---

## CUNNINGHAM, Michelle

White Gum Valley has been my home for 25 years. My children went to the local kindy, play group and primary school. I volunteered at all three institutions and at Precinct, Native ARC and a soccer club. I have travelled the world, managed finances and worked for a variety of industries. In this regard, I can represent the diverse views of electors, rate payers and residents - those recently arrived and see their future here, and those already well established and growing their business and families in White Gum Valley and Fremantle. My academic background is in science and education and my analytical, assessing and communication skills can benefit local government decision making. I love learning and stand for transparency, progress and good management. More specifically, transport networks, environmental management, small business and tourism. I look forward to sharing community views with the council and explaining council to communities.
