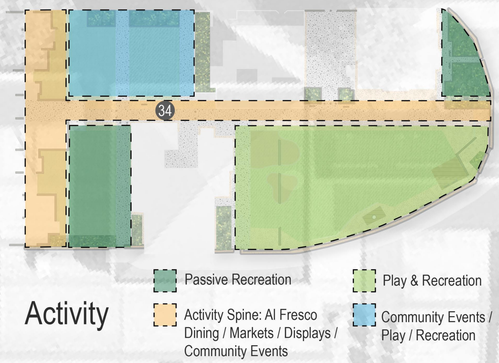
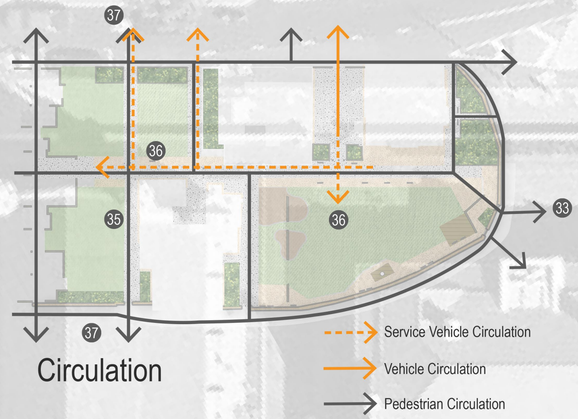
- PROPOSED TREE 200L - DECIDUOUS WITH TREE GRATE
- POTENTIAL RELOCATED TRANSPLANT TREE
- PAVING
- TIMBER DECKING
- TURF
- CONSOLIDATED GRAVEL
- PLANTING IWTH SUB-SURFACE IRRIGATION
- ORGANIC MULCH
- EXISTING LIMESTONE WALL
- PROPOSED 450 MM HIGH WALL
- SEATING
- REMOVABLE BOLLARDS





1. Bar terrace.
2. Public piazza.
3. Café terrace.
4. Public walkway between Adelaide St and Cantonment St with public art and children's play sculpture.
5. Outdoor cinema screen to be removed.
6. All turf areas to be levelled.
7. Relocate CCTV mast away from open grassed area.
8. New irrigation system throughout. Relocate bore, electrics and pump discharge away from open grassed area.
9. Lower ground levels around all heritage buildings to below damp courses, with installation of breathing strips against building and boundary walls as required.
10. Potential for new opening(s) in the rear wall of the former school building to better connect internal uses to the central activity spine.
11. Possible café.
12. Potential al fresco area.
13. Remove existing parking area.
14. Upgrade the Cantonment St footpath and street trees.
15. Clancy's service area.
16. Parking; to be shared by park tenants.
17. Urban play space with schoolyard theme and low seating wall to interpret former dividing fence between the boys and girls schools.
18. Prepare heritage interpretation plan to address interpretation opportunities identified in the Princess May Park Conservation Plan.
19. Provide bench seats, tables (with chess boards), bike parking rails, drinking fountain and litter bins at appropriate locations.
20. Use a limited selection of paving materials that suggest the park's former use as school playgrounds, e.g. asphalt, consolidated gravel, etc.
21. New lighting throughout the reserve, particularly along paths, around buildings and to highlight the stone boundary wall. Lighting infrastructure to be unobtrusive.
22. Provide adequate power supplies for events and community activities along the central activity spine.
23. Prepare a signage policy and design for consistent use for public, commercial and interpretive signage.
24. Relocate existing *Ficus* tree to elsewhere in the reserve.
25. Under prune trees to improve views of the heritage facade and tower.
26. Low timber decks at seat height for play and other activities. The deck locations also interpret the sites of former school buildings.
27. Conserve stone boundary wall.
28. Interpret alignment of former boundary wall in the footpath paving.
29. Remove existing fence and relocate adjacent to the former boys school.
30. Widen the Adelaide St footpath by removal of the left-turn only traffic lane.
31. New park entry with self-closing gate to replace existing fence grill.
32. Investigate relocation of advertising banners from the fence to enable views into the park and reduce damage to the fence.
33. Proposed new signalised pedestrian crossing path.
34. Events limited to local community and private activities and small cultural, entertainment and commercial events. Locations generally restricted to the activity spine and the Cantonment St grassed quadrangle.
35. Interconnected pedestrian paths through the reserve following key desire lines and connecting facilities within the park and beyond.
36. Controlled vehicle access for park maintenance, setting up events, etc. No on-site parking to be permitted during events.
37. Pedestrian paths to be linked across Adelaide and Cantonment Streets to adjacent major land uses.
