people will seek out different experiences. What might this look like? Potential Place Actions include: Create well-connected walkable paths A versatile community gathering space (indoor/outdoor) for all community groups Encourage extended stays with different activity options e.g. shaded picnic tables Ensure all existing and new buildings have adequate female facilities Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc) Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park Dual name the park Explore a gender-inclusive Community Shed Design for adaptable future needs What do you think? What else would you suggest?

This sounds like a political agenda not a park

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY** Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy': Resilient environment - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate. Woven into the fabric of the neighbourhood - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb. Knowing what was before - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future. Generational - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. What might this look like? Potential Place Actions include: Implement 'Complete Streets' for accessible travel Establish a water management plan with Water Sensitive Urban Design (WSUD) Increase tree canopy to 30% Install fauna support boxes Place hydration stations strategically Ensure new buildings aim for green star ratings Safeguard and enhance existing tree canopy Use local plants for ecosystem sustainability Choose sustainable materials What do you think? What else would you suggest?

Sounds nice if it could teach people about being water wise or have a mini (native) botanical garden

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.**What might this look like?** Potential Place Actions include:**Provide diverse recreational options for all (including all ages)****Incorporate natural slopes and trees for natural playspaces****Explore a permanent café or food van setup****Prioritise site accessibility****Welcome pets with pet hydration and waste stations****Ensure ample female facilities in all buildings****What do you think? What else would you suggest?**

Sounds great. But I would add; Australia is very behind Europe, UK, USA with callisthenics parks. The weather is good nearly all year and everyone goes to air conditioned gyms instead of training outside in the air and sunlight. The machines that councils put in are never used, and don't hold much benefit. A better idea would be to put in parallel bars at different heights for pullups, dips, monkey bars, hanging gymnastic rings etc.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village':**Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

It's not a dangerous place.

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

Sounds like a car park not a person park

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
2. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY

Q4. For the DRAFT VISION we heard: "Hilton Park is a place for everyone. It is a place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!

'Hilton Park is a place where communities thrive.' This is super cheesy. What does it actually mean in reality?

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME** Through our prior engagement activities we heard a 'Sense of Home': Openhearted - Hilton Park will be a culturally safe place, where individuals can be their authentic selves. Ritual Experiences - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'. Inclusive - Hilton Park will welcome all people, understanding that different people will seek out different experiences. What might this look like? Potential Place Actions include: Create well-connected walkable paths A versatile community gathering space (indoor/outdoor) for all community groups Encourage extended stays with different activity options e.g. shaded picnic tables Ensure all existing and new buildings have adequate female facilities Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc) Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park Dual name the park Explore a gender-inclusive Community Shed Design for adaptable future needs What do you think? What else would you suggest?

Properly fence in Ken Allen Oval for dog safety. Consider some fencing for the Dick Lawrence oval. I've personally seen 2 dogs run onto Lefroy Road in the last 18 months and be killed.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY** Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy': Resilient environment - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate. Woven into the fabric of the neighbourhood - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb. Knowing what was before - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future. Generational - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. What might this look like? Potential Place Actions include: Implement 'Complete Streets' for accessible travel Establish a water management plan with Water Sensitive Urban Design (WSUD) Increase tree canopy to 30% Install fauna support boxes Place hydration stations strategically Ensure new buildings aim for green star ratings Safeguard and enhance existing tree canopy Use local plants for ecosystem sustainability Choose sustainable materials What do you think? What else would you suggest?

More hydration stations for dogs are definitely needed.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.**What might this look like?** Potential Place Actions include:**Provide diverse recreational options for all (including all ages)****Incorporate natural slopes and trees for natural playspaces****Explore a permanent café or food van setup****Prioritise site accessibility****Welcome pets with pet hydration and waste stations****Ensure ample female facilities in all buildings****What do you think? What else would you suggest?**

Ensure dog facilities and their owners needs are factored into all plans. Many people with dogs see the same people walking their dogs at the same time so become friends. There are often no dog poo bags available.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

Community events and activities (non sport) would be great. Outdoor movie nights?

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

Nothing to add

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

It is a place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!**

Fremantle Table Club was based at Hilton Bowling club for several years in the early 2000's. Outgrowing their dance hall that we played TT in and not wanting to leave Fremantle where we have been since 1933, and where there is a need for this indoor sport we went to Samson Recreation centre where we are now located. The bowling club was an excellent location. We could play TT, go and use the bar and lounge, and join in social events. I am still a social member there. Fremantle TT would like to get back to that spot and we have a unanimous vote from the committee of the bowling club to come back. So there are many benefits to the City and the adjoining sports clubs to include Fremantle TT in the master plan. We can't advertise for all we would provide for the want of more venue playing time. A TT venue purpose built would be used every day of the week. catering for all ages, all abilities, schools, disabled, and multicultural participants. No noise, low costs, available 24/7, and no impact on the environment.

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME** Through our prior engagement activities we heard a 'Sense of Home': Openhearted - Hilton Park will be a culturally safe place, where individuals can be their authentic selves. Ritual Experiences - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'. Inclusive - Hilton Park will welcome all people, understanding that different people will seek out different experiences. What might this look like? Potential Place Actions include: Create well-connected walkable paths A versatile community gathering space (indoor/outdoor) for all community groups Encourage extended stays with different activity options e.g. shaded picnic tables Ensure all existing and new buildings have adequate female facilities Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc) Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park Dual name the park Explore a gender-inclusive Community Shed Design for adaptable future needs What do you think? What else would you suggest?

Indoor all weather facility Incorporating the Fremantle table Tennis Club, with other low impact use for Tai Chi, Yoga, martial arts etc.. This could all come under the TT club management. A cafe and bar with the bowling club operating and open for lunches and meals with drinks.

**Q6. DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. What else would you suggest?

All buildings to have water catchment and storage.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.What might this look like? **Potential Place Actions include:**Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildingsWhat do you think? What else would you suggest?

Health and participation is good. A bad example is the way major sports ovals are designed and used with room for 80,000 to sit and eat and drink watching 40 or less athletes participate. Don't like food vans

---

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.What might this look like? **Potential Place Actions include:**Provide dedicated clubrooms for each major sporting clubEstablish a CCTV program for safetyEnsure well-lit key destinations for safety at nightMaintain a consistent material and furniture paletteEstablish a site-wide brand for Hilton Park to ensure the look and feel is cohesiveDevelop a comprehensive and coordinated event planWhat do you think? What else would you suggest?

Design a common logo to be used by all clubs. So it can be worn and recognised anywhere. Dedicated clubrooms for each sporting club to be kept to only what's necessary. For instance only basic snacks and drinks, small area for sitting. A decent lounge, bar, and TV viewing area to be used by all clubs

---

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

Combined management for the whole area and sporting clubs.

---

Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!**

The main focus should be on organised sports (club environment). Additional sports (table tennis, tennis) with a high participation rate should find a home at Hilton Park with access to high quality facilities. Hilton Park should take full advantage of potential synergies arising from additional sports and expected increases in participation numbers (e.g. the number of female soccer players is expected to rise dramatically after the success of the Women's World Cup). The number of facilities to be shared by all sports clubs (change rooms, restaurant, bar facilities) should be maximised. Mergers of sport clubs using Hilton Park (alternative: multi-membership offers) should be strongly encouraged and incentivised. Unfortunately, the use of outdoor areas for sport as well as go walking is not compatible. Despite best intentions, significant health and injury risks remain. Alternative areas for dog walkers need to be found.

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME** Through our prior engagement activities we heard a 'Sense of Home': Openhearted - Hilton Park will be a culturally safe place, where individuals can be their authentic selves. Ritual Experiences - Hilton Park will embrace the beloved and meaningful rituals of the community. What else would you suggest?

All ok but focus needs to be on the quality of the sport facilities, in particular the soccer pitches throughout the year. One artificial grass pitch should be considered. At least one large and high-quality indoor facility for indoor sports (table tennis, basketball, martial arts) is an absolute must.

---

**Q7. DRAFT PLACE THEME 3: FOCUSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focused on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.What might this look like? **Potential Place Actions include:**Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildingsWhat do you think? Q3. **Email**

---

Q4. **For the DRAFT VISION we heard:**“Hilton Park is a place for everyone. It is a place of connection where people come together though organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive.” Have we got this right? Share your ideas!

Looks good

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME**Through our prior engagement activities we heard a 'Sense of Home':  
**Openhearted** - Hilton Park will be a culturally safe place, where individuals can be their authentic selves.  
**Ritual Experiences** - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'.  
**Inclusive** - Hilton Park will welcome all people, understanding that different people will seek out different experiences.  
**What might this look like?** Potential Place Actions include:  
Create well-connected walkable paths  
A versatile community gathering space (indoor/outdoor) for all community groups  
Encourage extended stays with different activity options e.g. shaded picnic tables  
Ensure all existing and new buildings have adequate female facilities  
Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc)  
Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park  
Dual name the park  
Explore a gender-inclusive Community Shed  
Design for adaptable future needs  
**What do you think? What else would you suggest?**

Needs to include other sports that can cater for all ages playing together, e.g table tennis.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':  
**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.  
**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.  
**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.  
**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?**  
Potential Place Actions include:  
Implement 'Complete Streets' for accessible travel  
Establish a water management plan with Water Sensitive Urban Design (WSUD)  
Increase tree canopy to 30%  
Install fauna support boxes  
Place hydration stations strategically  
Ensure new buildings aim for green star ratings  
Safeguard and enhance existing tree canopy  
Use local plants for ecosystem sustainability  
Choose sustainable materials  
**What do you think? What else would you suggest?**

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.**What might this look like?** Potential Place Actions include:**Provide diverse recreational options for all (including all ages)****Incorporate natural slopes and trees for natural playspaces****Explore a permanent café or food van setup****Prioritise site accessibility****Welcome pets with pet hydration and waste stations****Ensure ample female facilities in all buildings****What do you think? What else would you suggest?**

Explore sports that reflect multicultural and intergenerational interests, e.g table tennis and bocci.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

Consider needs of non major sporting clubs. Adequate lighting

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

Ok

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
2. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY
3. THEME 1: SENSE OF HOME
4. THEME 4: VILLAGE IN A VILLAGE
5. THEME 5: A PLACE OF LEADERS

Great ideas! Please include Table Tennis in your plan.

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME**Through our prior engagement activities we heard a 'Sense of Home':  
**Openhearted** - Hilton Park will be a culturally safe place, where individuals can be their authentic selves.  
**Ritual Experiences** - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'.  
**Inclusive** - Hilton Park will welcome all people, understanding that different people will seek out different experiences.  
**What might this look like?** Potential Place Actions include:  
Create well-connected walkable paths  
A versatile community gathering space (indoor/outdoor) for all community groups  
Encourage extended stays with different activity options e.g. shaded picnic tables  
Ensure all existing and new buildings have adequate female facilities  
Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc)  
Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park  
Dual name the park  
Explore a gender-inclusive Community Shed  
Design for adaptable future needs  
**What do you think? What else would you suggest?**

Please include table tennis which is a versatile indoor sport which can be enjoyed people of all ages in the community.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':  
**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.  
**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.  
**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.  
**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?**  
Potential Place Actions include:  
Implement 'Complete Streets' for accessible travel  
Establish a water management plan with Water Sensitive Urban Design (WSUD)  
Increase tree canopy to 30%  
Install fauna support boxes  
Place hydration stations strategically  
Ensure new buildings aim for green star ratings  
Safeguard and enhance existing tree canopy  
Use local plants for ecosystem sustainability  
Choose sustainable materials  
**What do you think? What else would you suggest?**

Plenty of parking spaces.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.**What might this look like?** Potential Place Actions include:**Provide diverse recreational options for all (including all ages)****Incorporate natural slopes and trees for natural playspaces****Explore a permanent café or food van setup****Prioritise site accessibility****Welcome pets with pet hydration and waste stations****Ensure ample female facilities in all buildings****What do you think? What else would you suggest?**

A Table Tennis club opened 24 hours and 7 days a week, where people can enjoy playing table tennis in air-conditioned room with table tennis tables all set up and ready to be used at all times. After the game, people can enjoy drinks and light snacks nearby.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village':**Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? Q4. **For the DRAFT VISION we heard: "Hilton Park is a place for everyone. It is a place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive." Have we got this right? Share your ideas!**

Yes

---

Q5. **DRAFT PLACE THEME 1: SENSE OF HOME** Through our prior engagement activities we heard a 'Sense of Home':  
**Openhearted** - Hilton Park will be a culturally safe place, where individuals can be their authentic selves.  
**Ritual Experiences** - Hilton Park will embrace the beloved and meaningful rituals of the community. From walking the same path, to playing sport every Saturday morning, the familiarity of Hilton Park will create a sense of belonging and 'home'.  
**Inclusive** - Hilton Park will welcome all people, understanding that different people will seek out different experiences.  
**What might this look like? Potential Place Actions include:**  
Create well-connected walkable paths  
A versatile community gathering space (indoor/outdoor) for all community groups  
Encourage extended stays with different activity options e.g. shaded picnic tables  
Ensure all existing and new buildings have adequate female facilities  
Provide a diverse range of recreational opportunities both formal and informal (including Soccer, Australian Rules Football, Cricket, Lawn Bowls, Community Shed, Disc Golf, Skateboarding, Multi ball sports court, fitness loops and path networks etc)  
Public art and new buildings integrated into the park with a reference to Indigenous and colonial heritage of Hilton Park  
Dual name the park  
Explore a gender-inclusive Community Shed  
Design for adaptable future needs  
**What do you think? What else would you suggest?**

I think there is an opportunity to increase the diversity of recreational activities available at Hilton Park to include sports that are not already well catered for in the area. There are many Bowls, cricket, Aussie rules facilities in the area already. The local Table Tennis club has been trying to find a permanent home in the area including at this location but there is no reference to this in your examples. There is a lot of research about the benefits for older adults of playing Table Tennis and I think there is a great opportunity for the Council to lead in supporting the development of a facility where this can be offered. It is also a game that anyone can play and is therefore great for families and those with disabilities. There are modern variations to table tennis e.g. crossnet which could be included to attract younger players. Adaptable future needs will be an important design component.

---

**Q6. DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. What might this look like? **Potential Place Actions include:**Implement 'Complete Streets' for accessible travelEstablish a water management plan with Water Sensitive Urban Design (WSUD)Increase tree canopy to 30%Install fauna support boxesPlace hydration stations strategicallyEnsure new buildings aim for green star ratingsSafeguard and enhance existing tree canopyUse local plants for ecosystem sustainabilityChoose sustainable materialsWhat do you think? What else would you suggest?

Increasing tree canopy and fauna support boxes are great ideas. Using local plants is important as is the use of sustainable materials. New buildings should aim for green star ratings and include solar panels.

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.What might this look like? **Potential Place Actions include:**Provide diverse recreational options for all (including all ages)Incorporate natural slopes and trees for natural playspacesExplore a permanent café or food van setupPrioritise site accessibilityWelcome pets with pet hydration and waste stationsEnsure ample female facilities in all buildingsWhat do you think? What else would you suggest?

I agree with the provision of diverse recreational options but would like a focus on those not readily available nearby. A permanent cafe would be a welcome addition and provide somewhere for locals that aren't interested in recreational activities with something of benefit. Although I am a pet owner I think pets are already well served locally and do not need to be included in this plan. People don't keep dogs on a lead even when instructed to and this could just lead to something that requires policing by those in charge of the facilities. Female facilities should be included in any new buildings but it is a local facility so I don't think money should be spent on retrospectively converting areas for female changing.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.What might this look like? **Potential Place Actions include:**Provide dedicated clubrooms for each major sporting clubEstablish a CCTV program for safetyEnsure well-lit key destinations for safety at nightMaintain a consistent material and furniture paletteEstablish a site-wide brand for Hilton Park to ensure the look and feel is cohesiveDevelop a comprehensive and coordinated event planWhat do you think? What else would you suggest?

Yes -all good ideas

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

I like all that but I'd prefer it said 'playing sport every weekend' (rather than Saturday morning as that is more inclusive/relevant to more people.

---

Q6. **DRAFT PLACE THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY**Through our prior engagement activities we heard a 'Contemporary Park Enriched by Legacy':**Resilient environment** - Hilton Park will provide a healthier natural environment for the community to enjoy now and long into the future by responding and adapting to the changing climate.**Woven into the fabric of the neighbourhood** - Hilton Park will be part of the fabric of the suburb, embracing and promoting the principles of a garden suburb.**Knowing what was before** - Hilton Park will be enriched with Indigenous ways of knowing, drawing on the historic ecosystems that existed prior to colonial settlement to strengthen its future.**Generational** - Hilton Park will be a place for all generations, ensuring the legacy of those that have used the park attracts the next generation of community members. **What might this look like?** Potential Place Actions include:**Implement 'Complete Streets' for accessible travel****Establish a water management plan with Water Sensitive Urban Design (WSUD)****Increase tree canopy to 30%****Install fauna support boxes****Place hydration stations strategically****Ensure new buildings aim for green star ratings****Safeguard and enhance existing tree canopy****Use local plants for ecosystem sustainability****Choose sustainable materials****What do you think? What else would you suggest?**

Don't like 'healthier' before natural environment. Why not 'healthy' or just 'natural environment' it sounds a bit too 'wordy'.

---

**Q7. DRAFT PLACE THEME 3: FOCUSSED ON COMMUNITY CONNECTION**Through our prior engagement activities we heard 'Focussed on Community Connection':**Connected** - Hilton Park will support social cohesion, nurturing community connection, connection to place, and relationships.**Enhances the health of the community** - Hilton Park will support and enhance the health of the community as well as the individual.**More than Sport** - Hilton Park will offer a diverse range of recreation opportunities, balancing the needs to the community and sporting clubs.**Equality** - Hilton Park will be a place of equality, where everyone has opportunity to access and participate in recreation.**What might this look like?** Potential Place Actions include:**Provide diverse recreational options for all (including all ages)****Incorporate natural slopes and trees for natural playspaces****Explore a permanent café or food van setup****Prioritise site accessibility****Welcome pets with pet hydration and waste stations****Ensure ample female facilities in all buildings****What do you think? What else would you suggest?**

Yes I like that.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

I like these ideas but don't like the words 'village within a village'. The main part I like about this is the dedicated clubrooms. The rest of it sounds a bit sterile. Can we have dedicated clubrooms and a more natural, inclusive community environment?

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

Sounds very practical.

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

What else would you suggest?**

Female facilities might include unisex toilets that all sexes can utilise Consider a Sports Club that includes a cafe rather than a standalone cafe or food truck.

**Q8. DRAFT PLACE THEME 4: VILLAGE IN A VILLAGE**Through our prior engagement activities we heard a 'Village in a Village': **Safe** - Hilton Park will be a safe place, allowing the community to use its amenities without fear, regardless of their gender, ethnicity, ability, or time of day.**Good neighbours** - Hilton Park will operate as a village, with a series of smaller neighbourhoods within it. Neighbourhoods will support one another, sharing and collaborating where they can, ensuring a thriving future.**What might this look like?** Potential Place Actions include:**Provide dedicated clubrooms for each major sporting club****Establish a CCTV program for safety****Ensure well-lit key destinations for safety at night****Maintain a consistent material and furniture palette****Establish a site-wide brand for Hilton Park to ensure the look and feel is cohesive****Develop a comprehensive and coordinated event plan****What do you think? What else would you suggest?**

Ensure park is well maintained ongoing in an attempt to ensure it is respected and cared for by users

**Q9. DRAFT PLACE THEME 5: A PLACE OF LEADERS**Through our prior engagement activities we heard a 'A Place of Leaders':**Innovative** - Hilton Park will strive for continual improvement by adapting and responding to innovation.**Efficient management** - Hilton Park will be sustainably managed as a collective, optimising efficiencies and resources.**Supporting community leaders** - Hilton Park will enable and empower community and sporting leaders.**Lead by example** - Hilton Park will lead by example, promoting and striving for best practice outcomes.**What might this look like?** Potential Place Actions include:**Prepare a parking strategy for Hilton Park considering sports club usage****Design multifunctional parking areas where applicable****Modernise buildings with renewables like energy, LED lighting and green technology****Explore public electric vehicle charging stations****Establish quarterly meetings for site-wide collaboration****Provide volunteer and leadership training for club support****Develop an asset management plan and maintenance schedule****Create an advocacy strategy for attracting funding covering private, state and federal****What do you think? What else would you suggest?**

No further comment

**Q10. Please rank the Place Themes with 1 being the most favourable and 5 being the least favourable.**

1. THEME 3: FOCUSSED ON COMMUNITY CONNECTION
2. THEME 1: SENSE OF HOME
3. THEME 4: VILLAGE IN A VILLAGE
4. THEME 5: A PLACE OF LEADERS
5. THEME 2: A CONTEMPORARY PARK ENRICHED BY LEGACY

## SURVEY RESPONSE REPORT

29 April 2015 - 11 March 2024

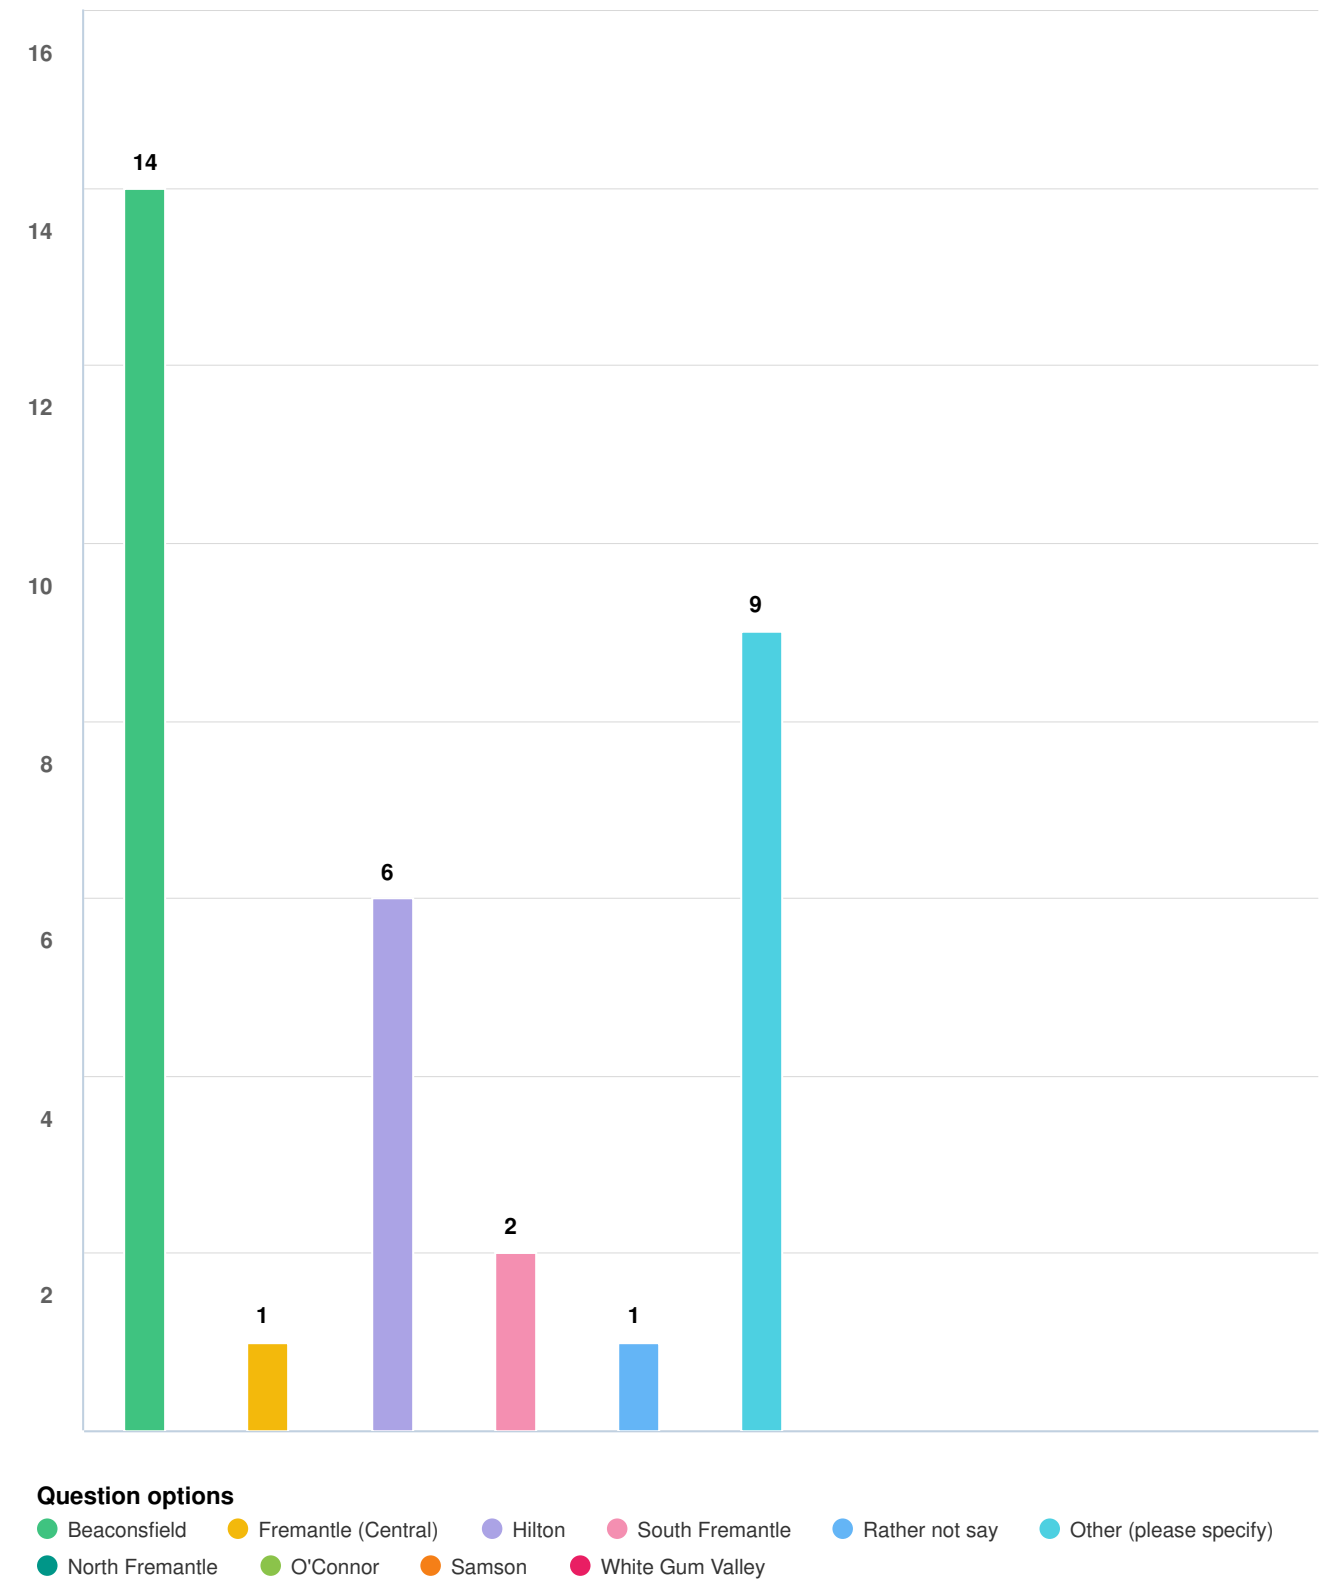

### PROJECT NAME:

Hilton Park Precinct Planning

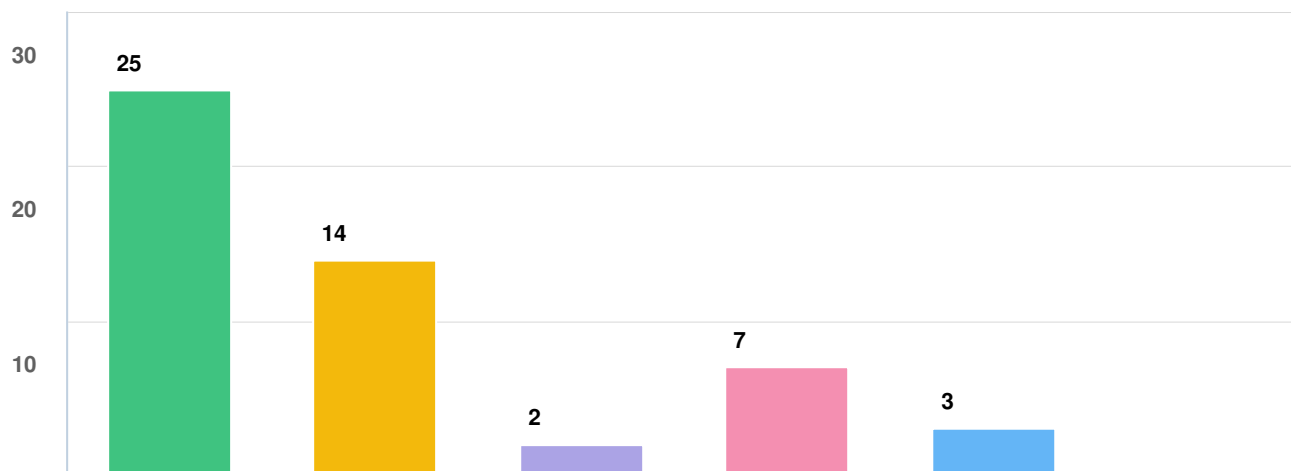

# SURVEY QUESTIONS

Q1 Where do you live?

Mandatory Question (33 response(s))  
Question type: Checkbox Question

**Q2 Please tell us about you. Which of the following do you identify as? Select all that apply.**

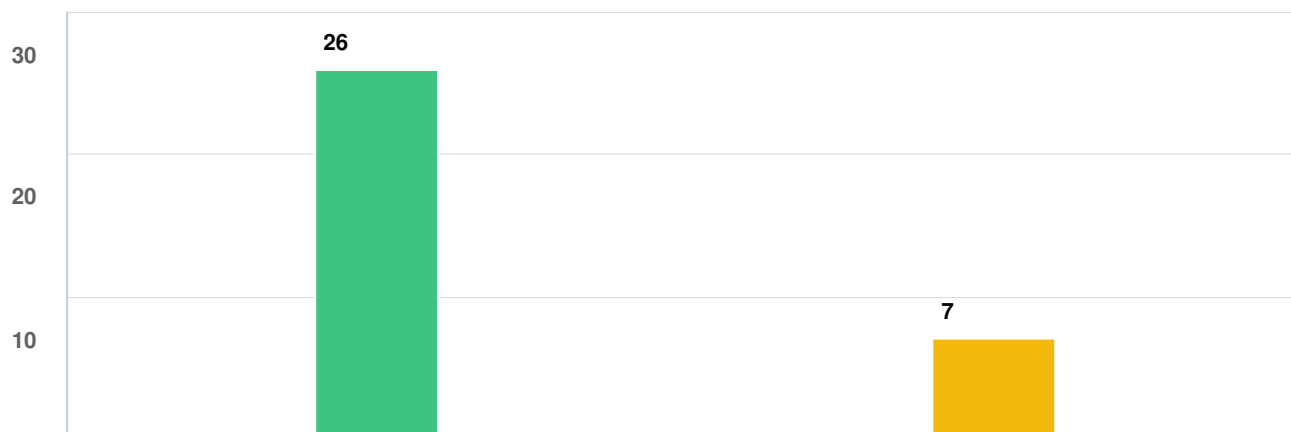

**Question options**

☒ Resident
 ☒ Ratepayer
 ☐ Business Owner
 ☐ Visitor
 ☐ Other (please specify)
 ☐ Rather not say

Mandatory Question (33 response(s))

Question type: Checkbox Question

**Q3 The Place analysis provides a history and context of Hilton Park as it currently stands (page 12-31 of the draft Place Plan...**

**Question options**

☒ No, this accurately reflects the history, personas, and characteristics of Hilton Park.
 ☐ Yes, there is information missing. Can you tell us what's missing?

Mandatory Question (33 response(s))

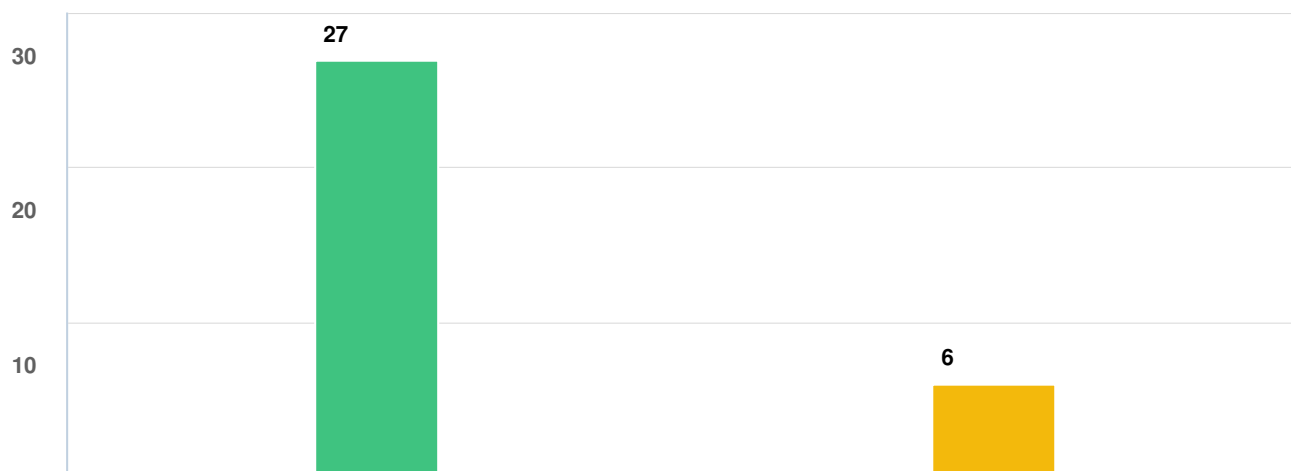

Question type: Checkbox Question

**The Place analysis provides a history and context of Hilton Park as it currently stands (page 12-31 of the draft Place Plan). Have we missed anything important about the site?**

**Yes, there is information missing. Can you tell us what's missing? (please specify)**

|                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A comprehensive plan with regard to the disc golf course that exists here                                                                                                                                                                                                                                                                                                                                                                |
| A reference to providing cultural and geological interpretation of the "pinnacles" in the northeast corner of the park.<br>Also, the intersection of Sheppard and Barfield Streets with Jeffery St creates awkward right-of-way for north-south traffic. Recommend two cross-walks here to draw the flow of foot traffic safely into and out of the park and proposed perimeter path and minimizing risk of person-vehicle interactions. |
| Abstaining from the question was not an option.                                                                                                                                                                                                                                                                                                                                                                                          |
| Alistair McKay pavilion was named after Alistair McKay whose family was a great contributor to the area from his wife Shirley Bickley having her dance studio on paget street hilton for many years and her serving on the Fremantle council for many years. The council approached Alister in 1978 to form a soccer club today that soccer club that he formed has 1200 playing members and over 3000 members of the club               |
| I did not agree with either of these answers so ticked 1 so I could submit my view                                                                                                                                                                                                                                                                                                                                                       |
| I would like more knowledge of the First Nations custodians of this place, but I understand this knowledge was probably lost with colonization. Using Noongar names for some of the fields or buildings would be meaningful for me.                                                                                                                                                                                                      |
| The description is missing the fact that many local community members use the park for off-lead dog walking and socialising. It is a gathering place for many dog owners.                                                                                                                                                                                                                                                                |

**Q4** The draft vision for Hilton Park is;“Hilton Park is a place for everyone! A place of connection where people come together ...

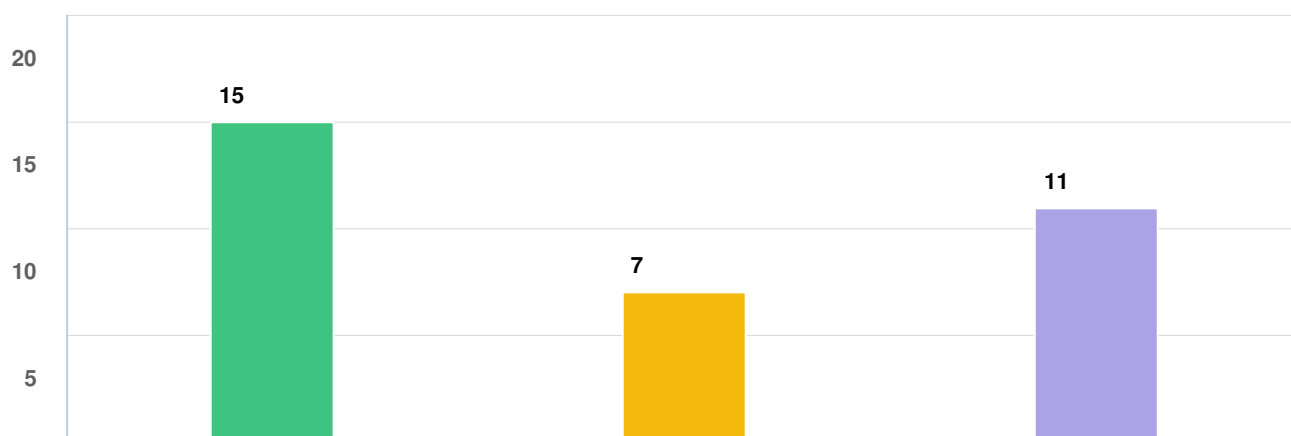

**Question options**

- ☒ Yes, the vision and themes accurately reflect my aspirations for Hilton Park. ☐ No, this is not accurate. Can you tell us why?

**Question options**

- ☒ Yes, the proposed path network meets my needs. ☐ Somewhat meets my needs. ☐ No, the proposed path network does not meet my needs. Can you tell us why?

Mandatory Question (33 response(s))

Question type: Checkbox Question

**The draft vision for Hilton Park is; “Hilton Park is a place for everyone! A place of connection where people come together through organised sport, active and passive recreation, and community organisations. Strengthened by the natural environment, Hilton Park is a place where communities thrive.” Do the draft vision and themes (page 34-37 of the draft Place Plan) accurately reflect the community’s aspirations for the future of Hilton Park?**

**No, this is not accurate. Can you tell us why? (please specify)**

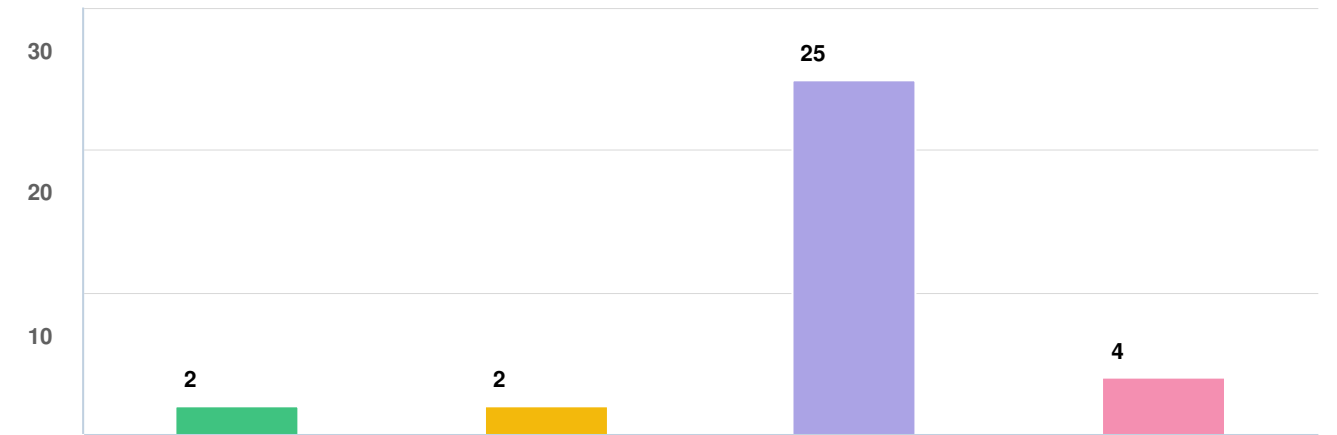

|                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Abstaining from the question was not an option.                                                                                                                                                                                                                                                                                     |
| Have a look at the Fawkner Park in Melbourne for the perfect blend of nature and recreational integration.                                                                                                                                                                                                                          |
| I did not agree with either of these answers so ticked 1 so I could submit my view                                                                                                                                                                                                                                                  |
| The description is missing the fact that many local community members use the park for off-lead dog walking and socialising.                                                                                                                                                                                                        |
| There is not much mention of the disc golf course which provides a great mental health and general health outlet for myself and many locals.                                                                                                                                                                                        |
| While the statement "A place of connection where people come together through organised sport, active and passive recreation" implies that the disc golf course and the growing community around the course seem to be completely left out of the new master plan. I couldn't see any mention of the course which is disappointing. |

**Place Plan Action No. 1 is to create a series of well-connected paths. When translated in the Master Plan this could include a combination of paved shared paths for busy areas such as a whole-of-site circuit, connecting into paved areas surrounding buildings and activity spaces, and meandering gravel paths for less busy areas. The image below shows a series of path networks across the site connecting the various uses that reflect what we have heard so far.**

**No, the proposed path network does not meet my needs. Can you tell us why? (please specify)**

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| The paths going through the two pitches of upper hilton will not work as the soccer club will need as much turf on the pitches for training area and removing these area will reduce the grass area to train on                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| A running track around the perimeter, with distances marked would encourage fitness activity                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| The image is too small to see on this survey page, hence it is difficult to make an assessment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| A perimeter path is less important, the park requires interconnecting internal paths, away from traffic. Safe, quiet pathways allowing a circuit type route within the park as well as connecting areas. Could there be a pathway between the soccer club and men's shed. There needs to be a pathway from the upper soccer field to the bottom one at the southern end of the park - currently there are steps and a fence, that does not appear on the plan so not sure if that will remain/be upgraded? The paths look more suitable for walking than say a bike path for kids. Pathways that traverse car parks are not suitable for children. I'd like to see at least a safe circuit route for kids to ride bikes at the northern end of the park. |
| The path on shepherd street needs to be in the right location to still allow for overflow car parking without covering the path.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| The existing pathway is enough. I would not take away anything from the existing green areas.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Can we have more emphasis on the discgolf course? It is a major reason for my family visiting the park                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| The path looks to run through the disc golf course which could cause some issues                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| The disc golf course is why I visit and whilst disc golf areas can be shared, for safety reasons it may be better for walkers to utilise the current path network with a few additions. This looks like overkill and may disrupt some of the more natural areas of the park.                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Abstaining from the question was not an option.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| As a runner, the inconsistent ground surface (sidewalks vs roots and sand) of the park perimeter is risky and unappealing. The fencing that separates each sporting ground inhibits flow and opportunities for variety and exploring new parts of Hilton Park. I can only run a perimeter loop, and must be conscious of uneven ground, curbs and conflicts with traffic when I choose to run along the access between the oval and bowls club. A second north-south pathway between the east side of the soccer pitches and the toe of the slope formed by Carrington Street would provide a shaded pathway for walkers/runners in the morning. This area is currently uneven and rutted.                                                               |

**Q6** Place Plan Action No. 5 is to create a brand for Hilton Park. This brand will influence the look and feel of the place, the...

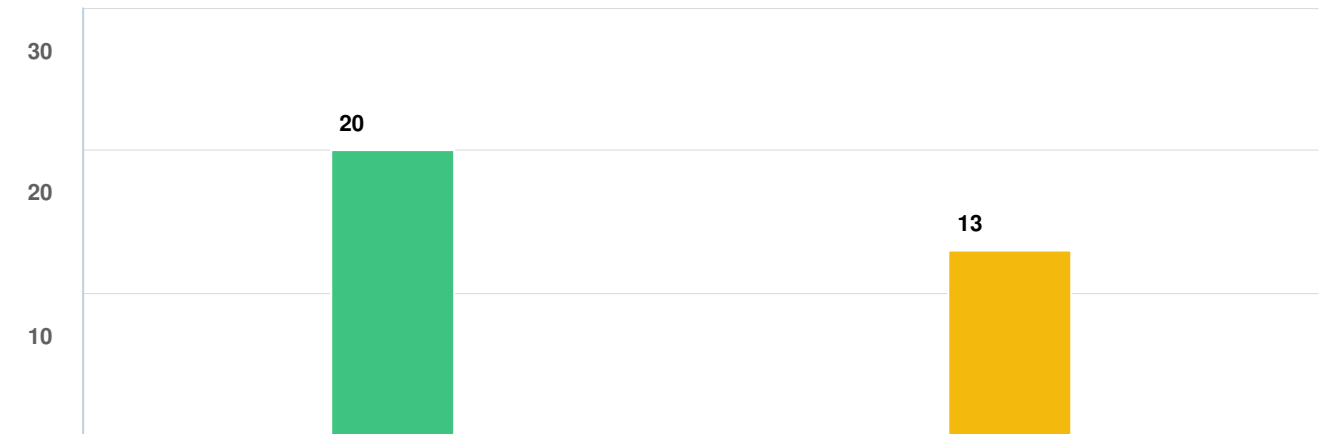

**Question options**

- Brightly coloured and playful.
- Simple with just text and coloured background
- Natural and earthy colours
- Icons and symbols with simple text

Screen Name Redacted

2/05/2024 01:34 PM

I would hate to see a reduction in the availability of playing fields for sports. There has been an uptick in the number of kids joining the soccer club this year, and it would be a shame if any of them struggle to find a space to play. I understand we need more bio-diversity, but I worry about taking away the fields. A version where the fields remain as is, but the in-between spaces are more diverse would be my preference.

Screen Name Redacted

2/06/2024 03:41 AM

Losing grass area means less area for training for the kids that play the sports

Screen Name Redacted

2/06/2024 03:44 PM

Its a difficult one with past comments of how the current fencing makes it difficult to navigate. Greater vegetation/hedges etc would look better/more natural but might increase the sectional feel of the park and may impact peoples feelings of safety.

Screen Name Redacted

2/06/2024 07:35 PM

As long as it does not interfere with sporting areas it sounds like a good idea.

Screen Name Redacted

2/09/2024 02:15 PM

The map is too small to really see properly. I believe it is a good aim to reduce need to irrigation. More trees and shrubs would also improve the layout of the Disc Golf course and make it more interesting to play.

Screen Name Redacted

2/09/2024 06:38 PM

As an avid disc golfer, it's hard to see how significantly denser ground cover doesn't interfere with the course. The course is a thriving place for the sport in WA and it would be a shame to compromise it

Screen Name Redacted

2/12/2024 09:25 PM

Natural habitat that is more thickly planted is more likely to encourage birds, insects and other creatures that currently don't have this option available to them. Biodiversity is crucial to the long term health and well being of all the residents, human and non human alike. Trees and the odd native shrub won't survive in isolation from each other, we need to create a space that is reflective of an ecosystem.

Screen Name Redacted

2/13/2024 08:53 PM

Support more trees and vegetation. The more the better

Screen Name Redacted

2/15/2024 08:31 AM

We need open space to exercise dogs & for the sports that use the grounds

Screen Name Redacted

2/16/2024 02:39 PM

I love seeing a native environment, I am a big fan of native gardens. I would love to see a seating area with shade cover, however just having a path to explore the native flora and fauna would be amazing. Such inspiration in my mind is the walk area they have at South Metro TAFE Murdoch.

Screen Name Redacted

2/16/2024 03:19 PM

Its unclear which photo you are referring to as the proposed plan for re-vegetation, so its hard to comment on what it would look like. I think maximising vegetation and keep the grass to a functional minimum is the best plan.

Screen Name Redacted

2/16/2024 03:30 PM

I think in terms of functionality it is necessary to retain some of the grassed areas. It will also enhance the visual effect of native landscape elements throughout the park.

Screen Name Redacted

2/17/2024 11:02 AM

Introducing low lying vegetation in the areas suggested would impact the primary use of a lot of park users which is the disc golf course. Also a lot of the grassed areas away from the football oval are used by families and dog owners.

Screen Name Redacted

2/18/2024 02:46 PM

We need a much greater number of trees planted in the area and as you have pointed out in the Place Plan, there is far too much costly grass in the park. Please use this opportunity to revegetate for humans and animals. I would also like you to note that the majority of the time the grassed areas are unused. I realise that when they are used it is for important sporting activity, however, I believe better cooperation between clubs and their grass use would lead to better water economics and improved biodiversity for the area.

Screen Name Redacted

2/18/2024 06:46 PM

Better fencing, canopy cover and seating + building modern facilities, changing rooms and toilets to accommodate people using the parks for sport and recreation.

Screen Name Redacted

2/21/2024 10:38 AM

My concern is rubbish and other build up of non native flora - I prefer more than less - if less people will still use it for access.

Screen Name Redacted

2/25/2024 08:21 PM

I think the park still needs grass that isn't the main playing field.

Screen Name Redacted

2/29/2024 06:35 PM

I think open space to run around and play ball in leisure time is important for kids, and for dogs to run free

Screen Name Redacted

3/01/2024 02:23 PM

As long as the new vegetation allowed for the disc golf course to remain usable im happy with increased vegetation

Screen Name Redacted

3/01/2024 03:28 PM

I support any effort to revegetate local parks to reduce the heat islanding effect overall and reduce water consumption

Screen Name Redacted

3/01/2024 07:52 PM

It would be nice to have more treed areas.

Screen Name Redacted

3/01/2024 09:58 PM

Please keep the park as a mainstay for disk golfing. I travel all over for disk golf parks and I dont think traipsing through thickets or walking all over native vegetation would be good for our sport or the park.

Screen Name Redacted

3/03/2024 10:29 AM

Would value increased and diverse bird habitat, and shade, especially along Jeffery Street.

Screen Name Redacted

3/04/2024 09:16 AM

Keep it as natural as possible. Spared use of manufactured turf. Introduction of new activities to be low environmental impact.

Screen Name Redacted

3/04/2024 02:08 PM

priority must be given to allow sufficient grassed areas to cater for active recreation for the existing sporting clubs. There is an acute shortage of grassed areas in the City of Fremantle for active recreation

Screen Name Redacted

3/04/2024 04:11 PM

Would not like to see a reduction in the currently available area for sporting activities. If anything sporting clubs are keen for increased playing fields.

Screen Name Redacted

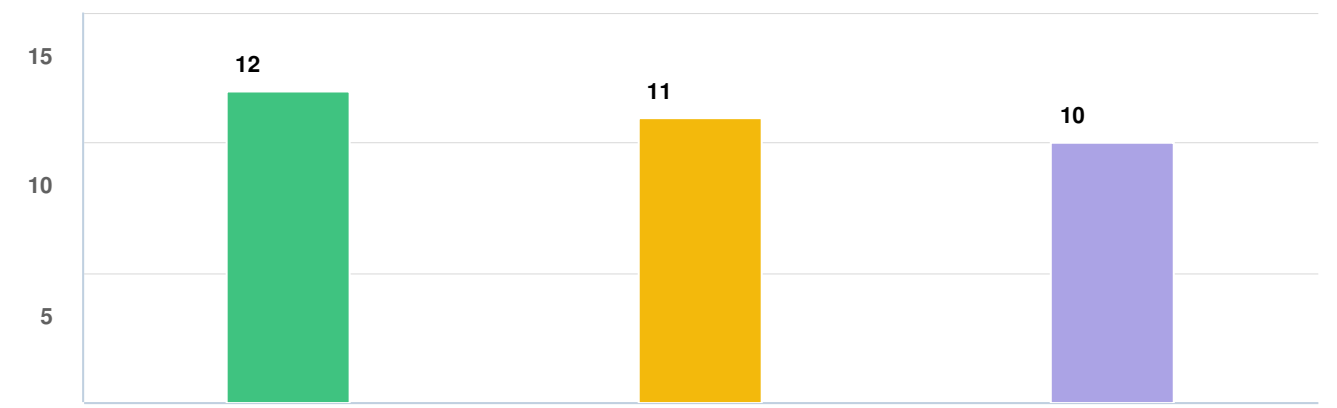

3/04/2024 10:47 PM

Increasing habitat for birds, insects and other wildlife is valuable for our environment and would create opportunities for young people to see and appreciate sustainability measures and their impact on the world around us.

**Question type:** Essay Question

**Q10 | Place Plan Action No. 13 aims to increase tree canopy on site, undertake tree health checks and develop an asset management...**

**Question options**

- ☒ Yes, if the trees are replaced with new plantings elsewhere.
- ☒ Yes, if the trees are replaced with new plantings of mature size elsewhere.
- ☐ No, I do not support the removal of any trees for a new playing field or paths.

*Mandatory Question (33 response(s))*  
*Question type: Checkbox Question*

**Q11 | Can you tell us more about your selection in the last question?**

|                                            |                                                                                                                                                                                                                           |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Screen Name Redacted<br>2/05/2024 01:34 PM | I'd prefer some mature size plantings, amongst smaller trees.                                                                                                                                                             |
| Screen Name Redacted<br>2/06/2024 03:44 PM | Just dont block my sea view from Carrington Street!!                                                                                                                                                                      |
| Screen Name Redacted<br>2/06/2024 07:35 PM | I agree as long as the park still looks like there are trees in all directions wherever you look.                                                                                                                         |
| Screen Name Redacted<br>2/09/2024 02:15 PM | The new playing field appears to impact the existing Disc Golf course - which I and many other people use frequently, and I do not want to see Disc Golf course layout compromised by space taken by a new playing field. |
| Screen Name Redacted<br>2/09/2024 06:38 PM | I fear that playing fields may interfere with the disc golf course. I think more trees are better always but as a representative of the Perth disc golf scene in Fremantle I have to advocate for the survival of the     |

course

Screen Name Redacted

2/12/2024 09:25 PM

There should be no removal of existing trees and nowhere in the place plan is there mention of increasing playing fields so no, I strongly object to the removal of old, established trees that provide roosting and breeding for bird life with saplings that may or may not survive to maturity in about 20 years time.

Screen Name Redacted

2/13/2024 08:53 PM

I can't really answer this without knowing what new playing fields. Why do we need more? Where are they? What trees would be removed. Generally I don't support this is all I can say, on the basis we must not remove mature healthy trees in the interest of the environment, shade comfort and I am against increasing the use of the park for non-inclusive sport. There is more than enough already. But maybe you are talking about some more informal play areas - this is unclear. Paths can go around trees, there is no need to remove a tree because of a path.

Screen Name Redacted

2/15/2024 08:31 AM

As I said. As long as trees are planted elsewhere in the park

Screen Name Redacted

2/16/2024 02:39 PM

I think that mature size is not the main factor, and that the main factor is what the new plantings are. More native plants would be better than mature European plantings.

Screen Name Redacted

2/16/2024 03:19 PM

This was a difficult question to answer, I would prefer if the tree could be replanted somewhere else, that seems like the most sustainable option, and removing and replacing with another tree should be the last resort

Screen Name Redacted

2/16/2024 03:30 PM

Tree planting offsets are necessary and should be a mix of both mature and new plantings

Screen Name Redacted

2/17/2024 11:02 AM

Disc golfers love trees (even if we hit them a lot) and being outside in a tree filled environment is why we play for our mental and physical health. I'd suggest consultation with disc golf community ambassadors (Perth disc golf club) regarding tree placement so that they can become features of the course rather than impacting it.

Screen Name Redacted

2/18/2024 02:46 PM

We must stop cutting down mature trees. Please CoF, understand that new plantings, even of larger trees, are not a replacement for the

benefits of mature trees for at least 10-20 years when the new planting matures. Also, why do we need another oval. Fewer ovals please.

Screen Name Redacted

2/18/2024 06:46 PM

There is nothing wrong with separating some of the open space with trees and seating so long as the fields remain open and of decent size to allow all sports and dog walking. Ie Fawkner Park, South Yarra, Melbourne.

Screen Name Redacted

2/20/2024 08:24 PM

Existing trees form part of an areas character and provide better habitat from day 1.

Screen Name Redacted

2/21/2024 10:38 AM

Keep the tree cover - paths can go around existing trees

Screen Name Redacted

2/25/2024 08:21 PM

You can't increase tree canopy by cutting down mature trees and replacing with small tiny trees

Screen Name Redacted

2/29/2024 06:35 PM

I am worried about the loss of greenery and natural shade

Screen Name Redacted

3/01/2024 02:23 PM

There are some lovely mature trees in the park, Id like to see most of them stay but if a small amount had to be taken out for the greater good id be ok with that.

Screen Name Redacted

3/01/2024 03:28 PM

There needs to be careful consideration at this park as there is a disc golf course on site and tree placement on the course needs careful planning. I am all for more trees at Hilton reserve but placement is crucial.

Screen Name Redacted

3/01/2024 09:58 PM

Perth needs more trees, not fewer.

Screen Name Redacted

3/03/2024 10:29 AM

I do not support the removal of trees for new playing fields. I do support the removal of some trees - particularly existing trees that are currently struggling - for creating natural 'flow' for new pathways.

Screen Name Redacted

3/04/2024 02:08 PM

there exists sufficient space for new plantings without sacrificing playing fields to expand moderately..

Screen Name Redacted

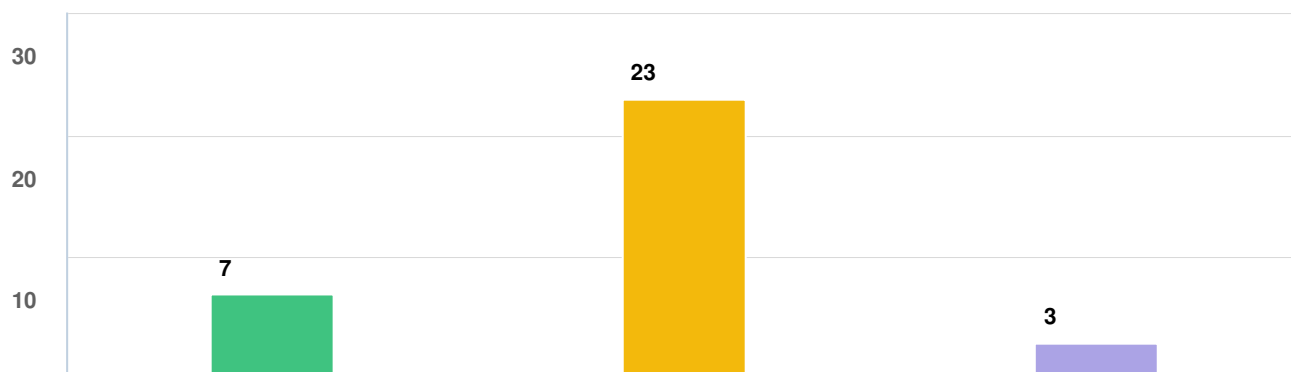

3/04/2024 10:47 PM

I regularly exercise in the park and shade is very important. My preference is for no trees to be removed, but if moving/replacing existing trees improves the accessibility and flow of the park then I support it, as long as shade is prioritised throughout the park.

|                                            |                                                                                                                                                           |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Screen Name Redacted<br>2/05/2024 01:34 PM | Would love a permanent cafe space, with a rentable room for gatherings and events. Open air options near park places, and sporting area's would be great. |
| Screen Name Redacted<br>2/06/2024 03:44 PM | It gets pretty windy in the park which is quite exposed, so an option for indoor for osme events, concenrts etc would be good.                            |
| Screen Name Redacted<br>2/06/2024 07:35 PM | Barbecues would be a good addition if there was a basketball court to play at alongside.                                                                  |
| Screen Name Redacted<br>2/07/2024 02:47 PM | A combination of closed & open spaces makes it more flexible & inclusive                                                                                  |
| Screen Name Redacted<br>2/09/2024 02:15 PM | The existing building should be available and utilised more by the community rather than construct more buildings.                                        |

Screen Name Redacted

2/12/2024 09:25 PM

Both these suggestions have merit and would be greatly welcomed in the community. However, there is also the need to consider existing spaces that can be used such as the fabulous area in the bowling club that is already used by groups for dance class and yoga, this could be revitalised and support given to the volunteers of the club to utilise more widely and efficiently. Also, the Bruce Hardy club room is very rarely used, I live across from the park for about 6 years now and can only remember a small number of occasion, perhaps three of four times, that the inside of the club room has been used for event. Could this be open to booking for the public to use for yoga etc?

Screen Name Redacted

2/13/2024 08:53 PM

It is crazy that with all the club spaces we need another one for community activity, so my preference would be to reuse existing/refurbished club room spaces. If for some reason that can't be done, then a purpose built one for the community should cater for activities like yoga, classes etc. I use the park regularly and rarely see any use of the existing club rooms, apart from the bowling club. Why can't we use those facilities for multipurpose. If the clubs wont share then I would hate to see any additional funding go towards their non-inclusive behaviour. The club rooms represent everything you say the vision is against they are gathering areas for mostly young male sportsmen - as a ratepayer I dont want to fund any of their activities or infrastructure. If you want to see the worst community behaviour try dropping in on one of the soccer matches for their elite teams. This player and spectator behaviour is a disgrace. My son used to play there and I learnt how the junior teams fund the elite teams and the overwhelming drive for the elite male team to win the league. There is nothing community minded there to support. Unfortunately they are at the Center of the park.

Screen Name Redacted

2/15/2024 08:31 AM

There is a desperate need to a performance theatre in Fremantle. And they require adequate facilities and, like sporting clubs, need a 'home'

Screen Name Redacted

2/16/2024 02:39 PM

A combination would be good. Some events like sporting meetings need an enclosed area as it can be quieter, more private and a good spot to get away if there are sensory needs. Exposed buildings like gazebos etc. can be good for like a bbq day, or a casual hang out spot, it'd be a very non-committal location that would be nice to have.

Screen Name Redacted

2/16/2024 03:19 PM

I think a small, discrete community center would be lovely to run community classes and provide a space for young people to hang out. e.g. outdoor chess, table tennis

Screen Name Redacted

2/16/2024 03:30 PM

A combination allows for a variety of activities throughout the whole year

Screen Name Redacted

2/17/2024 11:02 AM

I don't believe additional buildings are required. The current community hall and the football room clubhouses are only sporadically utilised. Additional bbq spaces may be appropriate if position so as not to limit the current sporting activities (disc.golf, football etc)

Screen Name Redacted

2/18/2024 02:46 PM

A large open covered space with facilities would be more accessible to the whole community as it would not require booking, keys etc. It could be an amphitheater space, covered, areas for tables and chairs, BBQ, water availability. Perhaps a store room or some such could be provided for those groups who want to store equipment for use, eg like the disc golf equipment.

Screen Name Redacted

2/18/2024 06:46 PM

There should be no hard base central location. The existing sites for pavilions should be upgraded to at least the 21st century. I do not believe these have been updated since the 1960s or 70s. Any gathering / entertaining can be built around these facilities providing multi functional use.

Screen Name Redacted

2/20/2024 08:24 PM

Open air community gathering spaces which are integrated with surrounding native plantings would be amazing

Screen Name Redacted

2/21/2024 10:38 AM

this is entirely dependant on use - to much cover and facilities access will promote illegal camping increase

Screen Name Redacted

2/25/2024 08:21 PM

I don't want another building close by that is used for late night parties. The bowls club is enough.

Screen Name Redacted

2/29/2024 11:28 AM

I would not reduce any existing green area for more community gathering places. People can gather under trees in the open air. We don't need any more building structures.

Screen Name Redacted

2/29/2024 06:35 PM

Thr Hub in Hami Hill is vibrant and amazing but Hilton/Beacy should have one too

Screen Name Redacted

3/01/2024 02:23 PM

Would be great for our community group to be able to meet after an event or even hold meetings. Both indoor and outdoor would be appropriate

Screen Name Redacted

3/01/2024 09:58 PM

Abstaining from the question was not an option.

Screen Name Redacted

3/03/2024 10:29 AM

I support both enclosed and open-air concepts. I also support the idea of a permanent food/coffee/refreshment service (like the South Beach Café). If owned and operated by the Hilton Park, this facility could support the sport clubs (shared profits?), rather than compete against them. It would be nice to have a social place to meet friends in the morning, afternoon and evening. This would be a positive way to draw more spectators to the afternoon and evening sporting events.

Screen Name Redacted

3/04/2024 09:16 AM

Small gazebo spaces are popular along the Swan river. A mix of sizes would work. With climate change happening the future will require enclosed, covered recreation space. I will not play, or, encourage my family to play sport in hot sun, or winter storms. Schools have had to cancel exposed sports due to weather in 2024.

Screen Name Redacted

3/04/2024 02:08 PM

mindful there is restricted space available for additional undercover and open spaces for events.

Screen Name Redacted

3/04/2024 10:47 PM

I love the idea of indoor and outdoor spaces for community events such as Tai Chi, dance classes, yoga, etc. Hilton Bowls club already has a space which is used for many of these activities. Could this space be upgraded, and is there demand for another space? I would love to use the park even more, as a meeting place for local friends and to meet new friends. A cafe/food facilities would greatly increase the opportunities for this. An outdoor space for concerts, outdoor movies and other shows would be very valuable.

**Optional question** (25 response(s), 8 skipped)

**Question type:** Essay Question

**Q16 | Do you have any other ideas about how we can deliver gathering and performance spaces in the Master Plan?**

Screen Name Redacted

2/05/2024 01:34 PM

no

Screen Name Redacted

2/06/2024 07:35 PM

Not destroy the basketball court that has been there for over 20+ years.

Screen Name Redacted

2/12/2024 09:25 PM

See above

Screen Name Redacted

2/13/2024 08:53 PM

I like the Hilton bowling club facilities - I would fully support opening up that infrastructure for shared use, and integrating the space into the park. Integrate the club through pathways that lead into the club and provide a community hub of playing areas, recreation (BBQ), toilets and access to club rooms. It's ideally located in the Center of the park. Have a pathway that cuts through the park from north to south at the bowling club level, that way you can access the north /south areas without having to go through the soccer club and associated car park which is a terrible thoroughfare and not safe for kids or dogs.

Screen Name Redacted

2/15/2024 08:31 AM

Build a proper performance theatre space with modern facilities, rehearsal spaces and storage spaces

Screen Name Redacted

2/16/2024 02:39 PM

Try to encourage things like yoga to be outdoors, so maybe the enclosed spaces have more of a focus on the sporting groups that use the space.

Screen Name Redacted

2/16/2024 03:19 PM

A water park? e.g. hyde park

Screen Name Redacted

2/16/2024 03:30 PM

Introduction of interactive public art. Especially for the younger visitors this could become a popular feature of the park and enhance its branding (eg if public art is a photo opportunity for social media)

Screen Name Redacted

2/17/2024 11:02 AM

No

Screen Name Redacted

2/18/2024 06:46 PM

The proposed path through the middle of each park could be lined with trees and seating. This will allow for canopy cover whilst watching sports or just walking. Like the Fawkner Park in the South Yarra area of Melbourne.

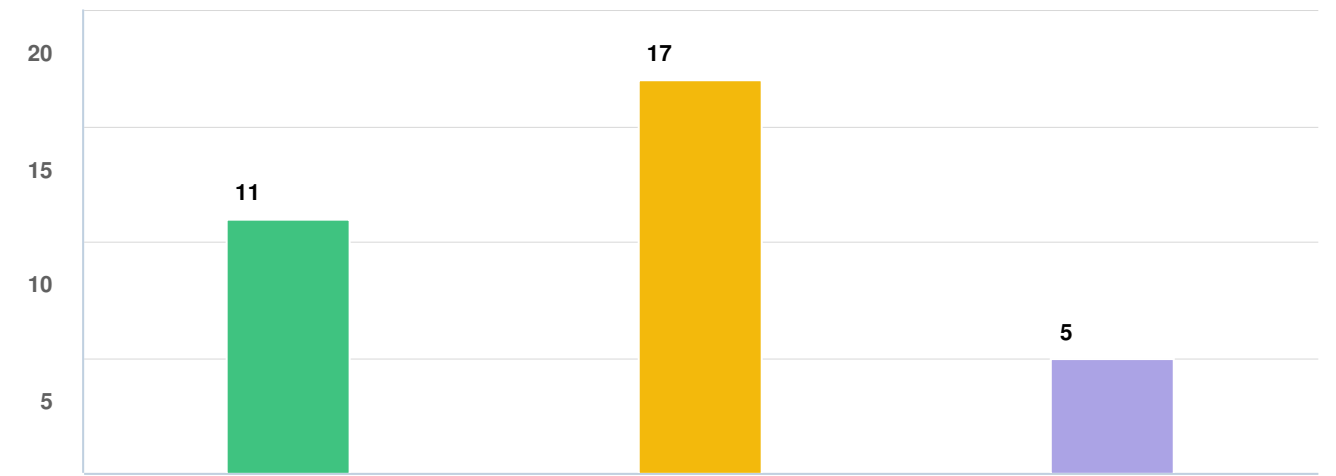

|                                            |                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Screen Name Redacted<br>2/20/2024 08:24 PM | The feasibility of an Amphitheatre style venue or more informal camp circle style venues would be interesting to explore                                                                                                                                                                                 |
| Screen Name Redacted<br>2/21/2024 10:38 AM | no                                                                                                                                                                                                                                                                                                       |
| Screen Name Redacted<br>2/29/2024 11:28 AM | No. As a neighbour of the park, I don't want any more gatherings or performances in this park.                                                                                                                                                                                                           |
| Screen Name Redacted<br>2/29/2024 06:35 PM | Amphitheatre where limestone 'valley' is??                                                                                                                                                                                                                                                               |
| Screen Name Redacted<br>3/01/2024 02:23 PM | Centralized building with facilities for all to share                                                                                                                                                                                                                                                    |
| Screen Name Redacted<br>3/01/2024 09:58 PM | Please keep the current disc golf park open and integrate it fundamentally into your masterplan. If for nothing else than the benefits for the local economy, tourism and health.                                                                                                                        |
| Screen Name Redacted<br>3/03/2024 10:29 AM | Outdoor movie screen. A new and improved approach to the "Camelot Theatre" in Mossman Park. The area already has lights and 'noise' (sporting events, Carrington St), so the neighbourhood is unlikely to feel 'disturbed'. This could be combined with art/yoga space by day and the cafe/refreshments. |
| Screen Name Redacted<br>3/04/2024 09:16 AM |                                                                                                                                                                                                                                                                                                          |
| Screen Name Redacted<br>3/04/2024 02:08 PM | clever use of existing land not currently utilised by existing sporting clubs. Example area close to public toilets and basketball courts                                                                                                                                                                |
| Screen Name Redacted<br>3/04/2024 04:11 PM | Just no sure how additional open air and enclosed gathering spaces can be provided in what seems to be a rather congested area, where sporting clubs are already scrambling for increased playing fields. A compromise must be reached.                                                                  |
| Screen Name Redacted<br>3/04/2024 10:47 PM | I would love to see exercise equipment included in the park. Davilak Park is a great example of on-site gym equipment which is easily accessible and increases healthy opportunities for residents. If a gym area or two could be included in the plan I believe it would be well                        |

used. Fremantle already offers seniors group fitness classes at the park (boot camp style) which shows there is an interest in weekly fitness activities. Having bodyweight exercise machines would make this accessible outside of class times.

**Optional question** (20 response(s), 13 skipped)

**Question type:** Essay Question

Q17 In general, do you support the Actions in the Draft Hilton Park Place Plan?

Question options

Yes Yes, but with some changes No

Mandatory Question (33 response(s))  
Question type: Checkbox Question

Q18 Can you tell us more about your selection in the last question?

|                                            |                                                                                                                                                                                                                                                                        |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Screen Name Redacted<br>2/06/2024 03:44 PM | Its certainly wonderful amenity and gives a great sense of space in contrast to the Hilton suburb with its cute cottages and mature trees, gardens etc. Keeping that sense of space whilst making the park more attractive to casual users will be a challenge for you |
| Screen Name Redacted<br>2/06/2024 07:35 PM | I don't agree with destroying the basketball court that has been there for 20+ years. Fixing up the basketball court would attract a lot more people rather than a junior football oval.                                                                               |
| Screen Name Redacted<br>2/07/2024 02:47 PM | You can't be all things to all people .                                                                                                                                                                                                                                |
| Screen Name Redacted<br>2/08/2024 06:37 PM | This is a fantastic, well researched plan which will greatly enhance the suburb and help promote its unique community feel. I look forward to seeing the plan implemented.                                                                                             |
| Screen Name Redacted<br>2/09/2024 02:15 PM | It should reflect the increased patronage on the Disc Golf Course, especially since the concrete tee-pads were installed. I would like to                                                                                                                              |

see a second set of tee-pads (for an alternate course layout)  
constructed to facilitate more competitions on the course to attract  
people to the park.

Screen Name Redacted

2/09/2024 06:38 PM

I think the park is fine as it is.

Screen Name Redacted

2/12/2024 09:25 PM

Where is number 36, the fenced off lead dog area? More trees and  
greenery less sporting pitches. More social hubs, less sporting clubs  
or multipurpose needs to be reconsidered regardless of what the  
clubs prefer it is exclusive not inclusive.

Screen Name Redacted

2/13/2024 08:53 PM

I support the vision and the words, but need to see the  
implementation and clarification of some of the comments I made  
previously. It's still unclear in many areas and I am not convinced the  
actions match the vision

Screen Name Redacted

2/16/2024 02:39 PM

I love this plan. I always wanted more for Hilton Park, though I am a  
big fan of how it is at the moment and the fact we have park access  
that is maintained so thank you for what you've done so far. I am  
excited for the future of it and the idea of it having more native flora.

Screen Name Redacted

2/16/2024 03:19 PM

I think no. 20 is super important so that we can minimise future  
building/development in the park to maintain the trees and vegetation  
that are planted over the next few years. It will also mean that the  
funding could be spent on other projects.

Screen Name Redacted

2/17/2024 11:02 AM

As a central hub for the south of the river disc golf community, it is  
disappointing that there has been very little regard for the disc golf  
course. The course is played regularly by locals and is a key pillar to  
the growing disc golf community. The course has helped a number of  
people find disc golf and help them strongly improve their mental  
health, myself included. An expansion of the course would be very  
welcome though it is noted space is limited for more baskets.  
Additional teepads are a potential solution (for a back 9 to form an 18  
hole layout) as is consultation with the disc golf community regarding  
tree placement in the vegetated areas (which disc golf is the primary  
user of).

Screen Name Redacted

2/18/2024 02:46 PM

I think you have done a great job. As a general comment I think the  
plan favours and prioritises sporting bodies (I note that you refer to  
clubs being unwilling to share resources) and their activities thereby

setting up an inherent bias built into your 'community' space. I am not happy about another oval being established, especially but not solely because of the removal of mature trees. I would like to see substantial effort put into additional revegetation and new plantings. I am also not sure that your off-lead dog plan is suitable, I think it needs more work and explication. Thank you for your work so far.

Screen Name Redacted

2/18/2024 06:46 PM

As explained above. The open spaces need to remain. These open areas more defined with tree lined footpaths and seating will be a perfect complement to the park.

Screen Name Redacted

2/20/2024 08:24 PM

Some actions are phrased in a way which makes them difficult to demonstrate progress against. E.g. "explore opportunities..." how will the city demonstrate sufficient progress has been made against these actions?

Screen Name Redacted

2/21/2024 10:38 AM

less grass - and maintain existing better / use more often rather than add to what is there - it's so often empty

Screen Name Redacted

2/29/2024 06:35 PM

More emphasis on discgolf course?

Screen Name Redacted

3/01/2024 02:23 PM

The Disc Golf course seems to be removed and excluded from the new plan. The disc golf course already ticks the box of action 27: "Working with the natural slope and mature trees for nature-based and exploratory play" That is exactly what disc golf does, takes advantage of the natural features of the park

Screen Name Redacted

3/01/2024 03:28 PM

More consideration needs to be taken with regard to the very well used disc golf course that exists here. It would be an absolute shame to lose it, it has provided a much needed outlet for me during some tough times and has also provided a great platform for many newcomers to the sport.

Screen Name Redacted

3/01/2024 07:52 PM

The disc golf course has been quite popular and has a regular Wednesday afternoon group that utilises it, please consider the disc golf course when making these changes and upgrades. I also think some of the proposed changes are possibly excessive in terms of their scope and the park may lose its charm.

Screen Name Redacted

3/01/2024 09:58 PM

Please keep the current disc golf park open and integrate it fundamentally into your masterplan. If for nothing else than the benefits for the local economy, tourism and health.

Screen Name Redacted

3/03/2024 10:29 AM

I like your idea of an east-west path through the park, south of the bowls club. I would also recommend another east-west pedestrian path through the northern half of the park, along the existing vehicle access and parking area. At peak times, the current infrastructure cannot be safely shared by pedestrians and vehicles. If the parking options are improved in this area, I would suggest adding a sidewalk/shared-use path along this corridor. I would also recommend adding cross-walks at each of the vehicle access points off of Shepard and Jeffery Streets. This will ensure pedestrians going to the park for exercise can feel safe while enjoying their visit to the park (especially as many people wear headphones, etc.). Cross-walks will help keep the pedestrian corridors clear when vehicles are waiting to turn or during peak periods.

Screen Name Redacted

3/04/2024 09:16 AM

It seems like it will be left as it is, with large areas of grass for several sports that are recognised Cricket, Soccer, AFL. If the upkeep can be done with no cost to ratepayers, and the environmental impact can be minimised we will be following the current popular Australian way. Create breeze corridors and plant low maintenance Australian vegetation.

Screen Name Redacted

3/04/2024 02:08 PM

I repeat, priority must be given to current sporting clubs, with ever increasing junior membership, to retain existing grassed areas. There is an acute shortage of sufficient grassed areas in the City of Fremantle for sporting codes like cricket, AFL and Football (soccer)

Screen Name Redacted

3/04/2024 04:11 PM

The problem of car parking has not been addressed.

Screen Name Redacted

3/04/2024 10:47 PM

I'm really excited that these upgrades are happening at our local park!

**Q19** | Is there anything else you would like to share about the Draft Hilton Park Place Plan?

Screen Name Redacted

2/06/2024 03:44 PM

thanks for caring!!

Screen Name Redacted

2/06/2024 07:35 PM

I would like to emphasise again on not destroying the basketball court that has been there for over 20+ years. Fixing it up and making it more official would be a much larger attraction than another oval. That court is the only decent one around as the floor is not gravel like down at Grigg park. By removing that court lots of memories will be removed with it.

Screen Name Redacted

2/07/2024 02:47 PM

I feel the overall plan is a vast improvement on the current use of the area .

Screen Name Redacted

2/09/2024 06:38 PM

My answers obviously reflect the wants of a local disc golfer. This park is very important to a growing and thriving Perth community. Losing the course or compromising it would be a major blow to the sport and the community. I am happy to discuss this as a committee member of the Perth disc golf club and Beaconsfield ratepayer

Screen Name Redacted

2/12/2024 07:51 PM

We would love to see a basketball half court retained in the plan as I think the current court is replaced by the junior AFL oval. Basketball is hugely popular in this area and the current court is used frequently (despite its condition). Thank you

Screen Name Redacted

2/12/2024 09:25 PM

It is clear that there has been genuine good intention and consultation resulting in the place plan draft however, disappointingly there is a lack of acknowledgement that the daily use of the park is the residents and families living around the park, dog walkers use the area every day often twice per day to get passive exercise but also meet and socialise, families use the play area daily, families have children's parties and bbq's, friends meet daily to socialise etc. The sporting activities only take place at specific times/days and could take place at any sporting oval in the area but for the residents who live around the park and use it daily it is an important part of their life. I think the place plan acknowledges this but it is not reflected in what the plan intends. There is a definitive lack of acknowledgement of the main users of the park and their needs and this is highlighted by the idea that dog walkers will accept the proposal to have a fenced area where to walk their dog. I can only assume this is driven by the sporting club who don't want dogs on their pitches placing the value and importance of the sporting activity above that of the neighbourhood residents who use the park twice a day to walk their dog. What about the passive exercise that the dog owner themselves gets when walking their dog off lead, throwing the ball and socialising

with other dog walkers along the way. It is very disappointing and doesn't really deliver what it intends with regard to inclusivity and broad neighbourhood utility. I notice there isn't any mention of upgrading the basketball court or making a skateboard park so where is the activity for youth who wish to play informal sports or activity? What about a club house or use of existing club rooms for a youth centre? The rugby club is sitting empty now, for over 12 months, why not utilise this or invite youth clubs to make use of the space. A music or art hub for youth? Something innovative that is truly inclusive and not more of the same. More work needed before a Master Plan could be considered.

Screen Name Redacted

2/13/2024 08:53 PM

there needs to be actions to support kids activities - bike paths (safe), play areas and informal recreation areas - e.g. basketball, skate area, frisbee golf. There needs to be more emphasis on informal sport / recreation not formal ones. Some clarity on the existing basketball court and new playing fields. I would need clarity on these things before supporting the plan/actions. Also need more detail on the pathways - how are they share use for pedestrian and bike/escooters/skateboards etc.

Screen Name Redacted

2/16/2024 02:39 PM

2/17/2024 11:02 AM

Please see comment 21.

Screen Name Redacted

2/18/2024 06:46 PM

There is an opportunity to create zoned functional sports and recreational areas for the multi purpose use and inclusion of all. I get planting native bush will save water, but we are looking at developing something for the community of all ages to enjoy and use. This should be a functional and communal area.

Screen Name Redacted

2/20/2024 08:24 PM

I would love to see a permanent volleyball net established on one of the turfed areas!

Screen Name Redacted

2/21/2024 10:38 AM

yes Council appears to be spending money here, where we have servicable amenities - yet cry poor when it comes to current projects - how about we finish what we have on the books before starting new projects ie. south beach toilets / changeroom !

Screen Name Redacted

I agree to plant more trees and native plants where there are no

2/29/2024 11:28 AM

sporting events held, and repair the exiting pathways. However, I would like to see the park remain as it is: free, spacious, and open.

Screen Name Redacted

3/01/2024 02:23 PM

The lack of discussion around the disc course currently installed there is very dissapointing. There is only one minor reference in the precinct plan. Given how popular the course is and our previous discussions on how we could use this fisc golf course patronage to increase activation of the area. Numerouse members of the disc golf community have attended meetings abut the plan and had ongoing discussions with COF members involved in the project so very sad to see the disc golf course not get much consideration

Screen Name Redacted

3/01/2024 03:28 PM

Please chat to the local disc golf community further to encompass their input into your decisions regarding this beautiful space

Screen Name Redacted

3/01/2024 09:58 PM

Tree coverage is important in any suburb

Screen Name Redacted

3/03/2024 10:29 AM

I am really excited to see Hilton Park get revitalized and I appreciate the opportunity to comment!

Screen Name Redacted

3/04/2024 09:16 AM

We have made our motive clear to keep Table Tennis in an organised first class venue in Fremantle, at Hilton. It doesn't clash with The Draft Hilton Park Master/Place plan. Fremantle needs a venue such as we propose, and Hilton Park would be complete with an indoor low maintenance facility.

Screen Name Redacted

3/04/2024 02:08 PM

where is the budget allocation for the Place Plan to proceed further than yet another "master plan" for Hilton Reserve?

Screen Name Redacted

3/04/2024 10:47 PM

A running path right around the park would be really valuable. Managing parking on the south west sides of the park would improve safety in these running areas, as cars are currently pulling up onto the verges in a haphazard manner, meaning I have to weave in and out of vehicles rather than running a straight line. Parking is of course very important. Improved access to the large car park behind the bowls club may reduce visitors parking in surrounding streets.

### **Round Three Engagement Outcomes Summary (5:15pm – 5:25pm)**

*By Anna Kelderman, Shape Urban*

Presentation on Place Plan engagement round online, summary of purpose, dates/timeframe online (5 Feb - 4 Mar 2024), number of responses (33), key feedback bullet points x 8.

Slides 6-9 attached.

### **Master Plan Presentation (5:25pm – 5:45pm)**

*By Brett Schreurs, REALMstudios*

Presentation covering what we are doing today, where we are at in the journey/scope, scenario 05 plan from PWG3 reminder, place themes reminder, Place Map reminder, Traditional Owners findings, new spatial principles 1-5, Master Plan zones x 3 including massing and precedent imagery, diversity and inclusion incorporation.

Slides 10-32 attached.

### **Master Plan Workshop (5:45pm – 6:25pm)**

*By REALMstudios & Shape Urban*

Break into 3 groups to look at Master Plan hard copies on tables with consultants traversing room to be present at each table.

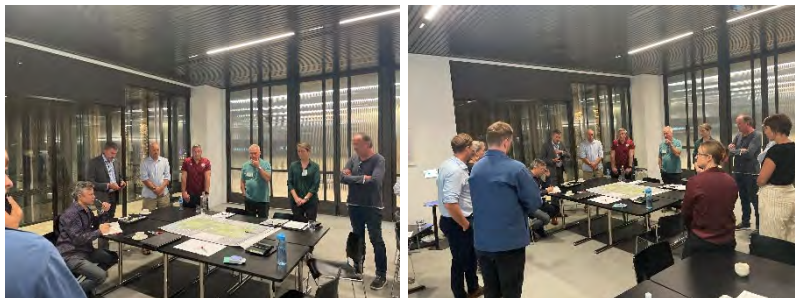

Slide 33 attached.

Engagement Exercise 1. Reviewing the Master Plan using fatal flaws and improvements form boxes **on last slide**, report back to the room with comments for discussion.

Some good robust discussion about:

- Access/levels/connectivity/arrival/core of site
- Utilisation across site by all including existing and new stakeholders and user groups, including trends and prioritisation into the future
- Participation including females, also footy and cricket were mentioned
- Shift from single users to flexible optimisation and viability
- Change, including creating one space rather than multiple as well as management models as per below
- Architectural scope/building schedules in line with "appropriate" design guidelines/being wary of duplication, governance or management models of community centre buildings including leases/surrounding planning context/research needed into our demand and management
- Budget/QS/income streams/funding/advocacy/business case/staging/delivery
- Fencing, and how once you install it, all user groups believe it's for their purpose

That captured will be recorded by the consultants to inform the plan going forward.

**Supper & Wrap Up (6:25pm – 7pm)**

*All*

## Outcomes

- A Council Report (information update only for public record) regarding summary of Place Plan engagement and project update April 2024 (CoF staff)
- Another iteration of the Master Plan incorporating feedback from PWG4 April 2024 (Consultants and CoF staff)
- Informal Elected Members Meeting IEM presentation April 2024 (Councillors, Consultants and CoF staff)
- Master Plan goes online for public feedback in May 2024.

## Thank You

Thank you to all for your time.

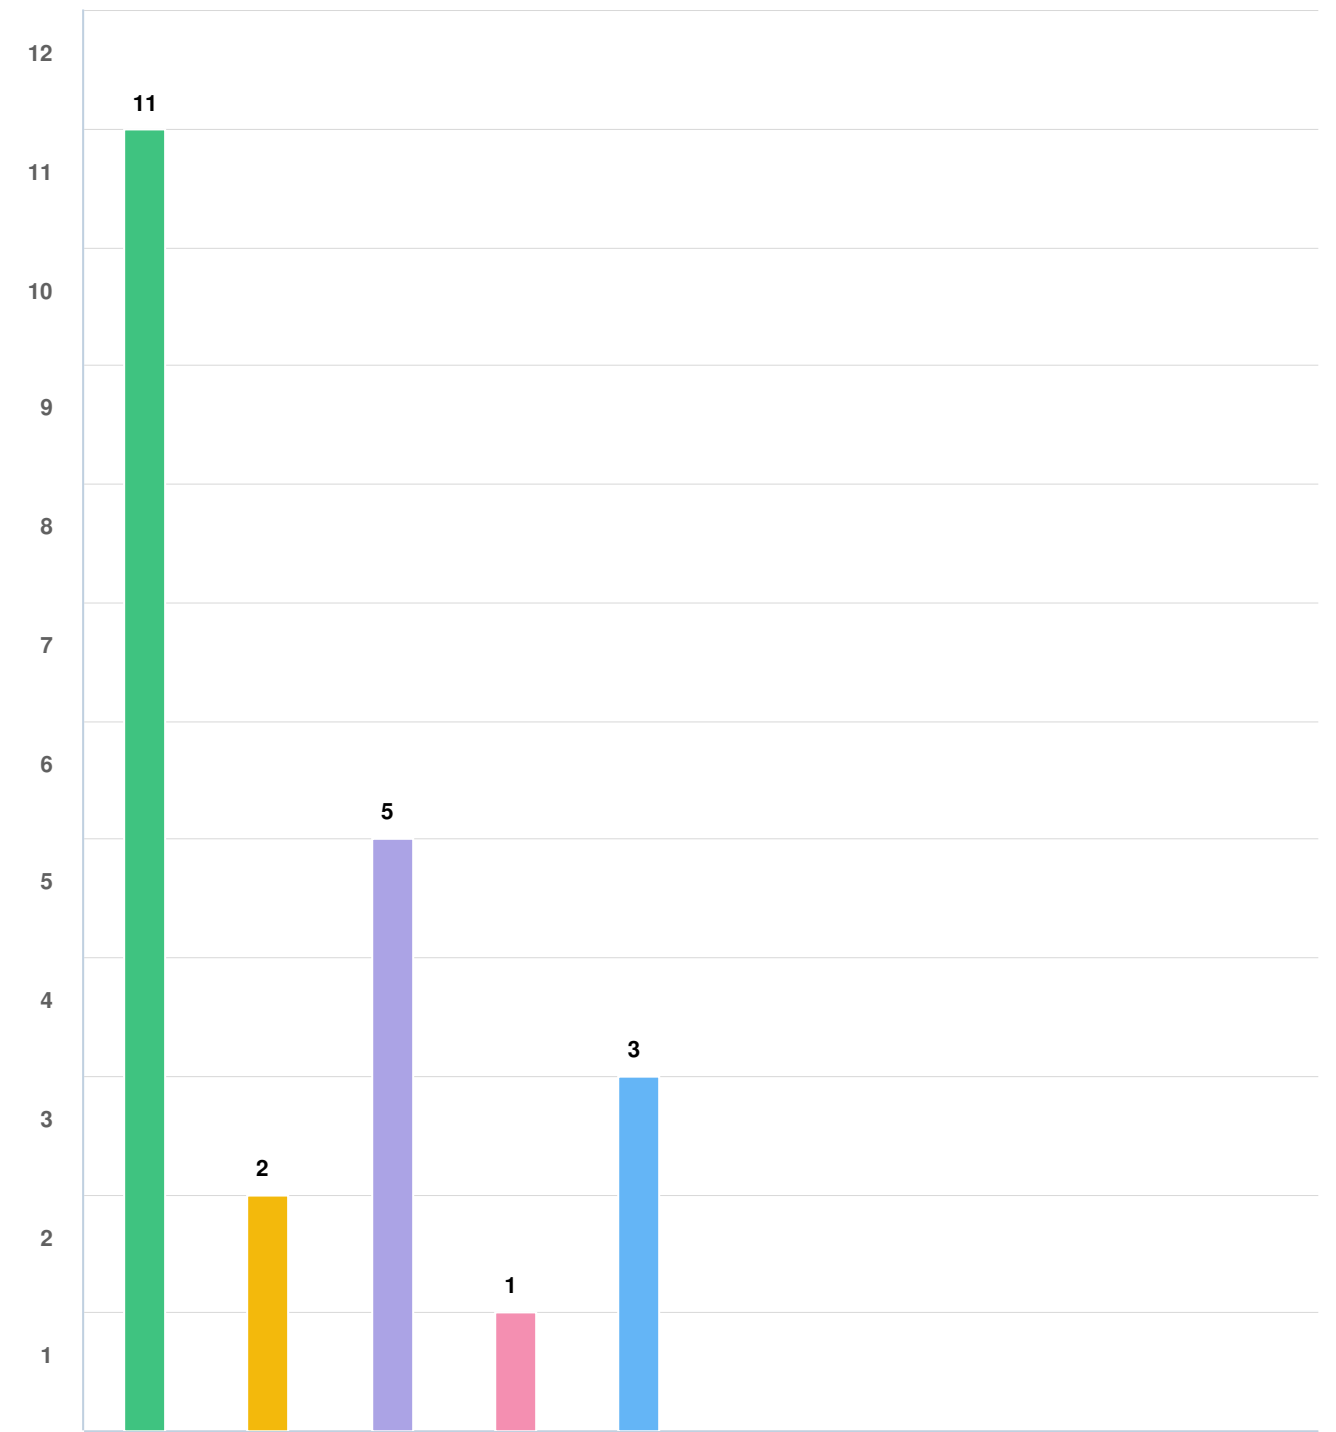

**Meeting closed at 7pm** Next meeting to be confirmed closer to time.

## Q7 Can you tell us why?

People walking up and down the driveway is currently not a great situation

In my opinion the place is safe in the current configuration. Car movement is restricted to the parking areas and dogs can play in most areas, if there are no games or training sessions on.

Don't really see much of an issue currently, except around the toilet block.

Lighting impacts after hours use. The well lit loop around bowls club and youth space will benefits users after hours. It's currently very dark, unsafe even at night.

The entry exit at the moment to the footy and soccer oval is very dangerous ,

A busier area that is utilised by the community more will be safer due to more people being around and a higher respect for the area.

Agree that car movement within the park will improve safety but concerns about the congestion and lack of perimeter car parking.

Lighting and footpaths

Well placed extra and improved lighting should provide a safer environment during night time.

Still a major safety issue. The pedestrian spine should not intersect with the road at all. This is a park where kids should be able to walk/ride/scoot across the main pedestrian connections freely. The new junior oval does not need a car park immediately adjacent. A drop off zone where the main car loop turns south would be sufficient and fit footballers can walk from car parks that are still very close. If deemed absolutely necessary an entry from Carrington would be more preferable than this plan, which bisects parklands and

pedestrian spaces with roads.

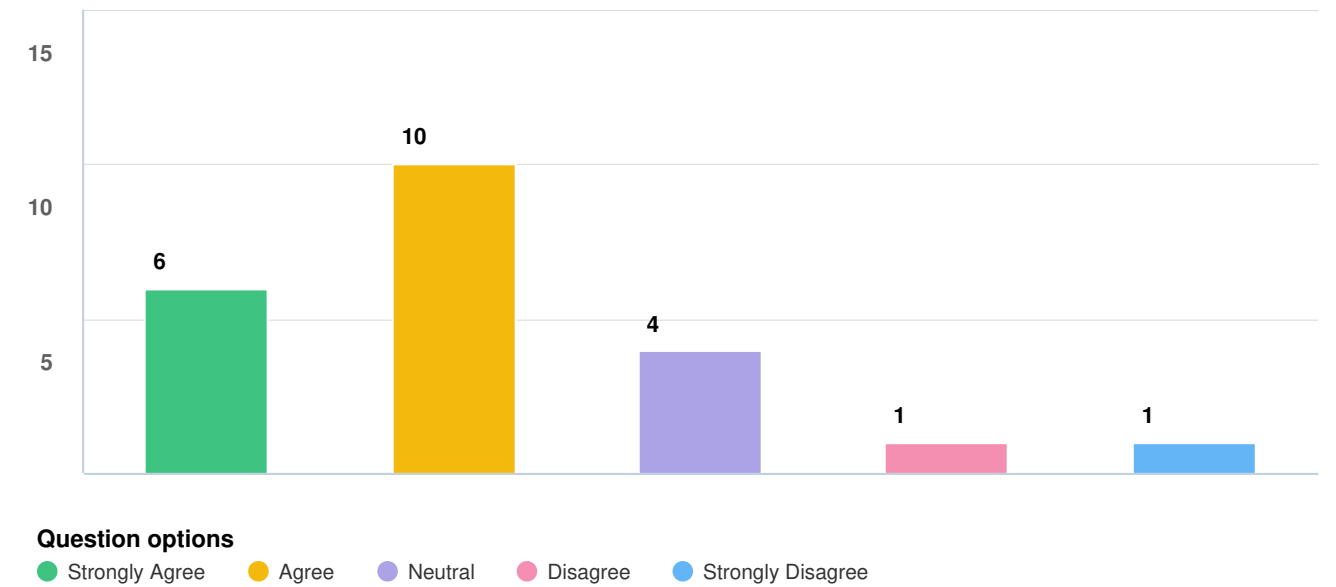

Safety should also include the cycleways. Pedestrians are continually dodging cyclists and electric bikes.

There is a lot of trouble at the park after dark. I have been threatened at least 5 times when leaving the park after dark.

**Optional question** (12 response(s), 10 skipped)

**Question type:** Essay Question

**Q8** The Draft Masterplan aims to facilitate improved movement. Examples include managing the changes in levels, so it is easier...

Mandatory Question (22 response(s))  
Question type: Checkbox Question

**Q9** Can you tell us why?

I think people manage it OK as is

The paths need to be wide enough and easily accessible for people walking as well as on bicycles. This includes prams and wheelchairs. The fencing between the various zones should be removed.

the question: is if we really need it? By having people or e-bikes rushing trough the area it will just increase the chance of having a conflict - e.g. dogs running into a bike.

Don't really see much of an issue currently.

Currently the space can be difficult to navigate. The plan makes movement easy through the middle and perimtwrs

All areas need to be better connected with parths

More paths and multi use shared paths

Pathways

Better "connectedness" within the area with less dead spots.

See above, the intersection of the pedestrian spine with the road is a bad idea, as anyone who has ever supervised a 3year old on a scooter, bike or trike will tell you. This should be a space where kids can learn to ride and people can get around safely. One single car loop and car parking on the perimeter is the best solution. The perimeter pedestrian loop includes a section adjacent to a busy road and should not be the only north-south pedestrian route that does not intersect with roads. Please ensure sufficient bike parking at key facilities.

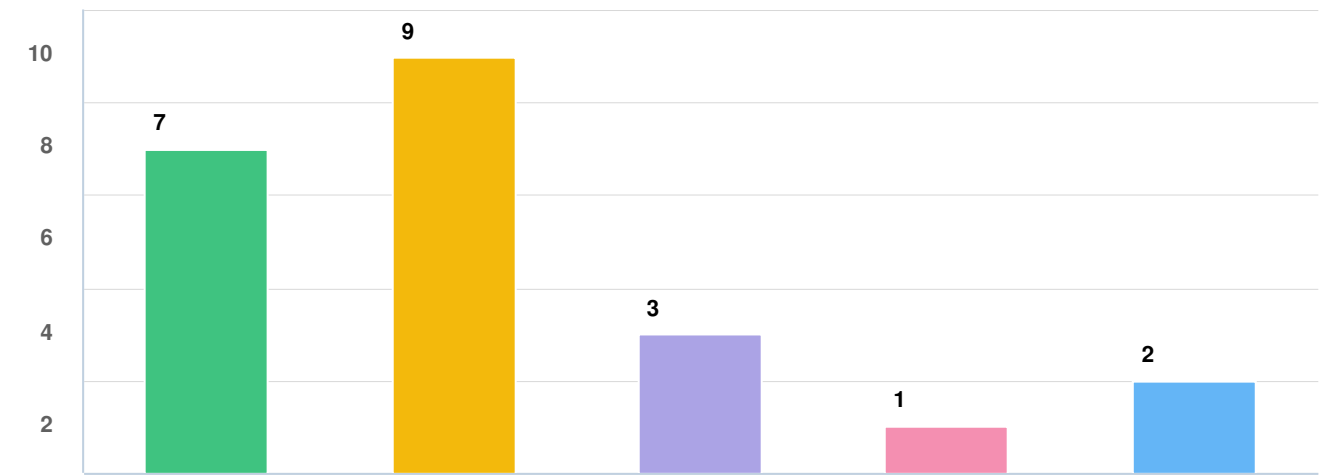

Push bikes and electric bikes can cause injury to pedestrians, people with disabilities that require walkers and wheelchairs using the pathways.

I don't see this as necessary as the park is not that big. Aigna and footpaths will help direct people but I don't think it is nessasary.

**Optional question** (12 response(s), 10 skipped)

**Question type:** Essay Question

Q10 Suitable spaces and offerings for bookable indoor recreation space?

**Question options**  
Strongly Agree Agree Neutral Disagree Strongly Disagree

Mandatory Question (22 response(s))  
Question type: Checkbox Question

Q11 Can you tell us why?

Where is the recreation indoor space? I see zero provisions for indoor sports. Where is there an indoor basketball, netball, space?There is nothing in the City of Fremantle. This location would be perfect for a multipurpose indoor sports facility. There is nothing, NOTHING! in the City of Fremantle. It's currently impossible to get kids into basketball because of a lack of indoor courts. That is only going to get harder with increasing population.

Consider a diversification of sports. Possibly public access tennis courts?

This place should be as diverse as possible. The previous BBQ area at the playground was not very often used. Two years ago it was upgraded, but I do not see more people using the Gas-BBQ. No need to have another area like this.

Picnic spots, hydration stations are very important to this park and its users.

New facilities/buildings will be provide bookable venues to keep events within the community

Need a skate park and pump track

It would be great if other people outside of the sporting groups can regularly use the park.

I'm personally not that interested in indoor recreation.

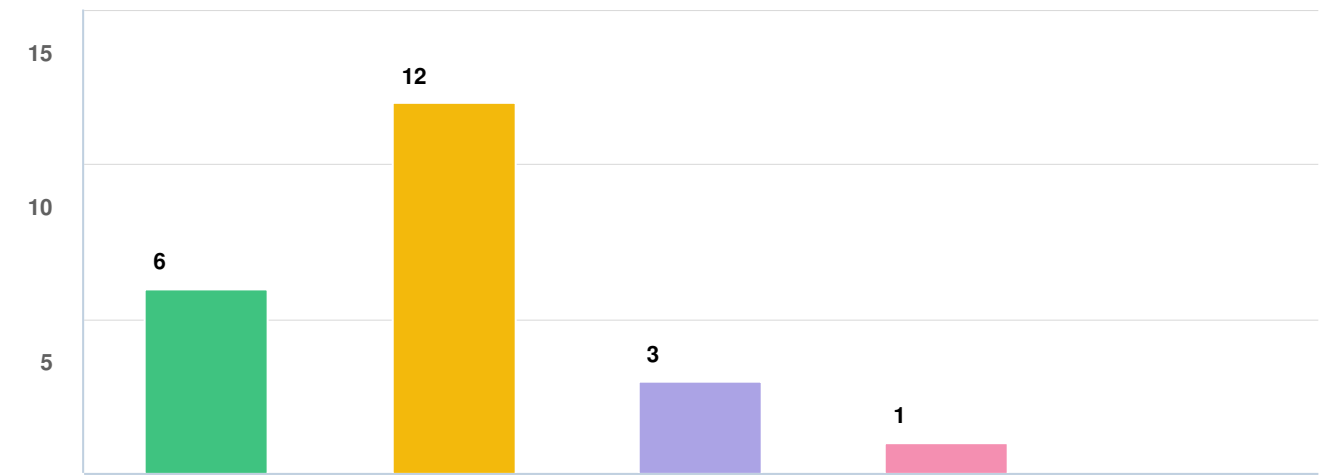

All sounds good. If clubs are to be co-located, it is worth learning some lessons from the experience of clubs at the recent Fremantle Park development, which has not been without hiccups . With respect to the cafe/restaurant at Fremantle Park it has not been as simple as 'build it and they will come'.

I have been going to this park with my dogs for 15 years. Recently we have been forced into the fenced area that was the rugby oval. Some nights there are more than 49 dogs there. My dog has now been attacked 5 times in this crowded space. Crowding dogs into a single space is not healthy for the dogs physical or mental well being - nor the mental well being of their owners dog park has always been a relaxing place for me but it is not that now. It is very stressful with too many dogs. Do not force us all into a small fenced area.

**Optional question** (10 response(s), 12 skipped)

**Question type:** Essay Question

**Q12** | Suitable convenience facilities; for example, public toilets, hydration stations, seating, shade?

**Question options**

Strongly Agree   Agree   Neutral   Disagree   Strongly Disagree

Mandatory Question (22 response(s))  
Question type: Checkbox Question

**Q13** | Can you tell us why?

the toilet building is in need of an up-grade. It should be more user friendly and with better light.

New toilets are needed.

Public toilets located near youth zone is a great idea.

More accessible toilets required

Seems adequate

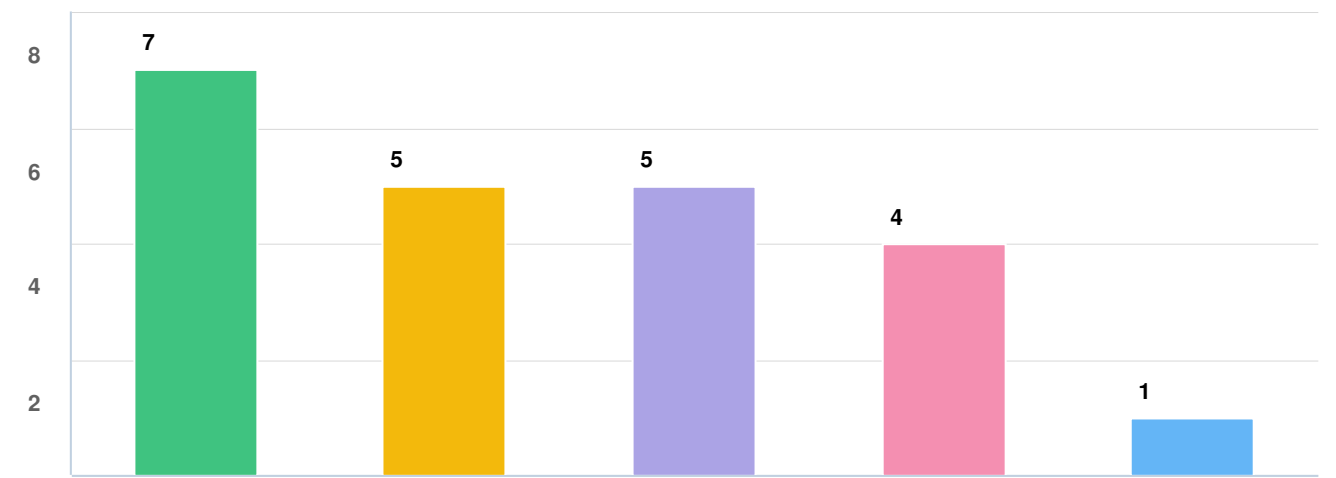

Hydration stations are not required. Bring a water bottle. Upgrade public toilets as they have been there since the 1950's.

I am. It sure moving the public toilets from the road is a good idea. Building better ones is a good idea as they are very basic and run down.

**Optional question** (7 response(s), 15 skipped)

**Question type:** Essay Question

Q14   Suitable spaces and offerings for recreation outdoors?

**Question options**

Strongly Agree   Agree   Neutral   Disagree   Strongly Disagree

Mandatory Question (22 response(s))  
Question type: Checkbox Question

Q15   Can you tell us why?

I'd love to see the disc golf course prioritised. As a player it's very central to the local thriving of the sport. I'd hate to see it compromised

Diversification of sports and activities is insufficient. Disc golf is barely used at present, yet the users are very vocal at the sessions. Consider other sports such as public use tennis courts and increased bicycle use such as BMX track or routes?

I like the diverse sport activities happening in the area. Sorry for the rugby club to leave. We need the place representing a diverse and multicultural neighborhood.

The disc golf course is fantastic, good fun, good access and good for all playing levels. This is where i bring my Grandkids to play.

I'm concerned the disc golf will be impacted, with either less holes or, shorter holes. There are a huge number of people that play the

course. It would be nice to make it 18 holes rather than 9.

Plenty of outdoor uses

I would have liked to have seen a bike jump line

As a keen disc golfer, I'm concerned that the space available for the disc golf course "appears" to be reduced compared to what is already installed. The length of disc golf fairways displayed seem shorter than what is already installed.

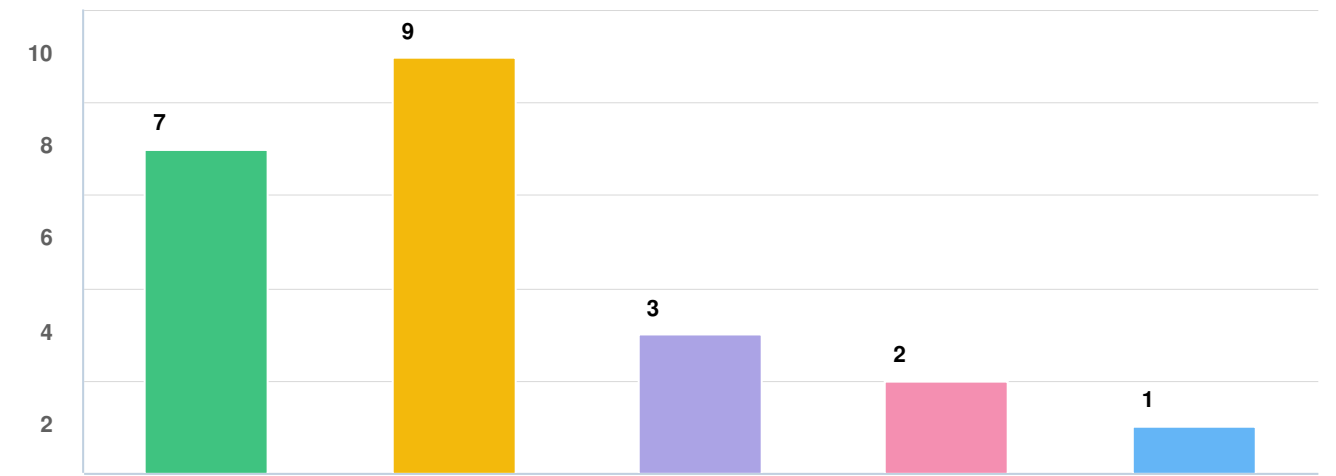

It is a shame a key outdoor function area is close to the busiest road and car parks take up quieter corners. The revegetation of the Lefroy Carrington corner will need to provide adequate screening and sound barrier for this to be an enjoyable space.

My outdoor recreation centres on my dogs. Forcing us into small fenced space with lots of other dogs will not be pleasant or relaxing for my dogs or I

**Optional question** (10 response(s), 12 skipped)

Q16 Opportunities for new and enhanced buildings than will enable greater inclusivity?

**Question options**  
Strongly Agree   Agree   Neutral   Disagree   Strongly Disagree

Mandatory Question (22 response(s))  
Question type: Checkbox Question

**Q17** Can you tell us why?

No where near enough space provided for these options. What about a social club/bar for the community? There is a cafe.... That does not seem like anywhere near enough. How about a fitness centre or leasing spaces for small business such as physiotherapists, massage, chiro. Really have missed the mark on what this space could have provided. The bowls club takes up a huge amount of land but it utilised by a very small number of people in the community. This area could have been opened up and the bowling greens incorporated into something much bigger to service the whole community.

This is a sports and recreation area. Diversity doesn't come into this.

The current club houses are not used very often. More options will just reduce the usage even more.

Do not have an opinion on this.

Multiple options for community events

It seems to have better utilisation of space around the bowling club.

All sounds good.

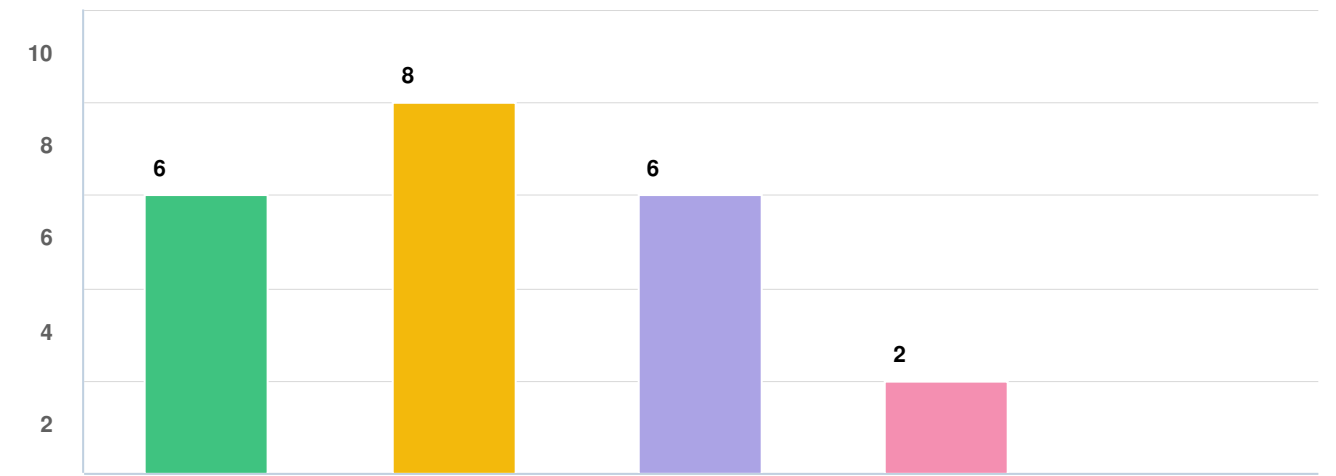

I feel you are removing what this park was originally to be used for. You are cramming too much onto it.

I often see the footy club empty. It is a good building and should be used more

**Optional question** (9 response(s), 13 skipped)

**Question type:** Essay Question

Q18   Suitable spaces and offerings for relaxation and leisure outdoors?

**Question options**  
Strongly Agree   Agree   Neutral   Disagree   Strongly Disagree

Mandatory Question (22 response(s))  
Question type: Checkbox Question

**Q19** Can you tell us why?

Not many spaces just to relax. Always a sports team imposing rules about no dogs or no children running around etc. consider a designated zone just to sit and enjoy the trees and space. (plant more trees!)

there is plenty of space. the biggest critic I have on the plan is making the space more efficient. I would prefer that there is more interaction between the different user. Banning dog-user from soccer fields is not a friendly movement. Sectioning through fences is not good a thing - nor for humans or dogs. The space should be open so families can have a picnic on the lawn or a game of soccer.

Plenty of shady spots, walking track.

Need meeting places surrounded by nature

There are suitable spaces, but as stated above screening out the Carrington traffic will determine how pleasant some of these will be.

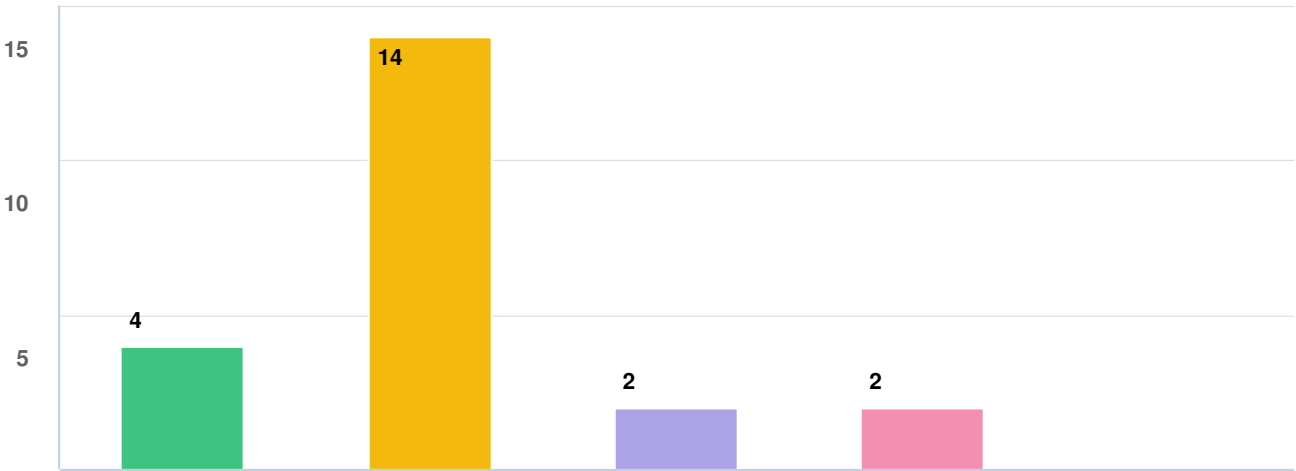

The oval is already used for this purpose.

My outdoor recreation centres on my dogs. Forcing us into small fenced space with lots of other dogs will not be pleasant or relaxing for my dogs or I

**Q21** | Can you tell us why?

It seems like the only sport that has been catered for is soccer and to some extend football. Otherwise I don't think there has been much 'different use' at all.

Again, the disc golf course takes place where other things don't and can coexist with the rest of the park. I think it's an important aspect

see my previous comments

A junior AFL oval a good ideal

I'm concerned the disc golf will be impacted, with either less holes or, shorter holes. There are a huge number of people that play the course. It would be nice to make it 18 holes rather than 9.

Variety of sports catered for

There seems to be a greater diversity of outdoor recreation spaces

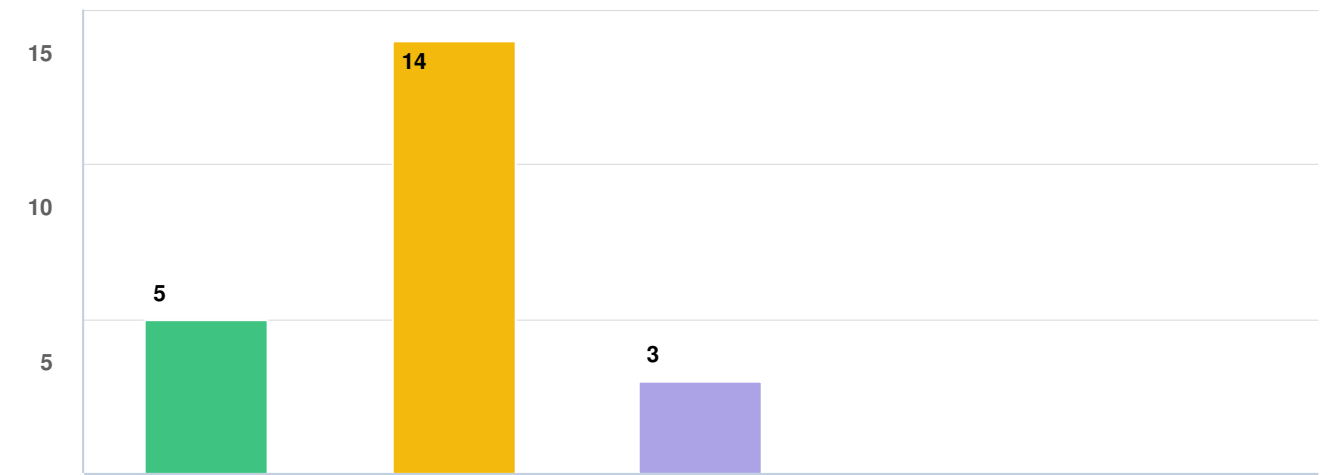

There are a range of spaces for a diversity of activities. There remains nonetheless a potential for conflict between users when all playing fields are in use, as there is no dedicated space for dogs. The statement that this will be 'managed' doesn't provide enough detail to be able to see how it will work.

Please do not confine off lead dog walking into small fenced spaces. I have been going to Dick Lawrence with my dogs for 15 years. We walk morning and night. We are often alone in the footy oval during the day. Off lead dog walking should be allowed all over Dick Lawrence when there is no organised sport - and should include the peppermint grove during games to ensure the fenced area does not become over loaded with dogs.

Mandatory Question (22 response(s))  
Question type: Checkbox Question

**Q25** Can you tell us why?

More trees with natural trails through will encourage interaction with nature. Possibly consider a pond as water sources for local birds are very scarce in summer.

we need plants where ever it is possible.

More trees, the better

Already a very green area, considerations have been made to further improve.

If 'greening' is one of your aims, reducing the canopy cover by removing many trees for the junior footy oval is short sighted. Additionally, I would comment that there are multiple grassed areas throughout the park and I wonder why these can't be better utilised

between sporting groups, potentially even reducing the number of pitches and certainly not increasing them. Most of the time these pitches are unused, and they require excessive water for maintenance. This level of water use is not 'greening'. Another question, what sort of fertiliser and or pesticides will you use through the park and especially in the turfed areas? Often these chemicals are not suitable to a thriving native parkland.

It looks like enhanced greening is a focus of the overall design.

Green areas super important to me

Great. So long as water-wise and climate resilient.

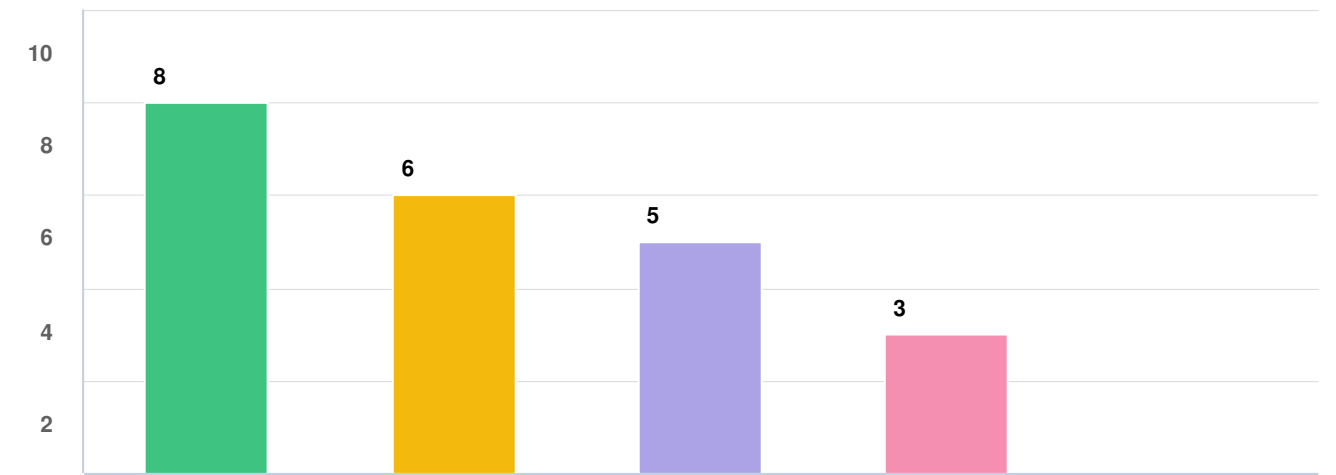

More trees can be planted. Bird boxes to be installed in trees.

As long as we have access to these spaces with our dogs - off lead.

Mandatory Question (22 response(s))  
Question type: Checkbox Question

**Q27** | **Can you tell us why?**

Massive reticulated pitches of perfect grass = large scale water use.

We have to keep water usage to a necessary level

Waterwise is good.

Plan looks thorough

As above, expanding the amount of turf is not water wise. Better utilisation of what is already there, between sporting groups might result in a reduction in turfed areas and therefore less water.

Collection of water from new public buildings would also be good.

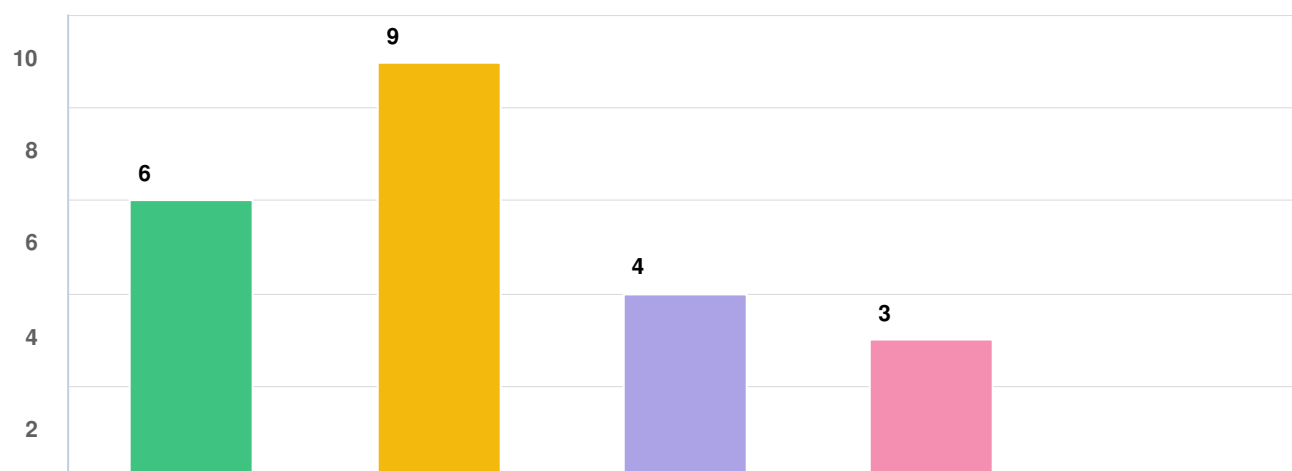

If you are going to build all these extras you should maintain the lawns and gardens by ensuring the park is green and watering it.

It's important to save water - and have green spaces.

 ● Strongly Disagree

Mandatory Question (22 response(s))

Question type: Checkbox Question

**Q29 Can you tell us why?**

The dog area might impede the disc golf course. Dog poo is a major problem in this park. No one picks it up and I wish there were less dogs

Consider how the sports clubs will impose their own rules once established. the soccer and bowls are already very unfriendly.

When sports are on, this will be managed - How? Sending the ranger around and to fine dog walker is not a good thing. My 14y daughter was facing two men and asked for here personal details and threatening to pay a fine. Absolutely not good.

I have unfortunately witnessed a few dogs killed or badly injured on Lefroy Road when they have run across the road from Dick Lawrence Oval. This area is not safe for dogs. We need to ensure that a fully fence off leash area for dogs is created at Ken Allen Oval. At the moment, the majority, but not all is fenced.

Dog friendly is good.

Fenced off dog area is a great idea! May deter people from Hilton PS oval

Need a fenced off dog area , not every one likes dogs and there is to much dog shit around.

Provided the Hilton Park Bowling Club retains adequate fencing to protect the bowling greens and provide adequate security.

It will depend on how well the paths are and whether its safe to have your dog off lead, using the path, and away from traffic..

It's great that the plan allows for the continued arrangements of dogs everywhere except during organised sporting events. The off lead dog area in the junior footy oval is not really interesting for dogs if it is simply grass. Dogs need more stimulation and smells than that so this area will not be adequate for dog play. See Jandakot especially for good examples of off lead fenced dog areas; Piney Lakes a little less good but still better.

With the school looking to block off access to dogs it would be great to have a local fenced in area specific to dogs

Agree that thee are good spaces, it would be good to know some of the principles that will be used to 'manage' use when sports are on, such as agreement there is at least one oval space available. With multiple clubs, there is currently no such coordination to ensure adequate space for dog walkers.

I disagree with the use of fencing to split activities including dog walkers. I think we need to treat dog owners with more trust that they will do the right thing and pick-up after their dogs. Most do.

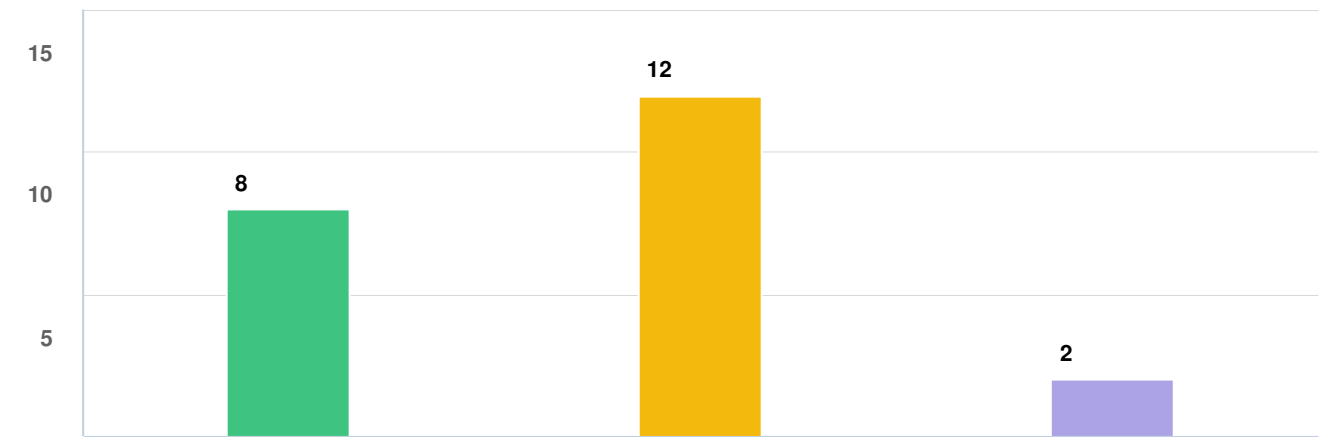

Ensure the dogs are safe by providing a fenced in area. Dog watering drinking tap. Agility area for dogs to be trained and exercised.

You do not state if we can use the sports ovals for our dogs off lead when sport is not on. Do not force us all into a small fenced area - we are responsible dog owners. When too many dogs are forced together it creates a tense environment for dogs and people. My dog has now been attacked 5 times since we have all been told to go to the fences rugby oval - sometimes there are more than 40 dogs there. It is not responsible dog space management. It can damage the dogs psyche and makes them into defensive more aggressive dogs. Dogs need to run and they need space to do that.

**Optional question** (15 response(s), 7 skipped)

**Question type:** Essay Question

Q30 Do you support the Draft Masterplan?

**Question options**

☒ Yes, I support the Draft Masterplan    ☒ I somewhat support the Draft Masterplan but I feel something needs changing    ☐ No, I do not support the Draft Masterplan

Mandatory Question (22 response(s))  
Question type: Checkbox Question

Q31 Can you tell us why?

This masterplan is a short term answer and will not meet long term community requirements. The City of Fremantle requires an indoor sports facility with multiple uses. Currently there is nothing available. This is the largest recreation zone in the city so it is the logical option with good access for cars and public transport. Fremantle is massively under utilising this space currently and you only need to look at the City of Cockburn and City of Melville to see how planning long term and providing leisure centres with multi purpose recreation zones is what the community requires. As someone who has worked in sport and fitness for 25 years, I was hoping Fremantle would have been much more progressive. At the very least a government grant to build the facilities required to make this happen should have been sourced. As a strong Labor seat, it is shouldn't be too hard getting support.

I think the park is OK how it is for the most part. I live very close by and my main hobby is using the disc golf course. It seems like the master plan wants to do too much and some of that might infringe on the course. That would be a tragedy to the local scene.

Include tennis courts, remove the impetus on increasing disc golf, which is a gimmick and replace with nature spaces and areas for families.

I have the feeling that for some project it is more about how much money can be spend. We need open space for creativity and not everything planed. A good example is the new playground that was surely very expensive but become more easy-care then something to experience. with the modification it become a place only for very young user.

The disc golf course is fantastic, retaining at the park if important for me and the numerous local people I play with.

I'm concerned the disc golf will be impacted, with either less holes or, shorter holes. There are a huge number of people that play the course. It would be nice to make it 18 holes rather than 9.

Overall and very interactive space for all ages

Keeping all the sports ovals , including AFL is important .

I've wonder if the community clubroom facilities will be big enough for indoor recreation e.g. basketball/netball/futsal/wellness Centre etc etc

Jump line, there are so many kids in the area that BMX and mtb

The location of the youth court (basketball court) is a concern given that this area is also earmarked as overflow parking and events.

Too turf heavy and removal of trees for further turf areas is short sighted. The dog off lead fenced area needs further work.

As a keen disc golfer, I'm both encouraged and concerned about the statement in the quick wins section "Relocation and enhancement of Disc golf course". As I've stated before it appears there is less space

for disc golf and whilst I understand the need to relocate sections of the course to accommodate other aspects of the Masterplan I'm worried that the relocated sites may not be ideal (i.e. too short or simple fairways) for disc golf and reduce the appeal to disc golfers.

I generally support the draft plan but feel pedestrian safety is compromised in the current draft. This is a recreational space where car parking and access needs to be on the periphery and a one-way central access loop.

I strongly oppose the installation of so many new parking bays. In particular the new bays north of Walton Way (No.13 in the Northern Zone). As a resident I would prefer that cars were not encouraged to park here. The perimeter of the park is aesthetically very nice on this part of Shepherd Street, please do not destroy this by adding parking bays.

Way to many suggestions being made on oval. It will be overcrowded with buildings, theatre, cycle path etc. I have always lived near Hilton Park oval and have used it on a near daily basis for over 60 years. Does anybody else who is involved in the Masterplan lived and used the oval over the decades?

Please revise the dog off lead areas and do not force a lot of dogs together in a small space. Dogs need space to run and space to get away from other dogs when they need to want to. Forcing many dogs into a single space is irresponsible.

**Optional question** (17 response(s), 5 skipped)

**Question type:** Essay Question

### Q32 Which part of the Draft Masterplan are you most excited about?

Zero

Someone mentioned the prospect of a disc golf course expansion. That would be amazing for the park

the removal of the boundaries, inclusion of the trails

New toilets, continued support with the disc golf course

Better access and facilities.

Youth space/skatepark

Small ALF oval for kids , better parking and accesss , pump track and skate park

Improvement of the facilities especially the clubrooms at Ken Allen and Rob Mckay long overdue

The prospect of major renovation to the bowls clubhouse is certainly welcomed as is the replacement of one grass green with a second synthetic green although the timing of this (time frame 10 years) is longer than HPBC would like to see. The five year plan of the club sees replacement within a 5 year timeframe as this provides ongoing operating savings.

Paths and lighting

Native gardens and walkways

A quick wins statement about "Relocation and enhancement of Disc golf course"

Shared community spaces

More outdoor recreation spaces and a central hub where under-utilised spaces are opened up.

The New Community Building in the Central Zone.

None - leave the oval as is. Upgrade toilets. There is no mention of putting anything in place for seniors. People who have lived in the area and paid rates for many years have been overlooked.

I am not anxious about the dog off lead spaces.

**Optional question** (17 response(s), 5 skipped)

**Question type:** Essay Question

### **Q33** | Is there anything else you would like to tell us about the Draft Masterplan?

Go back to the drawing board and look at a multi purpose indoor facility and work back from that point. By the time this plan is implemented the community will require much, much more than the City of Fremantle is proposing in this plan. At present, most residents have to go out of the City of Fremantle to use indoor recreational space. What will happen when the City of Fremantle population doubles? Those locations they are currently using will implement caps so that local residents get first use (just like in the eastern states) and then the Fremantle residents will come back to the council asking why has nothing been done to provide these facilities in the City of Fremantle.

ADD TENNIS COURTS!

Consultation process has been very clear and easy to follow.

Traditional owners not required

Looking forward to it!

I'm keen to work with City of Fremantle to deliver the best outcome for the active disc golf community.

An expanded 18 hole (9 basket 18 tee pads) would be greatly appreciated by the disc golf community

I'm worried about how you can afford it

Thanks for undertaking the planning and listening to community. Given that there is no budget for these proposed changes, it would be good to have the chance for community input on the prioritisation of any works

I strongly oppose the installation of so many new parking bays. In particular the new bays north of Walton Way (No.13 in the Northern Zone). As a resident I would prefer that cars were not encouraged to park here. The perimeter of the park is aesthetically very nice on this part of Shepherd Street, please do not destroy this by adding parking bays.

As well as including the traditional custodians history also include the immigrants and Australians history who established the area of Hilton and Beaconsfield. Talk to the older generations who have always lived in the area. Pathways can be built to incorporate both Indigenous and Australian history.

We need more dog off lead spaces.

## Minutes

### **Welcome and Acknowledgement of Country by the Mayor (5:40pm - 5:50pm)**

*By Mayor Hannah Fitzhardinge, City of Fremantle*

Project journey has been a success.

Slides 1-2 attached.

### **Project Update by the City (5:50pm - 6:00pm)**

*By Emily Parsons and Ryan Abbott, City of Fremantle*

Housekeeping.

#### Recent news

On the project at the City, including the following.

- Advocacy Pack Draft
- Brad Hardie and Ball Barriers and Sports Lights 100lux to Ken Allen are priority quick wins (we heard how soccer Pitch A has a higher lux proposed than the community grant allows for)
- Winter Planting at Dick Lawrence Playspace completed
- Perth Glory have signed for another 12 months.

#### Grants

- Play Our Way applied for \$5.6m
- Thriving Suburbs grant being considered
- Club Night Lights Program grant for Ken Allen 100lux in progress
- CSRFF Forward Planning Round for Brad Hardie Pavilion and associated stage works is under in consideration.

#### Next steps

- Masterplan will become 100%
- Council Report will be tabled 28 August 2024 to consider adoption of the Masterplan
- Business Case and Detailed Staging Plan RFQ in progress
- Design Development on Strategies (Art etc) next step
- Capital Works project planning and financial plan alignment continuing.

Slides 3-10 attached.

### **Engagement Updates (6:00pm - 6:15pm)**

*By Anna Kelderman, Shape Urban*

### Round Four Engagement

Outcomes summary presentation on Masterplan public engagement round online dated 1 June to 30 June 2024, number of responses (22), feedback points minimal and mostly clarity needed regarding lighting, disc golf (who love slopes and trees), dog fence and signs. We lost them in the 'neutral' zone, but there was no 'one thing' that the respondents wanted changed dramatically which is good.

Slides 11-18 attached.

### **Masterplan Updates (6:15pm - 6:30pm)**

*By Brett Schreurs, REALMstudios*

### Masterplan Tweaks

Presentation covering incorporation some targeted community comments into the 100% plan - tweaks like junior oval size, pavilion and retaining wall, pump track, central building, spine path width and slight shift, youth zone as overflow parking, dog 'fenced' areas clarity is NE and SW corners of site.

Slides 19 onwards attached.

### **Discussion**

Plenty of agreement that the plans are well considered, and some discussion about:

- Lights - CNLP light grant typically funds large ball sports to 100lux. A higher Lux provision will likely need to be funded in other ways. Rugby 7's is growing in popularity and could be considered for Ken Allen Fields.
- 'Inclusion Building' (where Ken Allen Pavilion is) - Kris Marano was a good connection and the Play Our Way Grant was all about women in leadership and it was to be assessed by women.
- Grant success will influence staging.
- Dogs - The use of 'Fenced dog exercise area' is ok language to use however it is subject to further design development. Noted the Junior Football Oval is the primary use with additional community benefit of recreation and additional dog exercise area. Carrington Rd is a risk and that side of the junior oval needs to be safe for dogs.
- Story telling - in the park/art/paths best be one theme of strong spirit (i.e. includes Whadjuk and European stories). Place naming may not want to rename Hilton Park but instead maybe the bidis with endemic species woven in. There are plenty of social needs gaps in the area so partnerships here is a sound idea. The tracks may be ideal to name around the park as way finding.
- Social Capital and 'Keeping the Culture' is key - clubs want their own camps and want to be able to bake their own morning tea if desired and to display memorabilia on walls etc.

### **Supper & Wrap Up (6:30pm – 7pm)**

*All*

### **Outcomes**

- Draft a Council Report for 28 Aug 2024 asking for endorsement of the Masterplan FINAL.

### **Thank You**

Thank you to all for your time.

### **Meeting closed at 7pm**

Last meeting for this Working Group.
