

**Additional Information**

I am running on a platform of 'For A Connected Community'. For me, this means three things:

First - ensuring the community has a representative that is an effective conduit to council. That means proactive, responsive communication so residents can access information and council staff in a timely way when needed.

Second - building physical connections that help us move safely and efficiently across our city. I will advocate for better pedestrian access and cycleways along with safer roads. It means welcoming the new bridge and ensuring we manage the transition as smoothly as possible for residents and small businesses.

Third - supporting the arts, cultural and sporting groups that are the hubs and lifeblood of our community. These groups bring vitality to our city, and I will work to ensure council continues to foster an environment where they can thrive.

I am energised by the opportunity to contribute to our community as your representative and am pleased to ask for your support and your vote.
