Since being elected as your Mayor, we've achieved a lot together. City finances are in a stronger position, footpaths are being repaired and we've doubled street cleaning capacity. Investor confidence is up, with significant, high-quality developments approved and social housing projects supported. We've prioritised beach infrastructure, providing better parking, BBQs, changerooms and playgrounds.

There's still work to be done, and if re-elected, I will make sure our city caters for all. Increased city centre density will support local shops and provide places to live for renters and buyers. Upgraded infrastructure will allow our creative industries to thrive, and more support for our most vulnerable will ensure that everyone feels safe on our streets. Investment in green spaces and tree canopy will cool our city.

With your vote, I will continue to work tirelessly to deliver for Fremantle, with practical, positive solutions to the issues and opportunities of today, and tomorrow.
