

Library and information service

Policy scope

The intent of this policy is to specify the framework and principles applying to library and information services.

Policy statement

The City provides a free and accessible library and information service to the people of Fremantle and East Fremantle that complies with appropriate legislative requirements, strategic directions and industry standards. The service meets the library and information needs of visitors.

Citizen access is available to information and ideas on all matters, through published records, in a range of formats including electronic and online. The service is responsive to user needs and changing information technology.
