Supply and Delivery of One (1) Bitumen Patching Truck FCC668/24

The City of Fremantle requires the supply and delivery of one new Bitumen Patching Truck fitted with a Flocon HDCC4 body. These vehicle specifications have been designed to ensure suitability for the required tasks, durability, and compliance with operational needs. In alignment with the City of Fremantle's commitment to sustainability and reducing its environmental footprint, the City is also seeking pricing for an alternative to the standard internal combustion engine (ICE) truck with equivalent specifications. This includes the provision of hybrid or fully electric models, hydrogen-powered vehicles and other relevant proven technologies, offering lower emissions and energy efficiency. While this option will be considered separately from the primary tender requirements, the City reserves the right to select and procure this alternative at its discretion, if deemed to better serve long-term operational goals and environmental objectives.

Documentation:
Tender documents can be obtained by registering to the City's e-tendering portal at Tenderlink. <https://portal.tenderlink.com/fremantle/>

Lodgement & Deadline:
Tenders must submit their submissions electronically via the same portal no later than **2pm AWST, 10 December 2024**. Facsimile or hand delivered tenders will not be considered. Canvassing of Council members will result in disqualification. Further information can be obtained from Mario Rengifo (08) 9432 9933 during normal office hours.
