These past four years on Council I have enjoyed making a positive difference in people's lives. I was able to champion new city policies to protect mature trees on private property, led the charge to create a working group focussed on ensuring our live music venues will thrive as developments are built around them, and worked alongside elected members from neighbouring local governments to develop a coordinated approach to environmental issues that extend beyond local government boundaries.

If elected - I will be a full-time mayor who is 100% focused on delivering the best outcomes for our Port City. **Vote Ben LAWVER #1 for Mayor.**
