ARMC2306-1 INFORMATION REPORT – UPDATE ON THE ROLLOUT AND IMPLEMENTATION OF THE RISK MANAGEMENT FRAMEWORK

Meeting Date:	19 June 2023
Responsible officer:	A/Manager Governance
Decision making authority:	Council
Attachments:	Draft strategic risk register dashboard
Confidential Attachments:	Nil

In November 2021, Council adopted a new Risk Management Framework (RMF), which committed the City to implementing practical and comprehensive risk management approach, to ensure effective management of risk remains central to the City's activities.

Since adoption of the RMF, the following actions have been undertaken to rollout and implement the framework across the City:

1. RMF published on the City's website for public viewing, and on the City's internal intranet for employee access.
2. Risk Management training has been rolled out to the Executive Team, Management Team, and key officers. On-going training and support is provided to officers as required.
3. A range of City documents and processes have been reviewed and updated to align line with the RMF, and the framework has been incorporated into the City's new corporate planning processes.
4. New Corporate Risk Registers have been developed to capture the City's Strategic Risks, Operational Risks, Project Risks and Emerging Issues, in-line with the RMF.
5. The Executive Team have developed the following nine (9) strategic risks based on the key risk categories identified in the RMF. Each risk identifies a potential threat of event that may have an affect the City's ability to achieve its strategic objectives.

Ref No.	Risk Category	Risk Description
S001	People	Loss of corporate skills, caused by, labour market changes, resulting in, loss of capacity to deliver.
S002	Finance	Unable to deliver on organisational objectives, caused by, insufficient funding and inadequate planning, resulting in, reduced ability to meet organisational needs.
S003	Stakeholders & Reputation	Lack of understanding of our direction and vision caused by inconsistent communication
S004	Performance	Reduction of services levels, caused by insufficient corporate and business planning, resulting in not delivering on expectation of services levels and organisational goals
S005	Legal & Compliance	Non-compliance and not meeting statutory obligations caused by lack of good governance processes, knowledge and understanding of legislation resulting in poor decision making.
S006	Community / Social	Inadequate community amenity and wellbeing, caused by inappropriate planning, resulting in reduced community inclusion, accessibility, safety and participation.
S007	Environmental	Not achieving government sustainability targets, caused by, lack of commitment, funding and advocacy, resulting in, damage to the City's reputation
S008	Commercial / Economic	Decline of Fremantle as an economic centre, caused by, inadequate planning, policy and reputation, resulting in, a decline of business investment and loss of business confidence.
S009	Heritage	Loss of reputation as a significant heritage City, caused by inadequate planning controls and maintenance programs, resulting in erosion and decline of economic capacity and Fremantle's point of difference.

The strategic risk register provided in attachment 1 will continue to be developed, monitored, and reviewed by the Executive Team on an on-going basis, to ensure continuous improvement and effectiveness of the City's risk management. Regular progress updates will be provided to the Audit and Risk Management Committee.

Phase two of the RMF rollout includes identifying and developing the City's Operational Risks. This process will focus on the operational activities of the City, to identify the key operational risks that may affect the delivery of services and activities provided by each business unit.

ARMC2306-6 OVERDUE DEBTORS REPORT AS AT 31 MAY 2023

Meeting date:	19 June 2023
Responsible Officer:	Manager Financial Services
Decision making authority:	Council
Attachments:	Nil
Confidential Attachments:	1. Summary of Overdue Debts above Threshold

SUMMARY

This Overdue Debtors Report, with confidential attachment, is provided to the Audit and Risk Management Committee to report details of overdue debts, as at 31 May 2023, and identify those where the amount owing is over 90 days with a total debt exceeding \$10,000.

This report recommends that Council receive the Overdue Debtors Report and acknowledge the overdue debts exceeding 90 days that have a combined value greater than \$10,000 as at 31 May 2023.

BACKGROUND

This report provides the Audit and Risk Management Committee the following information in relation to overdue debtors:

- The amount of total debt outstanding for the period aged from current to over 90 days overdue with a comparison to the same period for the previous year.
- All records of the uses of delegated authority, to waive or write off debts valued at \$1,000 or above.
- A confidential report containing the individual debtor information in relation to the outstanding debts exceeding 90 days with a combined value of debt, by debtor, exceeding \$10,000.
- The Debtor Day Ratio, being the average number of days taken for the City to receive payment from its customers for invoices issued to them.

FINANCIAL IMPLICATIONS

It is a requirement that annual financial statements include an allowance for impairment of receivables owed to the local government to be recognised as a cost to the budget in the year in which the impairment is made.

As at the year ending 30 June 2022 an amount of \$165,134 was held as an allowance for impairment of sundry receivables. As at 31 May 2023, the current allowance held as impairment is \$160,937 with a total of \$4,197 being waived or written off to date in the 2022/23 financial year of which one debt is over \$1,000 which is reportable to the Audit and Risk Committee.

Summary of Sundry Debtors

As at 31 May 2023 a total of \$4,197 in Sundry debts have been waived or written off during the 2022/23 financial year.

Summary of Rates Debtors

As at 31 May 2023 no Rates debts have been waived or written off during the 2022/23 financial year.

LEGAL IMPLICATIONS

Section 6.12 (1) (c) of the *Local Government Act 1995* provides authority for the Council to write off outstanding monies.

In accordance with section 5.42 and 5.44 of the *Local Government Act 1995* the following delegated authority applies:

- The Chief Executive Officer has delegated authority to write off debts (not including rates or infringement) considered unrecoverable up to \$50,000 per account where, in the opinion of the Chief Executive Officer, all other reasonable avenues of recovery have been exhausted.
- Directors and Managers have various sub-delegated authority to write off debts (not including rates or infringement) considered unrecoverable up to \$20,000 per account where, in the opinion of the Director or Manager, all other reasonable avenues of recovery have been exhausted.

All records of the uses of this delegated authority, to waive or write off debts valued at \$1,000 or above, per debtor, must be reported to the Audit and Risk Management Committee.

Any amount more than \$50,000 is to be written off by Council resolution. A Council resolution authorising the write-off of any bad debt does not prevent Council from reinstating the debt if the future circumstances change and the debt becomes collectable.

CONSULTATION

OFFICER COMMENT

The total of debts outstanding as at 31 May 2023 was \$855,913. A breakdown of aged debt for the current period compared to prior year is tabled below.

Period Ending	Current	30 Days	60 Days	90+ Days	Total
July 22 – May 23	46%	5%	6%	43%	100%
	390,301	45,688	54,774	365,150	855,913
July 22 – May 23 Excl. Commercial Properties	53%	11%	16%	20%	100%
	156,063	31,777	48,777	60,557	297,174
July 21 – May 22	577,171	59,168	412,343	321,951	1,370,633

The graph below shows the aged debt balances as at 31 May 2023:

Compared to the report of overdue debtors as at 28 February 2023, presented to Audit and Risk Management Committee at the 19 April 2023 meeting, the total value of outstanding debts has increased slightly from \$852,499 to \$855,913.

Total outstanding debt over 90 days has increased from \$321,951 at the end of the previous reporting date to \$365,150.

The number of overdue debtors over 90 days, and above the total debt reporting threshold of \$10,000, has increased from six to seven. Of the seven reported, three debtors have decreased and two have increased values of debt since the prior reporting period.

These seven debtors have a total debt owing of \$298,908 of which \$294,606 is over 90 days. The confidential attachment contains details of the debtors comprising this balance.

Key Performance Indicators

When determining status or risk associated with outstanding debtors, officers typically consider and assess the following metrics:

- Total amount of outstanding debt
- Age of outstanding debt (and value of that debt)
- Frequency of payment of outstanding debt
- Outstanding debt per individual debtor
- Outstanding debt per type of debtor

Officers consider all of these metrics alongside each other as well as the debtor day ratio to assist in providing an overarching assessment of general performance of outstanding debtors. The debtor day ratio measures how quickly cash is being collected from debtors regardless of the level of total outstanding amount of debt or the type of debt, allowing for a consistent metric that will identify periods where debtors are taking longer to pay down outstanding debt.

A number of metrics have been provided to follow that provide an initial snapshot of performance and or status of outstanding debtors to follow.

Debtor Day Ratio

The Debtor Day Ratio measures how quickly cash is being collected from debtors. The longer it takes for an organisation to collect, the greater the number of debtor days.

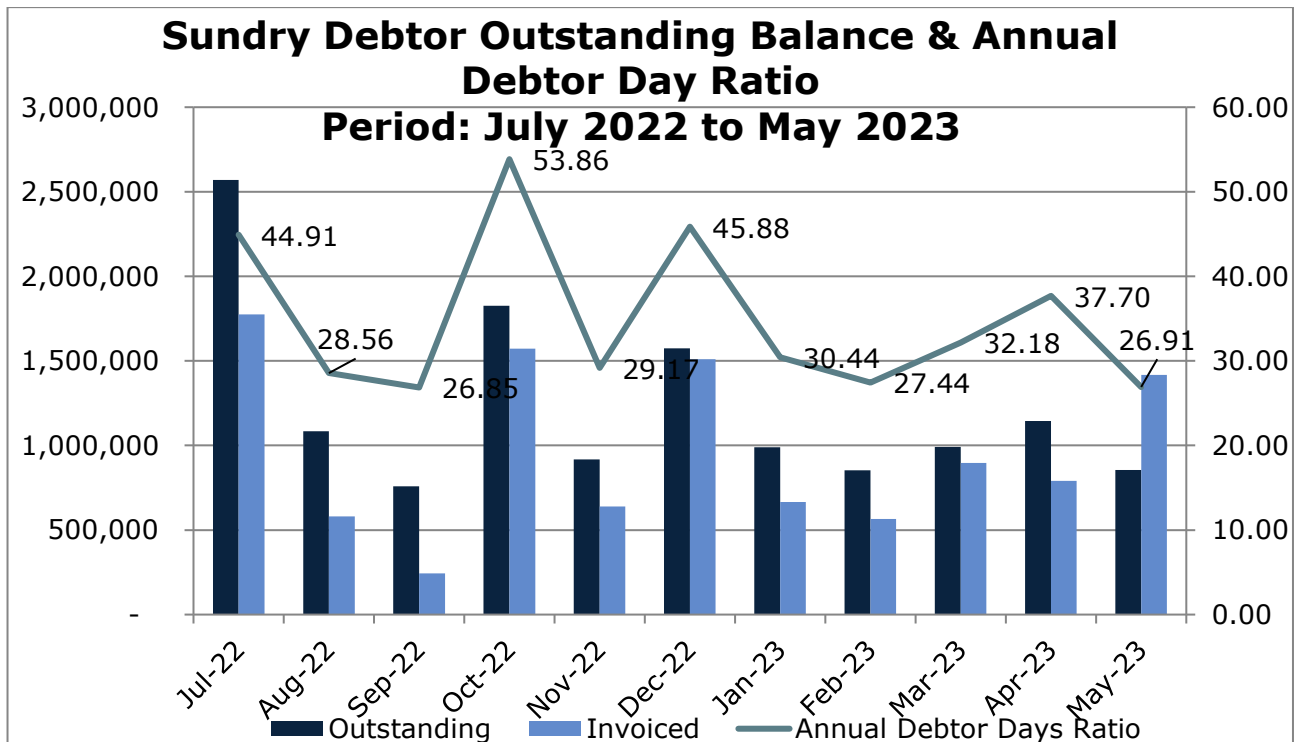

The calculation of the ratio considers the total amount outstanding at the end of the period divided by the total amount invoiced to that period for the financial year. This is then multiplied by the total number of days from 1 July to the end of the period. See calculation in the graph to follow.

Prior financial year information is presented together with the current financial year as a comparative to demonstrate the City’s ability to collect funds owed to the City when due.

As at 31 May 2023, the Debtor Day Ratio was 26.91 – being a decrease from the prior reporting period as at 28 February 2023 – of 27.44. Of outstanding debt as at 31 May 2023, 42% related to current invoices that were not yet due.

The chart to follow indicates a positive trend since July 2022 with a notable reduction in debtor day ratio over time, indicating that on average outstanding debt is being collected more quickly. There has also been a significant reduction in total amount of outstanding debt since July 2022.

Age of Debt

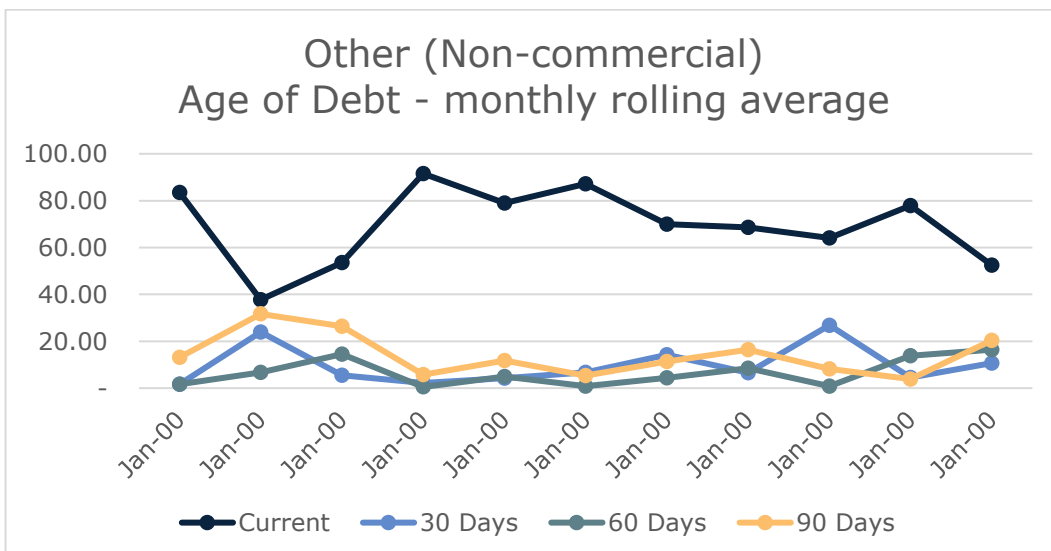

The rolling 12-month Average for debt in each age category is shown in the graphs to follow for Commercial and Other (non-commercial) debt. These graphs show the 12-month average as at each point in time, to provide a view of the trend of the City’s aged debt portfolio.

The monthly rolling average of Commercial debt shows that the portion of debt that is current has increased and remains below 42% while the portion of debt that is over 90 days has remained steady over time and appears to be decreasing in recent months. This currently includes debts associated with 2 commercial property debtors carrying a significant portion of the outstanding debt. This represents a positive trend and indicates an increasing percentage of debt being paid earlier. The portion of debt in the 30-59 days and 60-89 days has not significantly changed.

For Other (non-commercial) debt, the trends are also positive with current debt trending to represent a larger percentage of the total debt over the last 11 months and ended in May 23 being 53% of the outstanding balance. Debts over 30 days due have remained below 30% over the review period. This indicates a high degree of debts being collected timely.

The Current Value of Debt by Age category is shown in the graph to follow, split between Commercial Properties and Other (non-Commercial) Property Types:

Of total debt, Commercial Properties account for 53% (\$234K), and account for 21% of the debt owing 90 days or more (\$305k).

City officers continue to liaise with all commercial tenants to provide assistance, including payment arrangements, where appropriate.

Impact of COVID on Commercial Property

As at 1 April 2021 all COVID-19 waiver arrangements came to an end and 100% of normal rent became payable.

The total amount waived for commercial properties relating to COVID-19 during both the emergency period and recovery period was \$656,975.

After waivers the City invoiced a total of \$492,579 for commercial properties.

To date, of the \$492,579 only \$7,090 remains outstanding. This is a reduction from the prior reporting period of \$ 3,776 with all debtors currently paying their debts progressively via direct debit arrangements.

ARMC2306-3 AUDIT ACTIONS UPDATE – MAY 2023

Meeting date:	19 June 2023
Responsible officer:	Director City Business
Decision making authority:	Council
Attachments:	Nil
Confidential Attachments:	1. Audit Actions Register

SUMMARY

This report provides an update on the status of actions arising from annual audits carried out in line with statutory requirements.

The report requests the Audit and Risk Management Committee receive and note the current list of audit actions and status associated with each.

BACKGROUND

Currently the City of Fremantle participates in or undertakes the following audits as required under the Local Government Act:

- Audit of annual financial statements
- Audit of General computer controls and information systems
- Audit of Financial management (Regulation 5)
- Audit of general systems, procedures and controls (Regulation 17)

The Financial Audit and General Computer Controls Audit are carried out by the Office of the Auditor General (OAG) and assess both financial and information technology related compliance and controls.

The Regulation 5 and Regulation 17 audits are carried out by external auditors engaged by the City.

Each audit results in a series of recommendations being made by the auditor, which the City reviews, tracks and actions accordingly. Recommendations are rated based on risk and severity and the city prioritises any remediation required on that basis.

The attached audit register provides information regarding the status of each action and progress associated with each.

FINANCIAL IMPLICATIONS

Nil.

LEGAL IMPLICATIONS

The City considers and actions audit recommendations in line with its requirements under the local Government Act.

CONSULTATION

Audit recommendations are implemented and actioned in consultation with auditors to ensure accurate interpretation and understanding of audit recommendations.

OFFICER COMMENT

Following feedback received at the previous audit and risk committee, officers have developed an interim approach to reporting audit information via spreadsheet. This consists of a simplified spreadsheet that aggregates reporting on all audits and provides committee members with a clear and succinct update on each finding.

The interim audit action register has been developed as part of the continuous improvement of the City's management and reporting of audit activities and findings.

Noting that this is a temporary approach to reporting this information, officers are scheduling a workshop in the coming weeks to seek further feedback from committee members on the method of reporting they would most benefit from.

The interim audit action register provides a summary report of all the current open audit findings, recommendations, and progress comments from the various audit activities; as well as recently completed actions.

Noting that full audit reports are presented to the Audit and Risk Committee upon completion of each audit, the register provides an ongoing summary update on status and includes the following information:

- The core finding identified by the relevant audit.
- The associated risk rating as identified by the auditor.
- The Auditor's core recommended actions.
- The officer responsible for implementing the action.
- Indications of which audits resulted in the core finding, whether it be the OAG financial or IT audits, Regulation 5 or 17.
- Comments on progress made, and current status of action being taken by the City.
- Estimated completion date and actual completion date for the items that have been resolved.

The most recent audit to be carried out was the Regulation 5 Audit, which is also being presented in this agenda (ARMC2306-7). For ease of cross-reference, specific findings outlined in the Regulation 5 final report being presented in this agenda have been clearly referenced in the interim audit action register.
