FPOL2307-9 COMMUNITY FUNDING AGREEMENTS 2023-244

FPOL2307-7 TOWARDS NET ZERO 2050

Proposed amendment submitted by Cr Rachel Pemberton

Amend Officer's recommendation as follows:

Council:

1. Notes the Intergovernmental Panel on Climate Change renewed urgency of limiting global warming and the nation-wide net zero policy context.
2. Supports a position of net zero emissions by 2050 to guide future climate change mitigation planning, with an interim corporate carbon emissions reduction target of **at least** 43% by 2030.
3. Support the preparation of a Net Zero Roadmap to provide a credible costed pathway to lower emissions and guide investment in programs and projects. This includes:
 - a. A Carbon Emission Reduction Strategy identifying initiatives to reduce emissions, increase efficiencies and source renewable energy set out on a four yearly basis. The initiatives will include estimated levels of carbon reduction, net costs and savings, and be prioritised to optimise investments.
 - b. A Climate Change Policy establishing guiding principles, setting commitments, and criteria for purchasing suitable high-quality offsets.
 - c. **Annual Carbon Inventory Accounting Reporting to report on greenhouse gas emissions and progress towards achieving emission reduction targets. ~~demonstrate emissions reduction and impact of investment.~~**
 - d. **Notes the preparation of a Net Zero Roadmap will show due regard for, and build upon, existing climate change strategies, plans and policies.**
- ~~4.~~ **5.** Supports the preparation of public communications on the net zero targets, developing the City's comprehensive sustainability framework, and transitioning away from carbon neutral.
- ~~5.~~ **6.** Supports discontinuing the City's annual certification peer review with Bioregional UK and Bioregional Australia membership.

6- 7. Note the adopted 2023/24 budget includes the transfer of \$250,000 to the Sustainability Investment Reserve for investment into carbon reduction initiatives, projects and programs.

Reason for change:

The target is a base, not a ceiling. The Climate Council recommends 75% decrease on emissions by 2030 so we really need to aim as high as we can get.

We also need to continue on and build upon the work that has already been done. Plus we need transparent regular reporting and monitoring so as not to allow the ball to be dropped on this important issue (as happened with the energy plan).

FPOL2307-9 COMMUNITY FUNDING AGREEMENTS 2023-24

Officer's proposed amendment:

Council:

1. Endorse the following community funding agreements (exc GST) for the period 30 July 2023 – 30 July 2024 for:
 - a. Imagined Futures - \$10,000
 - b. Fremantle Men's Shed - \$20,000
 - ~~c. Fremantle Foundation - \$15,000~~
 - d. Fremantle Surf Life Saving Club - \$34,500
- ~~2. Note that these community funding agreements will cease on 30 July 2024 coinciding with the commencement of the community funding policy framework.~~
2. Suspend consideration of the funding allocation of \$15,000 to the Fremantle Foundation, pending more information to be provided on the future of the Impact100 Fremantle program.
- ~~4.~~ 3. Note that these community funding agreements will cease on 30 July 2024 coinciding with the commencement of the community funding policy framework.

Reason for change:

The Fremantle Foundation recently announced that it is suspending Impact100 which the City funds and is a key deliverable of the of the agreement. Therefore, it is prudent for Council to consider suspending the decision to fund the Foundation until there is clarification on the funding agreement between the City and the Fremantle Foundation.

FPOL2307-9 COMMUNITY FUNDING AGREEMENTS 2023-24

Amendment submitted by Cr Rachel Pemberton

Include a new part 3 to the Officer's recommendation as follows:

Council:

- 1. Endorse the following community funding agreements (exc GST) for the period 30 July 2023 – 30 July 2024 for:**
 - a. Imagined Futures - \$10,000**
 - b. Fremantle Men's Shed - \$20,000**
 - c. Fremantle Foundation - \$15,000**
 - d. Fremantle Surf Life Saving Club - \$34,500**
- 2. Note that these community funding agreements will cease on 30 July 2024 coinciding with the commencement of the community funding policy framework.**
- 3. Requires the funding recipients to:**
 - a) acknowledge the financial contribution from the city, as per the sponsorship policy, and**
 - b) provide an acquittal at the conclusion of the agreement that provides meaningful evidence of the outcomes / results of the agreement**

Reason for change:

To ensure good governance, accountability and acknowledgement in a consistent manner when community groups receive city funds.
