It has been an honor to serve you in my first term and I am seeking your support, so that I can continue as your representative. Through my experience as a school teacher and involvement in community groups, I have seen the many benefits that participation and cooperation brings to people of all ages and backgrounds. As a 4th generation Fremantle Cray Fisher and Vice Chair of Western Rock Lobster, I'm proud to be part of the world's first (MSC) certified sustainable fishery. I believe that sustainable models are important to all aspects of life. If re-elected I will promote stronger communities and believe that council needs to emphasis the ratepayer interests first and foremost. My focus will be on local government issues, supporting policies that promote safe, family friendly communities, while exercising prudent financial management. I am always keen to get your feedback and will always listen. I am a proud Fremantle person and I want our children to feel the same way.
