FPOL2207-3 SOUTH FREMANTLE LANDFILL SITE – SOLAR FARM PROJECT.....2

FPOL2207-3 SOUTH FREMANTLE LANDFILL SITE – SOLAR FARM PROJECT

Proposed amendment submitted by Cr Rachel Pemberton

Council

- 1. Authorise the Chief Executive Officer to write to Epuron Projects Pty Ltd to give notice of the termination of any continuing informal extension of the Exclusive Working Agreement between the City of Fremantle and Epuron dated 30 August 2017.**
- 2. Terminate any further work by the City on facilitating development of a large-scale solar electricity generation facility (solar farm) on the former South Fremantle landfill site pending the outcome of Council’s consideration of the further report referred to in part 3 below.**
- 3. Request officers to prepare a further report on options for potentially suitable alternative uses for the former South Fremantle landfill site for Council’s consideration. Options for investigation should not necessarily exclude some form of solar or other type of renewable energy project, and as part of the investigation of potential alternative uses the scope of the report should include estimates of the costs of site remediation needed to enable potential uses to occur within the short to medium term future (next 5-10 years).**

Reason for change:

To allow the investigation of potential alternative future uses of the site to include a wide range of options (including possibly a combination of different uses) and to provide updated information on likely costs of remediating the site in a timely manner.
