## MORGAN, Julie

I am described as HONEST, HARDWORKING, and APPROACHABLE.

It is 20 years since the City Ward elected an inner-city resident or property owner; advantage needs to be taken of my strong affinity to the area.

I aim to represent the City Ward with PASSION and COMMITMENT. I believe a councillor is a voice for the local community.

The Fremantle city centre urgently requires a range of new residential full-time inhabitants; the young, the elderly, families, students and those living with disabilities, of all socioeconomic groups; for the city to flourish economically, socially and environmentally.

Developments should be judged not only on their Green Star rating but also on their level of community engagement. The Council needs to bring together developers and organisations, such as the NDIS, to guide Fremantle towards being a diverse, urban environment.

I have the EXPERIENCE, CREATIVITY, SENSIBILITY and RESPONSIBILITY to deliver.
