

Hilton Park Masterplan

Project Overview

Creating a greener, more connected place for sport, recreation and community.

Hilton Park is Fremantle’s largest recreation and sporting open space. Over the coming years, it will be transformed into a modern community destination with improved sporting facilities, greener parklands and new spaces for people to gather, play and connect.

The redevelopment is guided by the Hilton Park Precinct Masterplan, developed with extensive community input and adopted by Council in September 2024.

Legend

- Central pedestrian walkway/ community spine
- Pedestrian path
- Perimeter path (fitness loop)
- Cycle path (internal shared space)
- Cycle path (existing Carrington Street)
- Playing surface (turfed fully irrigated)
- Turf – run off areas/parkland (seasonally irrigated)
- Staircase and ramp connection
- Level transition play element (slide)
- Mulch (disc golf fairway/ playground)
- Retained and protected existing trees
- New endemic trees
- Low-lying endemic understorey planting
- Car parking (permeable paving)
- 1 Flood lighting
- 2 Habitat boxes
- Spectator viewing/seating hardstand
- 3 Hydration stations
- 4 Dog-off leash area (low mesh fencing)
- 5 Ball run-off protection fencing (high mesh fencing)

This Hilton Park Masterplan design is indicative, developed from the preferred **Option 5** during community consultation.

Further design development resulted in rotation of Junior AFL oval — as can be seen under **Stage 1: Northern Section** information.

Scan the QR to visit the **Hilton Park Precinct** page for more information.
