DOWSON, John

Fremantle is a fabulous world famous place that needs high quality development to enhance its special nature. I am concerned about the deteriorating status of Fremantle's finances, and Council needs to start living within its means. I would work to halt the reckless selling of the City's income generating investment properties, such as the historic Victoria Hall and the Leisure Centre car park, which should be retained for the benefit of all Fremantle residents. As President of the Fremantle Society, I am passionate about preserving and enhancing Fremantle's heritage, and have published several books on the topic. As former Deputy Mayor of Fremantle, I would bring experience and balance to Fremantle Council. The deteriorating state of Fremantle is obvious. Too many retailers cannot survive. Fremantle businesses and residents deserve better.
