

### **Additional Information**

I'll be an independent voice for North Fremantle no political party affiliations, no activist agenda, just common sense for our community.

North Freo needs better pedestrian corridors from the east side of the train station to the beach. Council must lobby the PTA for real outcomes. Leighton Beach Blvd needs traffic calming to make it safer and more liveable. Across Fremantle, we must push for underground power to protect and grow our tree canopy. Booyeembara Parks amphitheatre plans should be reviewed, this incredible community asset deserves to be restored, not left to rot.

I'll stand up for small businesses and local jobs. Freos traders and hospitality venues are the heart of our town. I'll push for practical policies that cut red tape, support events, and bring more customers to our streets.

I'll fight to protect Fremantle's heritage and coastline. Our character and coast are worth preserving not just studied endlessly. I support responsible renewal and protection, not spin.

Above all, I'll put community before politics. Council should solve problems, not play politics. That means safer streets, better upkeep, and services that actually respond to residents needs.

FY25 unaudited results show a \$6M operating deficit. Only half of the capital budget was spent \$10.7M against \$21.5M. Is this strong financial management? Ratepayers are still footing the bill for civic centre blowouts, while the building sits empty. The Long-Term Financial Plan is riddled with questionable assumptions, including a \$100M Oval redevelopment with no business plan.

Live Local.
