## MIOSICH, Tony

I have been a resident of Fremantle almost my entire life and passionate about the local community where I live.

I have previously represented the City as an elected member in 1997 and re-elected in 2001 attaining the position of deputy chairman of the development assessments committee.

Currently a Justice of the Peace, I have kept in touch with community and council activities through precinct meetings and other initiatives and have the credentials and experience necessary to fulfill the role of Councillor and seek your support.

Local Government can improve with back to basic services. The rates that are paid by the residents should be conducive to the amount of services received.

If given the opportunity this will be my priority. Also ensuring the suburbs of Hilton, Samson and O'Connor are considered favorably and be given a much greater portion of the budget that it so rightly deserves.
